Cholam—*Sorghum Vulgare*
Kadale—(Bengal gram) *Cicer Arietinum.*

DISTRICT REPORTS.

8. Markets how supplied.
9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.
10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.
11. Public health.
12. Remarks as to the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	$7\frac{1}{4}$	$5\frac{3}{4}$ to 6	seers per rupee.
	Ragi ...	$19\frac{1}{2}$	12 to 13	

Agricultural operations.—Weeding in ragi and paddy fields.

Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Agricultural operation.*—Weeding process is nearing completion all over the district.

Standing crops, viz., sugar-cane, mulberry and paddy are in urgent need of water; so also is the dry crop of ragi which is reported to be fading for insufficiency of rain. More rain is badly wanted.

10. Stock of food grains sufficient, but their prices are reported to be as high as before.

11. Public health generally good, except for plague, reported to be prevailing in certain parts of the Kankanhalli, Bangalore, Magadi, Dodballapur, Devanhalli, Anekal, Nelamangala and Hoskote Taluks.

12. Cattle are affected with Rinderpest in certain villages of the Virupakshipura hobli, Channapatna Taluk. It is reported that "Chappe Roga" has broken out in Shanbhoganahalli, Closepet Sub-Taluk. In other parts of the district, cattle are healthy. Drinking water and fodder are reported to be available in sufficient quantities.

KOLAR.

8. Market well supplied.

9. *Standing crops.*—The recent showers throughout the district have done considerable good to these. They are thriving well.

Crops sown.—Ragi in Bowringpet and Sidlaghatta; gingelly in Mulbagal, Sidlaghatta and Bagepalli; paddy in Mulbagal; and horse gram throughout the district.

Crops harvested.—Gid ragi in parts of Bowringpet and Bagepalli.

Outturn of harvest:—

Bagepalli and Bowringpet—Gid ragi, yield 12 annas.

10. Prospects of the season fair, but more rain is needed throughout the district. Food stuffs are available, but their prices continue to be very high.

11. Except for plague in a few villages in the Kolar, Malur, Sidlaghatta and Chikballapur Taluks, and cholera in the Maradaghatta village, Bowringpet Taluk, public health generally good.

12. It is reported that "Rinderpest" is prevailing among cattle in parts of Sidlaghatta, Chikballapur, Bagepalli, Goribidnur and Gudibanda. Water and fodder available. Fodder is just sufficient.

TUMKUR.

8. Market well supplied.

9. *Standing crops* are reported to be in moderately good condition in the taluks of Tumkur Chiknayakanhalli, Sira and Koratagere and recent showers have improved their condition in Maddagiri, Gubbi and Pavagada. They are withering for want of rain in parts of the Tiptur and Kunigal Taluks. In Turuvekere they need more rain.

Crops sown.—Horse gram in all the taluks except Sira and Kunigal.

Crops harvested.—Sugar-cane in Tumkur, Gubbi and Turuvekere; cholum in Maddagiri, Sira, Gubbi, Tiptur and Koratagere and nat ragi in Pavagada.

10. Prospects of the season fair, but more rain is needed in the Tiptur, Kunigal and Turuvekere Taluks. Food stuffs are available in sufficient quantities, but their prices continue to be high.

11. Public health generally good, except for cholera at Kyathagonacharlu, Pavagada Taluk.

12. Cattle generally healthy, except in certain parts of Tumkur, Chiknayakanhalli, Sira, Tiptur and Kunigal where they are suffering from "Dod Roga." It is subsiding in Maddagiri and Gubbi. Water and fodder are available for the present. Date leaves are being used as fodder in Tiptur, Kunigal and Turuvekere.

MYSORE.

8. Market well supplied.

9. *Agricultural operations.*—Transplanting of paddy in parts of the Seringapatam, Malvalli and Mandya Taluks.

Standing crops in parts of the Chamrajnagar, Nanjangud, Malvalli, Mandya and Krishnarajpete Taluks are reported to be withering for want of rain. Transplanted crops in parts of Chamrajnagar and paddy crop in dry fields in the Hunsur Taluk are also reported to be withering for the same reason.

Crops harvested.—Ragi and til in parts of Heggaddevankote and cholum in parts of the Gundlupet Taluk.

10. Prospects of the season generally good. But rain is urgently wanted throughout the district. Food stuffs are sufficient for the present, but their prices are on the rise.

11. Except for plague in a few places in the district, public health generally good.

12. Cattle generally healthy. But "Dod Roga" in parts of the Mysore, Chamrajnagar. and Gundlupet Taluks and "Sappe Roga" in parts of the Mysore Taluk are still prevailing Tanks and wells in parts of the Chamrajnagar, Gundlupet and Nanjangud Taluks are reported to be running dry. Fodder available.

HASSAN.

8. Market well supplied.

9. *Agricultural operations.*—Ragi is being transplanted in the Arsikere Taluk.

Standing crops.—Sugar-cane in the Belur Taluk; paddy and ragi in the Manjarabad Taluk; paddy, sugar-cane, togari, avare and kulthi in the Channarayapatna and Hole-Narsipur Taluks are reported to be in somewhat good condition. It is reported that the paddy crop in the Manjarabad Taluk is being damaged by insects.

Crops harvested.—Gid ragi in the Hassan, Arkalgud and Hole-Narsipur Taluks; cardamom in the Manjarabad Taluk; and sugar-cane in the Channarayapatna Taluk are being harvested.

10. *Prospects of the season.*—Early showers are required in almost all parts of the district for the withering crops.

11. Except for plague in parts of the Hassan, Belur and Channarayapatna Taluks, public health generally good.

12. Cattle are generally in good condition. "Dod Roga" is reported to exist in parts of the Hassan, Manjarabad and Arkalgud Taluks and in parts of the Alur Sub-Taluk. Water and fodder are available, except in parts of the Arsikere and Channarayapatna Taluks. It is reported that in the Arsikere Taluk, cattle are being driven to Hassan, Kadur and Belur sides for grazing in the kavals, and in the Channarayapatna Taluk, they are fed on grass available in sugar-cane fields and on mungar-cholum stalks. In the arid parts of both these taluks, raiyats were found, on inspection, to have sufficient stock of dry fodder for cattle.

SHIMOGA.

8. Market well supplied.

9. *Standing crops, viz.*, paddy, ragi, jola, avare, togari, gingelly, black gram, green gram and sugar-cane are suffering for want of rain.

Crops sown.—Cotton in the Honnali Taluk and horse gram in the Kumsi Sub-Taluk are being sown.

Crops harvested.—Green gram, black gram and gingelly are being harvested in portions of the Honnali Taluk, and arecanut is being gathered in the Sagar, Nagar and Tirthahalli Taluks.

10. Prospects of the season are not serious but want of rain is generally felt throughout the district and the situation has to be carefully watched. Food grains are available, but their prices continue to be high.

11. Public health generally good. But plague still prevails in the town of Shimoga and Channagiri and in a few villages of the Shimoga Taluk.

12. Murrain prevails in all the taluks, except Nagar and Thirthahalli. Fodder and water available but not in quantities usual at this season.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Transplanting of paddy in Koppa, Yedahalli and Sringeri is still going on.

Standing crops.—

In Chikmagalur—Paddy, ragi, avare, sugar-cane, til, togari, jola and coriander are withering for want of rain.

In Kadur—Ragi, horse gram, jola, paddy, sugar-cane, til and garlic are in fair condition. They still need rain.

In Tarikere—Paddy, ragi, jola, avare, togari, coriander, horse gram, savé, navane, chillies and sugar-cane are badly in need of rain.

In Koppa—Sugar-cane, coffee, cardamom and pepper are reported to be in good condition.

In Mudgere—Paddy, ragi, coffee and cardamom.

In Yedahalli—Sugar-cane, arecanut and coffee.

In Sringeri—Paddy and areca are in good condition. Rain is very badly wanted especially in the maidan parts of the district. Arecanut crop in Koppa, Yedahalli and Sringeri is still reported to be affected with "Kole Roga" in a mild form.

Crop sown.—Horse gram in Tarikere.

Crops harvested and their yield.—

Chikmagalur—Gid ragi, jola, til and coriander, yield from 2 to 6 annas.

Kadur—Sugar-cane, yield 8 annas; gingelly and jola, yield 4 annas and garlic yield, 4 annas.

Tarikere—Yellu and baragu on a small scale.

Mudgere—Cardamom yield, 8 annas.

10. Prospects of the season fair in the malnad, but causing considerable anxiety in the maidan parts of the district for want of rain. Rain is wanted throughout the district. Food stuffs are available but their prices continue to be high.

11. Except for plague in the Chikmagalur, Tarikere and Kadur Taluks, public health generally good.

12. Cattle generally healthy. But "Dod Roga" is still prevailing in certain parts of the district. Water and fodder are getting scanty in the maidan parts of the district.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops,* such as, ragi, jola, horse gram, togari, avare, castor, navane, haraka sajje, savé, paddy, chillies, cotton, green gram, black gram, sessamum, sugar-cane, etc., which, were withering, have revived on account of the rainfall during the week, and they are reported to be in fair condition. The recent showers in all the taluks, except in parts of the Hosdurga Taluk, have done much good to the standing crops. More rain is wanted still in parts of the Challakere and Hosdurga Taluks and the Harihar Sub-Taluk.

Crops sown.—Horse gram in the Challakere and Molakalmuru Taluks, and cotton in the Molakalmuru Taluk.

Crops harvested and their yield.—

Green gram and black gram in the Chitaldrug and Holalkere Taluks, yield 8 annas; and jola in the Challakere Taluk, yield 4 annas.

10. Prospects of the season fair. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Hiriyur, Holalkere and Hosdurga Taluks, where "Rinderpest" prevails. Water and fodder available, except in parts of the Hosdurga Taluk, where they are getting scarce.

*Includes 1 inch and 20 cents omitted in the report for the 39th Week.

Note.—Rice (husked)—Oryza Sativa.
Ragi—Eleusine Corocana.
Kulthi—(Horse gram) Dolichos Biflorus.
Cholum—Sorghum Vulgare.
Kadale—(Bengal gram) Cicer Arietinum.

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	$7\frac{1}{2}$	$5\frac{3}{4}$ to 6	seers per rupee.
	Ragi ...	$19\frac{1}{2}$	12 to 13	

Agricultural operations.—Weeding in ragi and paddy fields.

State of standing crops.—Rain wanted.

Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *State of standing crops.*—The wet crops, *viz.*, paddy and sugar-cane, are in urgent need of rain, especially in the Hoskote and Channapatna Taluks. The dry crops, *viz.*, ragi, avare and togari, are reported to be fading all over the district though the recent rains have improved their condition to a certain extent in the Dodballapur, Magadi and Kankanhalli Taluks.

No damage of any kind is reported to have been done to crops by insects.

Crops harvested.—Potato and ground-nut are being harvested in the Bangalore Taluk.

10. Prospects of the season are improving and there is no cause for anxiety.

There is sufficient stock of food grains in the local markets, but still their prices are reported to be as high as before.

11. Except that a few cases of plague are reported to have occured in certain villages in the district, excepting the taluks of Magadi and Channapatna and the Sub-Taluk of Closepet, public health generally good.

12. Cattle are reported to be suffering from "Dod Roga" and "Shappe Roga" in the hoblis of Uyamballi and Maralwadi in the Kankanhalli Taluk, in the Tavarekere hobli, Magadi Taluk, and in a few villages of the Closepet Sub-Taluk. Rinderpest is still prevalent in the Virupakshipura hobli, Channapatna Taluk. In other parts of the district, they are healthy. Drinking water and fodder are reported to be insufficient in a few villages of the Solur, Kudur and Tippasandra hoblis of the Magadi Taluk, where green leaves and kaki jola are being used as fodder for cattle.

KOLAR.

8. Market well supplied.

9. *Standing crops.*—The recent rains throughout the district have done considerable good to the standing crops. They are thriving well.

Crops sown.—Paddy in Bowringpet and Mulbagal; gingelly in Sidlaghatta and Bagepalli; and horse gram throughout the district.

Crop harvested.—Gid ragi in parts of Bowringpet and Bagepalli.

Outturn of harvest :—

Bowringpet and Bagepalli—Gid ragi, yield 12 annas.

10. Prospects of the season fair, but more rain is needed throughout the district. Food stuffs are available, but their prices continue to be very high.

11. Except for plague in a few villages in the Kolar, Malur, Sidlaghatta and Chikballapur Taluks, public health generally good.

12. It is reported that "Rinderpest" is prevailing among cattle in parts of Sidlaghatta, Bagepalli, Goribidnur and Gudibanda. Water and fodder available. Fodder is just sufficient.

TUMKUR.

8. Market well supplied.

9. *Standing crops* are reported to be in moderately good condition in the taluks of Chiknayakanhalli, Pavagada, Koratagere and Turuvekere. They are withering for want of rain in parts of Tumkur, Gubbi, Tiptur and Kunigal and are in need of more rain in Sira. They are thriving well in Maddagiri owing to good rainfall there during the last week.

Crops sown.—Horse gram in all the taluks except Sira and Kunigal; cholum in Tiptur and Turuvekere; and paddy in Maddagiri.

Crops harvested.—Sugar-cane in Tumkur and Turuvekere; cholum in Maddagiri, Chiknayakanhalli, Gubbi and Koratagere; til in Chiknayakanhalli and Gubbi; and nat ragi in Maddagiri and Pavagada.

10. Prospects of the season fair, but more rain is needed throughout the district. Food stuffs are available in sufficient quantities, but their prices continue to be high.

11. Public health generally good. But cholera prevails at Vallur and Kyathagancherlu in the Pavagada Taluk.

12. Cattle generally healthy, except in certain parts of the Tumkur, Chiknayakanhalli, Gubbi and Tiptur Taluks, where they are suffering from "Dod Roga." It is subsiding in the Maddagiri Taluk. Water and fodder are available for the present. Date leaves and leaves of other trees are being used as fodder in Tiptur, Kunigal and Turuvekere. The condition of cattle in these taluks is not satisfactory.

MYSORE.

8. Market well supplied.

9. *Agricultural operations.*—Nil.

Standing crops in parts of the Mysore, Chamrajnagar, Nanjangud, T.-Narsipur and Krishnarajpete Taluks are reported to be withering for want of rain. Paddy crop in dry lands in parts of the Hunsur Taluk is also reported to be withering for want of rain.

Crops sown.—Nil.

Crops harvested.—Ragi and til in parts of the Heggaddevankote Taluk and cholum in parts of the Gundlupet Taluk.

10. Prospects of the season fair, but rain is wanted throughout the district. Food stuffs are sufficient for the present, but their prices are on the rise

11. Except for plague in a few places in the district, public health generally good.

12. Cattle generally healthy. But "Dod Roga" in parts of the Mysore, Chamrajnagar and Gundlupet Taluks and "Sappe Roga" in parts of the Yedatore and Mysore Taluks are still prevailing. Fodder is available. Tanks and wells in parts of the Nanjangud Taluk are running dry. Water scarcity in parts of the Mysore and Krishnarajpete Taluks is being felt.

HASSAN.

8. Market well supplied.

9. *Standing crops.*—Paddy and ragi in the Manjarabad Taluk, and gingelly, horse gram, avare, castor, chillies and sugar-cane in the Belur Taluk are reported to be in somewhat good condition. It is reported that the paddy crop is being damaged by insects in the Manjarabad and Channarayapatna Taluks.

Early showers are required in almost all parts of the district as the standing crops are reported to be withering.

Crops harvested.—Cardamom in the Manjarabad Taluk; ragi in the Arkalgud Taluk and in the Alur Sub-Taluk; and sugar-cane in the Channarayapatna Taluk, are being harvested.

10. Prospects of the season are not serious just at present but are causing considerable anxiety in all parts of the district owing to want of rain. Food grains available, but their prices are sometimes high.

11. Except for plague in parts of the Hassan, Belur and Channarayapatna Taluks, public health generally good.

12. Cattle generally healthy. But "Dod Roga" is reported to exist still in parts of the Hassan, Manjarabad, Belur and Hole-Narsipur Taluks. Water and fodder are available except in parts of the Arsikere and Channarayapatna Taluks. It is reported that in the former taluk, cattle are being driven to Hassan, Kadur and Belur sides for grazing in kavals; while, in the latter taluk, they are being fed on "Mungar" jolam stalks.

SHIMOGA.

8. Market well supplied.

9. *Standing crops, viz.*, paddy, ragi, jola, avare, togari, gingelly, black gram, green gram, horse gram and sugar-cane are suffering for want of rain. Paddy growing in low lands and below tanks in the malnad taluks of the district are reported to be in pretty fair condition; whereas paddy fields lying at a higher level stand in need of rain. In portions of the Channagiri Taluk, paddy crop is reported to have faded for want of rain.

Crop harvested.—Arecanut is being gathered in portions of the Nagar and Tirthahalli Taluks.

10. Prospects of the season fair, but immediate rain is wanted throughout the district. Food grains are available, but their prices are rising.

11. Public health generally good. But plague continues still in the towns of Shimoga and Channagiri and also in a few villages of the Shimoga Taluk and the Kumsi Sub-Taluk.

12. Murrain continues still in portions of the Shimoga, Channagiri, Sorab and Sagar Taluks and the Kumsi Sub-Taluk. Water and fodder are available.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Transplanting of paddy and weeding in Yedahalli.

Standing crops.—

In Chikmagalur—Paddy, ragi, avare, til, coriander and jola, which were withering, are reported to have been benefited now to some extent by the showers which fell on the 1st and 2nd instants in some villages of the taluk. Coffee and paddy in the malnad parts of the taluk are in good condition.

In Kadur and Tarikere—Paddy, ragi, jola, avare, togari, horse gram, etc., are withering for want of rain.

In Yedahalli—Paddy, sugar-cane, areca and coffee, in Koppa; paddy, sugar-cane, areca, pepper, cardamoms and coffee, in Mudgere; paddy, ragi, coffee and cardamom, and in Sringeri, paddy, areca, are reported to be in good condition, though rain is wanted for the paddy crop in all these taluks.

In some parts of the Chikmagalur Taluk, the standing crops are reported to have been attacked by "Kondli" insects. "Kole Roga" to areca crop in Koppa and Yedahalli is on the decrease. Want of rain is very much felt throughout the district.

Crop sown.—Coriander in Tarikere Taluk.

Crops harvested and their yield.—

Kadur—Sugar-cane, yield 8 annas.
Chikmagalur—Gid ragi, jola, coriander and til, yield from 2 to 6 annas.
Mudgere—Cardamom, yield 8 annas.
Sringeri—Cardamum, yield 8 annas.

10. Prospects of the season fair; but throughout the district crops are in urgent need of rain. Food stuffs are available, though their prices continue to be high.

11. Except for plague in some villages of the Chikmagalur, Kadur and Tarikere Taluks, public health generally good.

12. Cattle are generally, healthy except in the Chikmagalur and Mudgere Taluks, where "Dod Roga" is still prevailing. Water and fodder available.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops*, such as, ragi, jola, castor, avare, savé, sajje, haraka, navane, chillies, paddy, togari, horse gram, cotton, etc., are reported to be in fair condition.

The rainfall during the week has greatly helped the standing crops, except in parts of the Hosdurga Taluk, where more rain is needed.

Crops sown.—Jola in the Challakere Taluk; horse gram in the Challakere, Davangere and Hosdurga Taluks; navane in the Davangere Taluk; and cotton in the Harihar Sub-Taluk.

Crops harvested and their yield.—Jola in the Chitaldrug, Challakere and Holalkere Taluks, yield from 4 to 12 annas; sugar-cane in the Chitaldrng Taluk, yield 8 annas.

10. Prospects of the season fair. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug, Holalkere and Hosdurga Taluks, where "Rinderpest" prevails.

Water and fodder available, except in parts of the Hosdurga Taluk, where they are getting scarce.

BANGALORE,
14th October 1908.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

The Mysore Gazette.

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	$7\frac{1}{2}$	$5\frac{3}{4}$ to 6	seers per rupee.
	Ragi ...	$19\frac{1}{2}$	12 to 13	

Agricultural operations.—Weeding in ragi and paddy fields.

State of standing crops.—Want of rain is much felt.

Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *State of standing crops.*—The condition of wet crops, *viz.*, paddy and sugar-cane, is not very promising in the Channapatna and Hoskote Taluks on account of insufficiency of water in tanks. It is reported that dry crops, *viz.*, ragi, avare and togari, are almost fading in parts of the Kankanhalli Taluk, excepting the Satnur Hobli and in certain villages of the Solur, Kudur and Tippasandra Hoblis of the Magadi Taluk. In other parts of the district the dry crops are said to be in good condition. Rain is, however, very badly wanted throughout the district. It is reported that one or two heavy showers now will improve the present situation to a certain extent.

10. Want of rain is much felt throughout the district. There is sufficient stock of food grains in the local markets, but their prices are reported to be high.

11. Except for plague in parts of the district other than Channapatna and Closepet, public health generally good.

12. It is reported that "Dod Roga" is subsiding in Kankanhalli and Closepet. Drinking water and fodder can be had in sufficient quantities. In parts of the Magadi Taluk green leaves are also being used as fodder owing to cattle having been driven to the taluk from the Kunigal and Tumkur Taluks for grazing purposes.

KOLAR.

8. Market well supplied.

9. *Standing crops* are withering for want of rain, which is badly needed.

Crops sown.—Paddy, horse gram and huchellu in the Bowringpet Taluk only.

Crops harvested.—Same in the Bowringpet Taluk.

Outturn of harvest.—From 6 to 8 annas.

10. Prospects of the season fair; but more rain is needed throughout the district. Food stuffs available, but their prices continue to be very high.

11. Except for plague in a few villages in the Kolar, Malur, Sidlaghatta and Chikballapur Taluks, cholera in parts of the Bowringpet Taluk and small-pox in the Mulbagal Taluk, public health is generally good.

12. Rinderpest is prevailing among cattle in parts of Sidlaghatta, Bagepalli, Goribidnur and Gudibanda. Water and fodder available. Fodder is just sufficient.

TUMKUR.

8. Market well supplied.

9. *Standing crops* are reported to be in fair condition in the Chiknayakanhalli, Sira and Tumkur Taluks. They are withering for want of rain in Tumkur, Maddagiri, Gubbi, Tiptur, Pavagada, Kunigal and Koratagere. In the Maddagiri hobli standing crops are reported to have been damaged by the attack of "Side hula."

Crops sown.—Horse gram in Maddagiri, Chiknayakanhalli, Sira, Gubbi, Tiptur, Pavagada and Turuvekere; and cholam in Maddagiri, Sira, Gubbi, Tiptur and Turuvekere.

Crops harvested.—Sugar-cane in Sira, Gubbi and Turuvekere; cholam in Maddagiri, Chiknayakanhalli, Gubbi and Koratagere; baragu in Maddagiri and til and paddy in Gubbi.

10. Prospects of the season not encouraging. Food stuffs are available in sufficient quantities, but their prices continue to be high. Rain is badly needed throughout the district.

11. Except for cholera at Kyathgancherlu in the Pavagada Taluk, public health generally good.

12. Cattle generally healthy, except in certain villages of Tumkur, Maddagiri Gubbi, Tiptur and Turuvekere, where they are suffering from "Dod Roga and Sappe roga." Water and fodder are getting scarce. Date leaves are being used as fodder in Sira, Tiptur, Kunigal and Turuvekere.

MYSORE.

8. Market well supplied.

9. *Agricultural operations.*—Lands in parts of the Malvalli Taluk are being made ready for sowing Bengal gram.

Standing crops.—Paddy in parts of the Chamrajnagar and Nanjangud Taluks are reported to be withering for want of water. Dry crops in parts of the Krishnarajpete and Nanjangud Taluks are also reported to be withering for want of rain.

Crops sown.—Coriander, horse gram, green gram and Bengal gram in parts of the Gundlupet Taluk.

10. Prospects of the season generally good. But rain is wanted throughout the district. Food stuffs sufficient for the present, but their prices are on the rise.

11. Except for plague in a few places in the district, public health generally good.

12. Cattle generally healthy. But "Dod Roga" in parts of the Chamrajnagar, Heggaddevankote, Gundlupet and Nanjangud Taluks, and "Sappe Roga" in parts of the Yedatore Taluk are still prevailing. Tanks and wells in parts of the Nanjangud Taluk are reported to be running dry. Water and fodder available, except in parts of the Krishnarajpete Taluk, where stock of fodder is reported to be diminishing. Water scarcity is being felt in parts of the Krishnarajpete Taluk.

HASSAN.

8. Market well supplied.

9. *Standing crops.*—Ragi, paddy, horse gram, avare, togari and chillies in the Hassan, Arkalgud and the Hole-Narsipur Taluks; paddy and ragi in the Manjarabad Taluk; horse gram, avare, sugar-cane and castor in the Belur Taluk; ragi, avare, castor and chillies in the Channarayapatna Taluk; and avare, horse gram and gingelly in the Alur Sub-Taluk, these are reported to be in somewhat good condition. Early showers are required for the withering crops throughout the district.

Crops sown.—Horse gram, gingelly and cholam are being sown in the Channarayapatna Taluk.

Crops harvested.—Cardamom in the Manjarabad Taluk; and coriander and gingelly are being harvested in the Arsikere Taluk.

10. Prospects of the season are not serious just at present but are causing considerable anxiety for want of rain. Food grains available, but their prices have risen high.

11. Except for plague and cholera in parts of Hassan and plague in parts of the Belur Taluk, public health generally good.

12. Cattle generally healthy. But "Dod Roga" continues to exist still in parts of the Hassan, Belur and Hole-Narsipur Taluks. Water and fodder available, except in parts of the Arsikere and Channaroyapatna Taluks, where cattle are being driven to Kadur and Belur sides for grazing in Kavals.

SHIMOGA.

8. Market well supplied.

9. *Standing crops, viz.*, paddy, ragi, jola, avare, togari, gingelly, black gram, green gram, horse gram and sugar-cane are suffering for want of rain. In a few villages near Holehonnur, Shimoga Taluk, paddy crop has dried up and cattle have been allowed to graze thereon. It is reported that the paddy crop in portions of the Channagiri Taluk also has shared the same fate.

Crops sown.—Cotton, navane and horse gram are being sown in portions of the Honnali Taluk.

Crops harvested.—Gingelly is being harvested in the Honnali Taluk and arecanut in the Sorab and Sagar Taluks.

10. *Prospects of the season.*—Want of rain is keenly felt throughout the district. Standing crops consequently are fading. Food grains are available for the present, but their prices are rising.

11. Public health generally good. Plague continues still in the towns of Shimoga and Channagiri and also in a few villages of the Shikarpur Taluk and the Kumsi Sub-Taluk.

12. Murrain prevails in all the taluks, except Nagar and Tirthahalli. Water and fodder are available.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Weeding in Yedahalli.

Standing crops:—

In Chikmagalur—Paddy, gingelly, coriander, togari, dod ragi and coffee, which were withering, are now reported to have been benefitted to a certain extent by rainfall on the 4th and 5th instants.

In Kadur—Ragi, horse gram, sugar-cane, avare, togari, chillies, paddy, castor and jola are withering.

In Tarikere—Paddy, ragi, avare, etc., are reviving owing to the rainfall during the week. More rain is still wanted.

In Koppa—Sugar-cane, areca, cardamom, pepper, coffee and paddy are in pretty good condition. So is the case with cardamom, paddy, ragi and coffee in Mudgere; sugar-cane, areca and coffee in Yedahalli, and paddy in Sringeri. Rain is wanted for all the crops throughout the district.

Report has been received that some damage is being done to the standing crops by insects, owing to want of rain, in some parts of the Chikmagalur Taluk.

Crops harvested and their yield:—

Chikmagalur—Coriander yield 4½ annas and ragi on a small scale.
Kadur—Sugar-cane yield 3 annas.
Mudgere—Cardamom yield 8 annas.

10. Prospects of the season fair, but crops all over the district are reported to be withering for want of rain. Food stuffs are available though their prices continue to be high.

11. Except for plague in the Chikmagalur, Kadur and Tarikere Taluks, public health generally good.

12. Cattle generally healthy, except in the Mudgere Taluk, where "Dod Roga" is prevailing. Water and fodder are available though they are getting scarce especially in the maidan parts. In some villages of the Bidre and Yagati hoblis of the Kadur Taluk, it is reported that cattle are being fed on date leaves.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Such as jola, horse gram, togari, avare, green gram, black gram, sugar-cane, paddy, castor, navane, sajje, save, cotton, gingelly, etc., are reported to be in fair condition except in certain parts of the district, where they are said to be withering for want of rain. More rain is still needed for the standing crops.

Crops sown.—Bile jola in the Chitaldrug, Challakere, Hiriyur, Davangere and Jagalur Taluks; horse gram in the Challakere, Hiriyur, Holalkere, Molakalmuru and Davangere Taluks; cotton in the Chitaldrug, Hiriyur and Holalkere Taluks and the Harihar Sub-Taluk; Bengal gram in the Challakere and Jagalur Taluks; wild gingelly in Holalkere Taluk and the Harihar Sub-Taluk.

Crops harvested and their yield.—Chitaldrug Taluks—Sesamum, sugar-cane, jola, green gram and black gram yield from 4 to 8 annas.

10. Prospects of the season fair. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Holalkere Taluk, where "Rinderpest" prevails. Water and fodder available except in parts of the Hosdurga Taluk, where they are getting scarce.

BANGALORE,
14th October 1908

BANGALORE, THURSDAY, OCTOBER 15, 1908.

PART IV.

OFFICIAL PAPERS.

ADDRESS

OF THE

DEWAN OF MYSORE

TO

THE REPRESENTATIVE ASSEMBLY

8th October 1908.

GENTLEMEN,

I AM happy to meet the representatives of the people once again in this session of the Dasara Representative Assembly, and, on behalf of His Highness the Maharaja and his Government, I accord to you a most hearty welcome.

2. In my addresses to the Assembly in 1906 and 1907, I described to you the different measures adopted by the Government for improving the efficiency of the administration, for effecting retrenchments in expenditure in certain directions, for placing the finances of the State on a secure footing and for ameliorating the condition of the people by the reduction of taxation, by the spread of education and by organizing a scheme for public sanitation. During the past year the same policy has been pursued, and I shall refer to the more important of the measures adopted during the year, in the course of my address.

RETRENCHMENT COMMITTEE.

3. The Retrenchment Committee continued its labours during the year and dealt with the Prisons, Excise and Public Works Departments as well as with the menial establishments of certain offices. The reductions made till now during the past two years are expected to realize a saving of Rs. 1,48,000 a year. Besides these, considerable economies are in course of being effected in the Public Works Department, the largest spending department of the State.

INTEREST ON CHARITABLE ENDOWMENTS.

4. Before proceeding to the subject of the State Finances, I shall refer to a matter in which, I feel no doubt, you are all keenly interested. You are aware that the Government of His Highness the late Maharaja, so far back

as 1892, had, with a view to encourage endowments for charitable objects, allowed monies to be deposited in the Government Savings Bank at a favourable rate of interest. As a consequence several charitably-inclined persons took advantage of the concession and many useful institutions were established. For certain reasons the concession was withdrawn in 1895. Representations were however being made from time to time, both in the Representative Assembly and elsewhere, for the re-introduction of the system. The subject engaged the careful consideration of Government in reviewing the financial condition of the State, and in February 1908 His Highness the Maharaja was pleased to approve of the rules of 1892 being again brought into operation with a slight modification. Under these rules permanent deposits of sums not less than three thousand or more than a lakh of rupees will be accepted on behalf of benevolent and charitable institutions of a kind which may be considered legitimate objects of public expenditure, and interest at 4 per cent will be paid on them to be utilized for the purpose of the endowments.

5. The following gentlemen have availed themselves of the new rules and made the deposits noted against their names:—

(1) Mr. Sowcar Gubbi Totadappa Dharmapravarta, for the maintenance of a choultry for travellers and other charities .... Rs. 70,100

(2) Mr. Sowcar Doddanna Chetty Janopakari, for the maintenance of a free school .... „ 30,000

(3) The President of the Lingayet Fund, for educational purposes .... „ 13,000

FINANCE.—Financial Results of 1907-08.

6. The year 1907-08 has been, financially, a prosperous one. Before announcing the results of the year, I should mention a change made in showing the Railway figures. During the last two years the Railway Revenue and Expenditure including the working charges were given in the accounts and the estimates, with a view to show the gross transactions. But this arrangement was considered unsatisfactory, as it tended to a misleading and unnecessary inflation of the figures, giving a false view of the State's total Revenue and Expenditure; and it was therefore decided to revert to the old system of showing the net traffic receipts, which alone represent the true earnings of the railways.

Surplus. 1907-08.

7. After excluding the working expenses of the railways, amounting to Rs. 18,32,000, from both the receipt and disbursement sides, the budget estimates for the year 1907-08 which I presented to you last year provided for a

total Revenue of Rs. 226,08,000 and a total Expenditure of Rs. 213,34,000, resulting in a surplus of Rs. 12,74,000, of which Rs. 10,34,000 represented the net income from the Cauvery Power Scheme, Rs. 2,00,000, the amount set apart every year on account of famine insurance and the balance of Rs. 40,000, the surplus in the ordinary account. These anticipations have been, I am glad to be able to say, more than realised, and the result according to the preliminary accounts shows a very satisfactory improvement over the budget estimate. The accounts for the year now provisionally made up, show that we realized a total revenue of Rs. 240,26,000. Out of this we met all the expenditure of the year, and were able to set aside a sum of Rs. 12,31,000, being the net revenue from the Cauvery Power Scheme, for replenishing the cash balance, the annual famine reserve of Rs. 2 lakhs and the usual sum of Rs. 1,33,000 for the sinking fund for liquidation of the loan of 20 lakhs raised in 1906-07. After setting aside these sums we were able to secure the handsome surplus of Rs. 13,82,000. This surplus was the net result of an improvement of revenue of 12·60 lakhs and a reduction in expenditure of 82,000 as compared with the estimate. Almost all the important revenue heads contributed to the improvement, of which 4·25 lakhs were under "Land Revenue," 2·25 lakhs under "Forest," 2·50 lakhs under "Excise," 1 lakh under "Interest on State investments" and 2 lakhs under "Railways."

Comparison with 1906-07.

8. Comparing the year under review with the previous year 1906-07, you will see from the statement before you that, while the total expenditure in both the years was practically the same, the total Revenue of the year 1907-08 exceeded that of the previous year by about 6½ lakhs. You will observe from a detailed comparison of the figures in the statement, that this increase has been realised in spite of the loss of 3½ lakhs entailed by the abolition of the Halat on Supari and of the falling off of over 3 lakhs under the Cauvery Power Scheme and Mining Revenues.

9. I shall now notice the chief differences in details disclosed by a comparison of the Revenue and Expenditure of the two years. First, as regards heads of Revenue that showed an increase—"Land Revenue" was better by nearly 3½ lakhs, chiefly as the result of the recovery of the arrears of previous years. The Revenue from "Forest" was also better by 3½ lakhs and this was due to the high price which sandalwood fetched and to the disposal of a larger quantity of timber in the Kadur District. The head "Excise" continues to maintain its progressive tendency and yielded 1¾ lakhs more than in the previous year.

The Revenue from "Stamps," which for some time was stationary, is regaining its normal growing character and was Rs. 40,000 more than in 1906-07. The interest on "State Investments" was better by 2½ lakhs, of which however nearly a lakh was on account of the arrears of the previous year. The balance of about 1½ lakhs was due to the investment of 12 lakhs in the Government of India Securities and to the higher rates of interest realized on the larger balances, kept in the Madras Bank. The Railway Revenue was also better by about three-quarters of a lakh owing to improved traffic on the Mysore-Harihar line.

10. Next, as regards the items that showed a decrease—noticeable decreases of revenue occurred under "Sayer Customs" (3½ lakhs) which has totally ceased by the abolition of the Halat on Supari, under "Mining" (64,000) owing to diminished output by some of the Mines on the Kolar Gold Fields and under Cauvery Power Scheme (2½ lakhs) due to the expiry of the period of high contract rates.

11. Turning now to the expenditure side, the largest increase, 5½ lakhs, was under "Education," which is accounted for by the payment during the year, of the entire building grant of 5 lakhs to the Indian Institute of Science and the cost of the Kindergarten and Manual training systems of instruction. The purchase of some new engines of improved type was the cause of the increase of 1¼ lakhs under Railway Capital Expenditure. Large capital outlay during the year on the third installation chiefly contributed to the rise in the interest charge under the revenue account of the Cauvery Power Scheme. Purchase of materials and type and the expansion of the pension list account respectively for the increases under "Stationery and Printing" (33,000) and "Superannuation Pensions and Gratuities" (88,000). The increase under "Gold Mining" represents the transfer to this head of certain items of expenditure on courts, hospitals and police maintained on the Kolar Gold Fields, and there are accordingly corresponding decreases under "Law and Justice," "Medical" and "Police." As regards the heads of expenditure under which there was a decrease, some of the outstanding charges on account of the visit of Their Royal Highnesses the Prince and Princess of Wales were adjusted in 1906-07 under "Government Houses" and "Other items," and the absence of such special charges in 1907-08 chiefly accounts for the decreases under these two heads. The decrease under "Army" is attributable to the savings under some of the minor heads under the Military Department, while the large decrease of about 3½

lakhs under "Public WorksDepartment" was mainly due to there being no extraordinary works involving heavy expenditure under this head during the year.

Government.

12.— The year under review opened with a balance of Rs. 74,50,000 to the credit of Government and closed with a balance of Rs. 103,96,000, after the addition of the total surplus on the year's account of Rs. 29,46,000 (including the Famine Reserve, Rs. 2,00,000, and Sinking Fund, Rs. 1,33,000 already referred to.) If however the amount spent on the third installation of the Cauvery Power works during the year, *viz.*, Rs. 12,81,000 is treated as Government expenditure as it should be for ascertaining the financial position of the State, the real surplus of the year comes to Rs. 16,65,000 and the net Government surplus on the 30th June 1908 would stand at Rs. 91,15,000.

Bud

13. The budget estimates for 1908-09 provide for a total revenue of Rs. 228,15,000 and a total expenditure of Rs. 227,99,000, leaving a small surplus of Rs. 16,000 in the ordinary account. The whole of the estimated net income (Rs. 10,31,000) from the Cauvery Power Scheme has again been left untouched in the budget programme of the year, which also provides a sum of 2 lakhs on account of the Famine Reserve. The total surplus on the estimates is therefore Rs. 12,47,000.

14. The Revenue estimates are all normal except that it has been considered necessary to estimate the income from "Mining Royalty and Leases" at a figure about 1¼ lakhs below the actuals for the last year. Under expenditure, the estimates provide not only for the ordinary requirements of all the departments but also for several useful and progressive measures, the chief among which are the following:—

- Increase of pay to Village Schoolmasters, and the abolition of fees for Elementary Education;
- Development and equipment of the Sanitary Department;
- Development and equipment of the minor Scientific Departments; and
- Provision for building the Chamarajendra Technical Institute.

GENERAL FINANCIAL POSITION.

15. At the beginning of 1905-06 the balance to the credit of Government was Rs. 43,49,000 and at the end of 1907-08 it was Rs. 91,15,000. In the three years therefore we have been able to save nearly 48 lakhs. With the anticipated saving of Rs. 12,47,000 on the current year's estimates, the total balance to the credit of Government will be nearly Rs. 104,00,000, which is only about 35 lakhs less than the surplus at the beginning of 1898-99, as you

will see from the appended statement of assets and liabilities which compares the position at the beginning of the three years 1898-99, 1905-06 and 1908-09. You will of course understand that in speaking of assets and liabilities I am only referring to the cash assets and liabilities of Government, the enormous capital which we have laid out in past years on Public Works, Railways, Irrigation works and the Cauvery Power Project being entirely excluded.

16. You may remember what I said in this connection in my address of the year before last. I said there that in the seven years from 1897-99 to 1904-05, the State's liabilities had considerably increased under "Savings Banks Deposits" and the "Insurance Fund" while simultaneously the cash and invested reserves had considerably decreased, and that the balance to the credit of Government which stood at Rs. 139,53,000 at the beginning of 1898-99 had dwindled down to Rs. 43,49,000 on the 1st July 1905, rendering the financial position rather weak. The reduction of the liabilities and the building up of the reserve were therefore measures of the most pressing necessity and importance if the finances were to be placed on a sound footing. I am glad to be able to say that as the result of the steps taken to impose annual and aggregate limits on individual savings banks deposits, the liability of Government in this respect has been sensibly reduced, while the substantial sum of 48 lakhs has been added to the Reserve Funds of the State. I should also mention another measure of the utmost importance about which a definite resolution has been arrived at and carried out from 1906-07. I refer to the maintenance of a reserve for meeting famine expenditure without dislocating the finances in the unfortunate event of the State being called upon to combat a famine. In a year of famine, while heavy expenditure will be necessary on relief measures, the revenue resources of Government will be crippled and, in the absence of a special provision for meeting the situation, Government would be forced to contract loans and to starve the administrative departments. The formation therefore of a separate reserve, which can be drawn upon in the event of a famine, is a matter of vital necessity and it has accordingly been decided since 1906-07 to secure every year a saving of Rs. 2 lakhs and to form a fund from these annual contributions. In pursuance of this policy we have now saved a sum of Rs. 4 lakhs and a saving of two lakhs has also been provided for in the budget programme of the current year. It is a matter for gratification that all the above measures for securing financial stability have been

carried out simultaneously with the undertaking of costly administrative reforms in several departments of the State. This satisfactory result is attributable to the elasticity of the important heads of revenue like the Land Revenue, Forest, Excise and Stamps and to the large income which the Cauvery Power Scheme and the Mining Royalty yield.

17. Of the reforms sanctioned during the last three years, I may mention the remission of the Halat on Supari which entailed an annual sacrifice of revenue of $3\frac{1}{2}$ lakhs, the organization of the Public Health and the Veterinary Departments costing $1\frac{1}{4}$ lakhs, the improvement of the methods of teaching by the introduction of Kindergarten and Manual Training at a cost of half a lakh, the increase of the minimum pay of Schoolmasters to Rs. 10 involving an annual expenditure of Rs. 63,000, the making of elementary education free, and the improvement of the collegiate courses of study by the adaptation of our Colleges to the new Regulations of the Madras University and by the institution of new branches of study at a cost of about Rs. 3 lakhs, of which one lakh is recurring expenditure. Excepting the last, the other reforms have all been practically carried out.

18. Capital outlay on the third installation of the Cauvery Power Scheme during the year was Rs. 12,81,000 and the work is nearing completion.

Cash Balance.

19. The cash balance in Treasuries and Banks on the 30th June 1908 was Rs. 108,74,000, and of this Rs. 33 lakhs were invested in August last in Government of India Securities and other loans. The total amount at credit of the Surplus Investment Account on this date is Rs. 132 lakhs.

Life Insurance.

20. The State Life Insurance Fund is in a prosperous condition and has on its books 10,268 policies held by 5,402 persons, assuring a bonus of Rs. 54,65,000 for a monthly premium of Rs. 19,178. The closing balance of the fund on 30th June 1908 was Rs. 16,48,000.

21. We shall now turn to other branches of the administration.

THE LEGISLATIVE COUNCIL.

22. The Legislative Council has now been in existence for a little over a year and has met seven times in all during the period. Several important measures such as the Village Offices Bill, the Police Bill, the Newspapers Bill, and Bills to amend the Court Fees and Stamp Regulations and the Civil Procedure Code, formed the subject of discussion in the Council, and the Newspapers Regulation and Regulations to amend the Court Fees and Stamp Regulations, were passed into law. The Village Offices Bill has also been finally passed by

the Council at its last sitting and will be promulgated as law after the assent of His Highness the Maharaja is accorded thereto. The other bills are in an advanced state of progress, and I expect that they will be finally considered and passed at an early date. Other important measures such as the Village Tank Panchayet Bill, Treasure Trove Bill and Poisons Bill have been taken up and will engage the attention of the Council in the immediate future.

23. The Proceedings of the Council, published in the Gazette both in English and Kanarese from time to time, will have placed you in full possession of the details of these measures and I need not detain you by entering into them now at length. I shall only refer here to the three measures which have been finally passed as law. The Regulations to amend the Stamp and Court Fees Regulations have been framed with a view to remedy certain hardships caused by the previous law, which were brought to the notice of Government on several occasions by members of the Representative Assembly.

THE NEWSPAPERS REGUALTION.

24. The third Regulation that has been promulgated as law is the Mysore Newspapers Regulation. I find that this measure has not been received with approval by many of the newspapers in India. This was only to be expected, as newspapers outside Mysore cannot have a first-hand knowledge of the conditions prevailing in this State and can only discuss the question on abstract principles, as has actually happened. The papers published in the State, however, with the exception of the three papers which have chosen to stop publication, generally admit that a measure of the kind was necessary and do not think there is anything in the provisions of the Regulation to be alarmed about. As regards the present legislation it is not contended that the Regulation gives more powers to the Government than were already inherent in His Highness the Maharaja. But objection has been taken by our critics to the power to refuse permission and withdraw it when once granted being reserved to the Executive Government. This objection however assumes that the Government of His Highness the Maharaja will exercise the power arbitrarily on the least provocation, and that the Press will be exposed to the "petty tyranny of officials dressed in brief authority." Speaking on behalf of His Highness' Government, I have already assured the public that the Government would always be glad to have their acts criticised with as much freedom as the critics liked, provided only that the criticisms stopped short of disseminating absolute falsehoods and deliberate perversions of facts, likely to be prejudicial to the interests of the

State. The Government of His Highness have never shrunk from giving full publicity to their acts, and the opening of the Press room and the public discussion of questions in this very Assembly, than which there is not a body in the whole of India better representing the people of a State, will convince you that such is their attitude.

25. There is a misapprehension still prevailing even in the minds of otherwise well-informed persons that the refusal or withdrawal of permission under the Regulation may depend upon the whims and caprice of individual officers. In regard to this, I may assure you that such a fear is quite groundless and that all such cases will be treated as scheduled cases under the Rules of Business, which have to be considered by the full Council and submitted to His Highness the Maharaja for his orders. This is what has been done in the past and this will invariably be done in the future also.

26. Now, turning to the results of the Regulation, you will find that none of the evils which had been so freely predicted have followed its enactment. Barring the three papers that have chosen to stop publication,—I say three, because the two English bi-weeklies with their Vernacular counterparts can really be counted as one each—all the other newspapers, twelve in number, both Vernacular and English, and some with larger circulation than the papers which have ceased to exist, have applied for and obtained the permission necessary under the Regulation. The only paper that applied for and was refused permission was a Vernacular fortnightly. The reasons for the refusal in that case have been given in the Government Proceedings already published.

27. Government would have been glad, if it was possible to do so, to lay down rules for regulating their action under the Regulation; but I think you will admit that it is extremely difficult to bring under rules all the circumstances that would justify Government taking action under the Regulation. All that it is possible to say is that the Regulation will not be put into force in regard to any newspaper unless the character of the publication is such that its continuance is undesirable in the interests of the State or in the cause of public morality.

The Village Tank Panchayet Bill.

28. Of the new measures of legislation before the Council, I would invite your special attention to the Village Tank Panchayet Bill which contains the germs of a complete system of self-government in the rural tracts; but, for the successful working of the scheme even in its elementary form, much patience and self-sacrifice on the part of the raiyats and sympathy and devotion to duty on the part

of officials are required. We are in hopes that both will be forthcoming. I need not impress on you the greatness of the opportunity that is presented to you to work in the cause of the people and ensure the success of this first step towards real local self-government.

Other Laws.

29. Besides the laws passed by the Legislative Council, a Regulation to amend the Military Regulation has been passed by the Government under the powers reserved under the Legislative Council Regulation.

RULES UNDER REGULATIONS.

30. During the year Government also framed rules under the Railways Regulation, the Mines Regulation, the Co-operative Societies Regulation, the Methylated Spirits Regulation, the Excise Regulation, the Stamp Regulation, the Game and Fish Preservation Regulation, the Vaccination Regulation and the Legislative Council Regulation.

31. To only a few of these I need refer here. The rules under the Game and Fish Preservation Regulation extend protection to certain kinds of game till 1911. Also, in response to the representations made in the Assembly last year and in order to enable cultivating raiyats to better protect their crops from the ravages of animals, the game license fee has been reduced to Rs. 2 to owners and occupiers of land residing in the Malnad portion of the State, and they have also been allowed to pursue such animals in the adjacent State and District Forests.

Election of Members to the Legislative Council.

32. The rules framed under the Legislative Council Regulation have reserved two seats on the Council to election by the Representative Assembly and thus meet a legitimate desire widely expressed since the Council was constituted.

SEASONAL CONDITIONS.

33. The average rainfall in the State during the year 1907-08 was about 39 inches as against 44 inches in the previous year, the average for the 37 years, 1870 to 1906, being nearly 37 inches. Though the rainfall during the year was thus above the average, it was not evenly distributed the Districts of Hassan and Kadur getting much more than the average, while the other districts suffered to some extent from deficient rainfall. There was, almost everywhere in the State, a partial failure of the usual October rains. In parts of the Challakere Taluk in the Chitaldrug District, the agricultural outlook was such as to cause some anxiety towards the beginning of December last, and Government sanctioned the Deputy Commissioner's proposal to utilise a sum of Rs. 2,000 for execution of earthwork to minor tanks in the affected parts of the taluk to provide labour for the needy. Only one tank work was however actually started. Permission was also given to cultivate with quick-growing crops the beds of 22 tanks in different parts of the district.

34. As a result of the ill-distributed and unseasonable rainfall, the outturn of crops during the year showed a perceptible decline as compared with the previous year; and the prices of food grains which were already high, rose slightly higher.

35. It was up to within the past few days a matter for concern that the seasonal prospects were not bright in certain parts of the State. The South-west monsoon had proved disappointing, particularly in the Kolar, Tumkur and Chitaldrug Districts. Though there is no great deficiency in the monthly average figures for the districts, the rainfall has not been timely or distributed evenly throughout the districts. In the Chitaldrug District the situation was assuming rather a serious aspect and the people were eagerly looking forward to the early advent of the North-east monsoon. Fodder was reported to be becoming scarce in these districts and the Deputy Commissioners had to grant permission for the free removal of date and kamara leaves from Government groves and State Forests for use as fodder. Rain was also badly wanted for the standing crops throughout the Bangalore and Kolar Districts and parts of other districts except Shimoga. But the rains we have recently had in almost all parts of the State have improved matters to a great extent. The situation is however being carefully watched.

Area under cultivation.

36. The area under cultivation has increased from 6,774,764 acres to 6,841,954 acres, showing a rise of 67,190 acres.

37. While on the subject of cultivation I may invite your attention to the orders passed by Government about encouraging Kumri cultivation in the Malnad under certain conditions as an experiment, for the temporary grant of portions of gomal land for gram cultivation, for the free grant of bamboos in the malnad for a period of two years to the raiyat population and for the reduction of the scale of minima for the subdivision of survey numbers.

AGRICULTURE.

38. During the year attention continued to be paid to measures calculated to improve agriculture and industry. The Agricultural and Industrial Exhibition held during last Dasara was very successful and the Exhibition this year also promises to be equally useful.

Cattle Shows.

39. A special feature of agricultural activity in the year was the number of cattle shows held in several parts of the State in connection with jatras or fairs on the occasion of religious festivals. Eight shows were held in all, and these were well attended and appreciated.

Agricultural Experiments.

40. Experiments were made in the cultivation of certain quick-growing varieties of paddy and the results

969

were encouraging. Endeavours are being made to bring these results to the notice of persons engaged in paddy cultivation.

41. Arrangements have been made to utilize the Government Gardens Department as a centre of economic botany and experimental work is being organized in certain directions by its Superintendent Mr. Krumbeigel, whose services were engaged in January last. During the year, 317 kinds of plants new to Bangalore have been cultivated. Several kinds of yams and 25 varieties of potatoes have been tried and of the latter twelve are expected to prove suitable to local conditions in the State and enable us to replace the present deteriorated and diseased varieties. Two new fibre plants have been introduced, one of which called Zapupe, received from the British Consul in Mexico, is said to be superior to Sisal hemp. The Manicoba rubber which is said to be a serious competitor to the Ceara rubber is also being tried.

42. The various plots in the Hebbal Experimental Farm have been standardized and experiments have been planned to show how the raiyat can materially improve the present methods of cultivation. The work connected with sugar-making has been continued. During the year several agricultural implements from Europe and America as well as a hand loom and some fodder cutters were obtained and their use demonstrated in various parts of the State. One of them, a threshing machine has been much appreciated by raiyats and several private persons have applied for such machines being obtained for them. Much interest has been shown in improved agricultural implements and there is some demand for small improved ploughs.

Mycologist and Entomologist.

43. As you are aware the Government some years ago engaged the services of a scientist to study insect pests and fungoid diseases in the State. This gentleman, Dr. Coleman, took up his appointment in January last, and some preliminary experiments conducted by him to fight Koleroga appear to be full of promise. He is also investigating a potato disease which is causing considerable damage and which is said to be new to science.

Agricultural Chemist.

44. While on this subject, I must not omit to refer to the decision of the Government not to re-engage the services of Dr. Lehmann, the Agricultural Chemist, on the expiry of the second term of his employment in December 1908. In the order issued on the subject in April last, which was placed at the disposal of the Press at the time, the considerations on which Government arrived at this decision have been given and I do not propose to detail them now. It will suffice to say that Government, while

continuing to take as great an interest as ever in agricultural development, are disposed to think that in starting with a fully equipped chemical laboratory and an Agricultural Chemist they began at the wrong end, and that owing to the raiyats' comparative ignorance, apathy and absence of a spirit of co-operation, Government action at the present stage would be more usefully directed in attempting to secure tangible progress on simple and practical lines, in directions in which much work has to be done before the highly specialized labours of an Agricultural Chemist can be turned to practical advantage by the cultivating classes. The revised scheme for agricultural improvement will soon be published.

SERICULTURE.

45. Government have devoted attention to measures for the improvement of the silk industry, but owing to various reasons it has not been found practicable to devise a suitable scheme. The question of utilizing Mr. Tata's Farm for giving sericultural instruction to those engaged in silk worm rearing, is under the consideration of Government, and in the meanwhile Government have arranged for Mr. Odzu, the Superintendent of Mr. Tata's Farm, visiting centres of silk industry under instructions from the Revenue Commissioner and giving advice on the selection of seed and the rearing of worms.

The Revenue and Agricultural Gazette.

46. The Revenue and Agricultural Gazette, to which I referred in my address of 1906, is being published from November 1906 and has proved very useful as a medium for the communication of valuable information on agricultural and other matters to the raiyat population. It has now a circulation of 661 copies, exclusive of 550 copies sent free to Government officials and others. Besides articles in the journal, 11 supplements dealing with matters of varied agricultural interest have been issued. The anticipations of Government in starting the Journal have been fully realised, and Government have sanctioned its continuance for a further period of three years.

AGRICULTURAL BANKS.

47. During the year 11 Agricultural Banks were ordered to be wound up, and the total number of banks was thus reduced from 36 to 25. Of the banks in existence only three have done any business, the others being in the same condition as in the past. It is, however, satisfactory to note that owing to the greater interest taken by Deputy Commissioners, the Inspector of Agricultural Banks and the Revenue Commissioner, the collection of the Government loans has amounted to Rs. 1,33,000 during the past year, an amount more than double the previous year's collection. It is also gratifying to find that this result has been in

the majority of cases attained without resort to the extreme measure of selling up the properties of members.

48. As regards the late Coffee Banks at Saklespur and Chikmagalur, which are the heaviest debtors of Government, the system of granting advances for working expenses has been found to lead to no useful results, and many of the estates have been gradually deteriorating in spite of these advances. Government have therefore decided in their orders issued in January last to discontinue the system and to realize their dues as early as possible without causing any avoidable loss to the Government or to the owners of the estates concerned.

CO-OPERATIVE SOCIETIES.

49. Co-operative Societies have made fair progress during the year. Their number has increased from 15 to 27, 8 of them being Agricultural Societies. I am given to understand that difficulty is felt everywhere in securing as managing members, proper persons possessing the requisite qualifications, and I appeal to you, gentlemen, who represent the intelligence and the influence of the country, to supply this want as far as lies in your power, for here is a field of activity which offers considerable scope for disinterested, if quiet, public work fraught with possibilities of much real benefit to the country.

50. The number of members of Co-operative Societies has risen from 1,191 to 2,451, and the share capital from Rs. 24,893 to Rs. 56,621. Government have framed rules for the grant of small loans to these societies to help them in their initial stage, and for this purpose a sum of Rs. 15,000 has been placed at the disposal of the Registrar. A loan of Rs. 2,000 was sanctioned under these rules to the Zahir-ul-Islam Weaving Co-operative Society of Molakalmuru.

CIVIL VETERINARY DEPARTMENT.

51. In my address to you last year I touched upon the formation of a Civil Veterinary Department. Though orders were passed early in the year it was some time before the necessary staff of qualified men could be got together, and it was only in January 1908 that a Veterinary Hospital was started in Bangalore and it was not before May 1908 that hospitals and dispensaries were opened at Mysore, Chikmagalur, Kolar and Hassan. Though these institutions were started so late in the year, 1,213 animals of all kinds were treated in them. Various epidemics such as anthrax, blackquarter, septicæmia hæmorrhagica, foot and mouth disease and sheep-pox had broken out during the year in a sporadic form throughout the State and the Veterinary Inspector and his assistants were able to render some help to the

people. Rinderpest, which had disappeared from the State for years, appeared in an epidemic form in the Shimoga and Kolar Districts and in parts of Kadur and Hassan. The method of preventive treatment by inoculation was adopted in many centres. The raiyats were so impressed with the efficacy of this treatment that there is now a general demand from many parts of the country for the services of the inoculator. As many as 4,855 cattle were in all inoculated. Sera and vaccines for other contagious diseases have also been indented for and kept ready for emergencies. The results achieved so far are on the whole very encouraging and lead us to hope that the department will be of great benefit to the people. The further expansion of the department is not so much a question of funds, as of the availability of men with the necessary training and qualifications.

The Shekdari or Revenue Inspectors' School.

52. The Shekdari School has continued to do good work and 79 students underwent training during the year 1907-08 and 40 more are under training at present. It is hoped that in the course of a few years the Shekdari service will wholly be filled by fully qualified men.

REVENUE SURVEY AND SETTLEMENT.

53. During the year original revenue survey was carried out in 13 Inam villages, and re-survey operations embraced the Magadi and Nelamangala Taluks and parts of the Shimoga, Belur, Chiknayakanhalli and the late Banavar Taluks. Re-classification of water-supply to wet and garden lands was made in the Shimoga and Honnali Taluks.

54. With the announcement of the rates in the Sringeri Jahgir, the original settlement of the whole State has been completed, and during the year, revision settlement was introduced into the Sagar and Sorab Taluks. In my address to you last year I went into the details of these settlements and I need only add that the rates have been exceedingly well received by the raiyats. I shall be glad to learn from the Representative Members from these taluks as well as from the other representatives from the Malnad Districts how far the liberal policy adopted with regard to the assessment of supari gardens and the abolition of the Halat have conduced or are expected to conduce to the prosperity of the Malnad raiyats.

55. During the year revised rates have been sanctioned for the Shikarpur Taluk and a moderate increase of revenue, *viz.*, 8·4 per cent is expected.

56. Proposals for the revision settlement of the Pavagada, Sira and Tumkur Taluks are expected from the Survey Superintendent and will soon engage the attention of Government.

FORESTS.

57. Twelve blocks with an area of 105½ square miles were constituted into State Forests and 127 square miles were notified as reserved lands. The collection of sandal-wood was confined purely to dead trees and 2,518 tons were sold and Rs. 14,18,000 realized during the year. The net revenue from the department was Rs. 16,35,000 against Rs. 12,74,000 in the previous year and was about double of what it was eight years ago.

58. In this connection, I must refer to various statements circulated from time to time in the newspapers to the effect that our forests are being recklessly denuded to swell present revenue. Let me assure you, gentlemen, that these statements are quite unfounded and that the exploitation of our forest resources is being carried on in a scientific manner having due regard to the permanent interests of the country and the needs of the future.

59. The scheme to which I referred last year for enlisting the co-operation of the raiyats in the preservation and growth of sandal trees by giving them a bonus on the trees removed from their holdings and by affording them facilities for the removal of trees which are obstructive to cultivation has been further considered and I am now in a position to say that an early decision in the matter may be expected.

JUDICIAL.

60. In my address to you last year I referred to an experiment in the way of separation of Judicial and Executive functions made in certain parts of the State, where the Amildars were divested of Magisterial functions and such functions assigned to Civil Judges and City Magistrates. The experiment has worked well so far as it has gone, but any further extension of its scope appears likely to entail additional expenditure and has on that account to be deferred for the present.

STAMPS.

61. The revenue from stamps which was declining from 1900-01 has shown some appreciable increase in the last year, rising from Rs. 7,58,000 in 1906-07 to 7,98,000 as compared with Rs. 7,95,000 in 1900-01. Arrangements have been made to replace by a better kind of paper the present three-pie paper about the quality of which there have been numerous complaints both in and out of the Assembly.

POLICE.

62. It is satisfactory to note that there has been a decrease in reported crime as compared with 1906-07 and that the percentage of convictions to cases decided has been higher. Two cases that occurred during the year were of more than usual interest and I shall refer to them briefly. The first was the serious riot that occurred in the Kolar Gold Fields from the 25th to

28th December 1907 owing to certain disputes between the mine coolies and the Punjabi watchmen. At one stage the disturbance assumed a very serious aspect and the rioters had to be dispersed by armed force. I am, however, glad to say that the responsible local authorities kept their heads cool, and by forbearance and tact were able to quell the riot without any loss of life or damage to property. The chief offenders on both sides were tried and convicted in due course.

63. The other case is the series of atrocious murders committed in the City and Civil and Military Station of Bangalore during the past two years and more by a gang of young men with the aid of poison and the knife. The young men had received some education in English and belonged to respectable families. The crimes were very cleverly planned and the disposal of the bodies and of the gold ornaments, which were the chief object of the murders, showed a considerable amount of misdirected ingenuity. As you are all aware the crimes came to light in a somewhat unexpected manner and the criminals have met their well-merited fate. The circumstances of this case indicate the absence of good home influences even in apparently respectable families and illustrate the evils of a partial and inadequate system of education in which there is no place for moral and religious training.

64. A departmental enquiry was held into the conduct of the police officers of the State connected with the investigation of the case in the City, and I am glad to say that these officers have been found to have acted in a uniformly upright and unexceptionable manner.

65. The investigation centre scheme to which I alluded in my address last year has recently been extended to the whole of the State and it is expected that it will result in the efficient disposal of Police work.

66. To deal with organized crime and with criminals whose range of operations extends, in these days of rapid means of communication, to great distances and wide areas irrespective of local territorial boundaries, a suitably manned criminal intelligence department is found to be very necessary, and the subject is engaging the attention of Government.

PUBLIC WORKS.

67. The total expenditure incurred on Public Works during the year 1907-08 amounted to Rs. 53,58,000, of which Rs. 10,55,000 was on "Irrigation Works;" Rs. 26,65,000 on "Civil Works;" Rs. 26,000 on "Military Works;" and Rs. 16,12,000 on the "Cauvery Power Scheme Works."

Irrigation Works.

68. The progress on the Marikanave Project was satisfactory, the outlay on the work during the year being

Rs. 1,42,357. The main dam has been completed and only a few subsidiary works remain to be executed. The right bank channel was practically completed up to the 18th mile and the earthwork from the 20th to 25th miles was nearly finished. Water was let down up to the 18th mile. The left bank channel was completed with all masonry works up to the 22nd mile, and water was let down to the 21st mile. The total outlay on the work up to the 1st July last was Rs. 33,42,723.

Minor Tanks.

69. A sum of Rs. 77,000 was spent by the Revenue Department on minor tanks and a sum of Rs. 13,000 was advanced to raiyats for carrying out their share of earthwork. Three hundred and eighty-five tanks were dealt with and 165 of these completely repaired during the year. The operations were on the whole satisfactory, and especially so in the Kolar District where 144 tanks were taken up for repairs and 56 of them completely restored during the year.

The Cauvery Reservoir.

70. The preliminary investigations in connection with the construction of a large reservoir across the Cauvery River near Belagola were completed and a project therefor has been prepared and is under the consideration of Government. I may say that while the project appears to be practicable and may be remunerative in course of time, the large outlay involved raises several difficult questions as to financing the scheme, and the Government may have, with due regard to all the aspects of the subject, to defer the further consideration of the project to a more favorable opportunity.

Miscellaneous Public Improvements.

71. Among the works of public improvement in progress during the year were the laying out and forming of roads in the Basavangudi and Malleswaram Extensions of the Bangalore City, the laying out of a new extension between Chamarajendrapet and Basavangudi, the drainage of the Chamarajendrapet and Basavangudi Extensions, the widening of the main drain in the Bangalore City, improvements to the water-supply works at Bangalore and Kolar Gold Fields and water-supply to the town of Harihar.

CAUVERY POWER WORKS.

72. The total expenditure on the Cauvery Power Scheme was Rs. 16,12,145, of which a sum of Rs. 12,80,831 was spent on the Third Installation; Rs. 75,528 on the Bangalore Lighting and Power Supply Scheme and Rs. 2,55,786 on working expenses and maintenance of the 1st and 2nd Installations. The gross revenue realized during the year was Rs. 17,58,346. Deducting the working expenses, the net revenue was Rs. 15,02,560 which was Rs. 2,23,000 more than the Budget estimate. Works for

the sanitation of the settlement at Sivasamudram Bluff were completed during the year at an outlay of Rs. 24,819. Electric lighting to the Civil and Military Station, Bangalore, was formally inaugurated on 1st January 1908, and Mysore has been lighted by electricity from the 26th September 1908.

RAILWAYS.

73. The total net earnings of the open lines of Railway owned by the State amounted to Rs. 11,37,000 as against Rs. 10,73,873 in 1906-07, and was 4·71 per cent of the capital outlay as against 4·53 in 1906-07. The percentage of working expenses to gross earnings was 62·96 as against 60·11 in 1906-07.

74. The scheme for a light railway from Bangalore to Chikballapur has been dropped for the present as the estimate of capital cost first prepared was found to be too low, and the company which promoted the scheme has sought the permission of the Government to construct a Steam Tramway instead. It is understood that plans and estimates are under preparation.

75. The Madras and Southern Mahratta Railway Company have undertaken to make a reconnaissance survey of the Mysore-Hassan line.

GEOLOGICAL.

76. Mining and prospecting work was carried on actively in many parts of the State and 204 licenses, including renewals, were granted as against 247 in 1906-07. The fall in the price of Manganese has however considerably damped the previous enthusiasm for exploiting minerals.

Gold.

77. In my address last year I referred to the large diminution in the output of gold in 1906-07 as compared with 1905-06. It is to be regretted that the falling off continued during 1907-08 also, and the value of gold extracted in 1907-08 was £ 2,045,108 as against £ 2,068,970 in 1906-07 and £ 2,274,786 in 1905-06.

78. The Mysore, Ooregum and Nundydroog Mines have appreciably increased their output during the year, while the production of Champion Reefs has largely fallen off. I am however glad to say that taken as a whole the present position of these four mines, which are the chief gold producers of the State, may be regarded as satisfactory and that there appears to be no reason to apprehend for many years to come that the mines are approaching exhaustion.

79. As regards the smaller mines, the Balaghat mine has reduced its output considerably and the Tank Block and Coromandel have both closed down. The Woolagiri Mine near Nanjangud which produced some gold last year has suspended work, and the Indian Mines Syndicate has practically abandoned work in the Tumkur and Chitaldrug Districts. The Shimoga Gold Fields, Limited, have not

yet struck paying ore though encouraging prospects have been met with at several points.

Manganese.

80. During the year the price of manganese fell by nearly 50 per cent and the rush for manganese lands has largely abated. Many licenses have been allowed to lapse and only the new Mysore Manganese Company has carried on operations on any large scale. The story of the industry during the past two years shows how, though the actual extraction of the ore from the shallow depths at which it is found is a simple enough matter, still, experience and skill in mining and ample capital resources are necessary for successful results being achieved. It is possible that without much actual working certain licensees were able to sell their blocks to others for somewhat fancy prices but speculative transactions such as these cannot be regarded as satisfactory from an industrial and economic aspect or from the point of view of the permanent interests of the country.

81. The following statement shows the quantity of ore extracted and sold and the royalty paid in 1907-08 as compared with 1906-07 :—

Year	Tons extracted	Tons sold	Royalty
1906-07	63,181	50,247	Rs. 20,209
1907-08	74,650	70,242	„ 25,822

Chrome.

82. Chrome ore has also fallen in value and this has proved a bar to active progress in the industry. During the year 1,566 tons of ore have been sold out of 10,592 tons extracted and a royalty of Rs. 628 has been realized.

Iron Ores.

83. The abundance of very high-class iron ores has long been a tradition in Mysore and representations have from time to time been made in the Assembly that Government should take the industry in hand and start iron works on a large scale. Investigations are being carried out in the Geological Department in regard to the supplies of iron ore available, but it will be some time before it will be possible to furnish any trustworthy results. In many cases the results so far obtained have been disappointing though it is expected that some large and valuable deposits will yet be disclosed. During the year Dr. Smeeth was deputed to Turin to witness some trials proposed to be made by an Italian Scientist in the smelting of iron ores with the electric furnace, but owing to a break down in the arrangements the proposed trials could not be made. Dr. Smeeth was however enabled to make some experiments in the smelting of iron ore and in the production of steel and his report is under preparation. It is understood that Dr. Smeeth's conclusions point to the feasibility of the development of an iron and steel industry in Mysore in the future.

For the present, however, the production of pig iron and the cheaper forms of structural steel cannot be recommended, and work will have to be confined to the production of the higher priced classes of steel and ferro-alloys on a moderate scale.

EXCISE.

84. In my address last year I referred to certain administrative changes made in the Excise Department on the recommendations of the Retrenchment Committee during the early part of the year 1907-08, and I shall not reiterate them now. As you are aware, the direct taxes on toddy, ganja and opium realized in the shape of tree-tax and duty were increased, and there was some doubt as to how the changes in the rates would affect the revenue. The revenue returns, however, show that the direct taxation and the shop rental have adjusted themselves to the new conditions without any dislocation of the total revenue. As I have already told you, there was a total increase of a lakh and three-fourths under Excise Revenue; this was due almost entirely to the increased consumption of arrack in all parts of the State and chiefly in the Shimoga District, where the Manganese industry attracted a large number of labourers. Government cannot look upon this result with satisfaction. They have always kept in view the principle of the maximum of revenue with the minimum of consumption. Government have, however, found that the present rates of taxation of indigenous liquors are as high as they can be, and that any further enhancement will lead not to any actual restriction of consumption, but to the substitution, for the comparatively wholesome arrack and toddy, of the relatively more noxious brands of cheap imported liquor.

PUBLIC HEALTH.

85. The birth-rate was 14·98 per mille of population against 16·22 in 1906-07 and the death-rate 18·82 as against 20·88. The mortality under fevers was smaller than in the previous year as also that under cholera and small-pox. But unfortunately plague was very much more severe, the figures being 20,206 attacks and 14,750 deaths as against 5,983 and 4,287 in 1906-07. The district of Bangalore suffered the most and the Chitaldrug District the least, the former reporting 5,479 attacks with 4,080 deaths and the latter 202 attacks with 168 deaths.

86. In addition to the usual preventive measures of evacuation and disinfection, inoculation and rat destruction were largely resorted to during the year. The number of inoculations effected was 3,167. Rat destruction was carried on on a large scale in the Bangalore and Mysore Cities. As recent scientific researches show that the rat and its attendant flea are the media of communication of

the plague to man it is believed that a wholesale destruction of rats in a place liable to infection or already infected is likely to prevent an epidemic or at least mitigate its severity.

PUBLIC HEALTH DEPARTMENT.

87. In my address last year I described in some detail the organization of the department of Public Health which was started early in 1907-08. The department has not been fully organized owing to financial considerations and the paucity of specially trained hands. The three Cities of Bangalore, Mysore and Kolar Gold Fields have each been provided with a qualified Medical Officer of Health, and a Divisional Sanitary Officer has been appointed for the Western Circle comprising the Shimoga, Kadur and Chitaldrug Districts. One medical graduate was sent to England to undergo a sanitary training and one to Madras. Five Deputy Inspectors of Vaccination were also deputed to Madras to be trained in sanitation.

88. Considerable difficulty has been felt in securing properly trained persons for employment as Sanitary and Assistant Sanitary Inspectors and to meet this want, it is proposed to start a training school for this agency. In this school instruction in sanitary matters will also be given to shekdars and schoolmasters.

89. As you are aware a Health Exhibition is held during the Dasara, and by this means as well as by means of lectures and distribution of leaflets in the vernacular, attempts are being made to diffuse a knowledge of sanitary matters among the people.

90. Apart from the sanitary works executed in the Mysore and Bangalore Cities, the water-supply of Harihar and the Kolar Gold Fields and the drainage of Robertsonpet were undertaken during the past year. In the present year it is proposed to take up the following works, *viz.*, extension of Hiriyur town, water-supply to Ganjam, Seringapatam, Shimoga and drainage and extension of Shimoga.

91. The reorganization of the Vaccination Department ordered in connection with the Health Scheme has not been brought into effect for want of specially qualified vaccinators. These are proposed to be trained in the Sanitary School.

92. What is called the Kurnool system of Vaccination was introduced in the rural areas in every district, and in urban areas vaccination was entrusted to medical subordinates. Vaccination was made compulsory in the Bangalore and Mysore Cities and on the Kolar Gold Fields.

Medical Aid.

93. During the year, the staff of the Victoria Hospital was strengthened by the addition of one more Surgeon of

high qualifications who is also a specialist in ear, throat and nose diseases. Government have under contemplation the erection of a suitable eye-hospital in close proximity to the Victoria Hospital, so as to make adequate provision for the large number of patients now seeking relief in Bangalore from all parts of Mysore and from outside its limits, for whose treatment the existing arrangements are found to be insufficient.

Indigenous Medicine.

94. While every thing possible is being done to extend medical aid to the people on lines approved by western science, and in fact the cost under "Medical" alone has more than doubled itself within the past 12 years, Government feel that they have a duty to discharge in regard to the indigenous systems of medicine. India was once famous for its medicine and surgery and the art was taken up and cultivated by the Arabs. Like other branches of Eastern knowledge, medicine according to the Ayurvedic and Yunani systems has latterly fallen into disfavour mainly owing to want of encouragement. It was felt that the revival of this ancient system of medicine which had merits of its own fell within the sphere of the activities of a leading Native State like Mysore, and Government have accordingly passed a scheme for instruction in the Ayurvedic science and practice being imparted by duly qualified professors. Arrangements have also been made for the teaching of modern anatomy and physiology in the new School.

DISTRICT FUNDS.

95. The income under all heads of District Funds amounted to Rs. 11,06,141 including the opening balances. The total expenditure was Rs. 7,67,468, namely, Rs. 5,52,007 on Public Works, Rs. 48,835 on Sanitation, Rs. 73,116 on Medical Aid and the remainder on Miscellaneous items.

96. At the end of 1906-07 there were 47 Unions in existence and 247 Unions were formed during the year. One Union, *viz.*, that at Siddapur in the Molakalmuru Taluk, was abolished on the representation of the villagers and on the recommendation of the District Board. To supplement the resources of the Unions the surplus sale proceeds of cattle-pounds were directed to be assigned to them with effect from the 1st July 1908.

97. With a view to improve the sanitation of villages, the Village Sanitation Rules were ordered to be introduced into all villages containing 25 houses and upwards.

MUNICIPALITIES.

98. There were 88 Municipalities during the year as in the last year. In the case of 15 non-Regulation Municipal towns, preliminary action under Section 8 of the Municipal Regulation of 1906 was taken to bring them under the Regulation.

99. As I have already mentioned a new extension was laid out during the year between the Chamarajendrapet and the Basavangudi extensions of Bangalore. An extension called "Ramachandrapet" was formed in the Chintamani town. Action was taken by the Kolar Town Municipal Board for forming an extension of that town.

100. An estimate amounting to Rs. 50,000 was sanctioned out of the Mysore City Municipal fund for the electrification of the Belagola Water Works. Of the amount required for this project a moiety will be treated as a loan to the Mysore City Municipal Council, repayable in five equal annual instalments with interest at 4 per cent per annum.

101. The income of all the Municipalities, including the opening balance, amounted to Rs. 13,44,422. The total expenditure incurred was Rs. 8,72,401, of which the expenditure on Conservancy and Public Works amounted to Rs. 1,90,749 and Rs. 3,02,303, respectively.

THE MYSORE CITY IMPROVEMENTS.

102. A material change was effected during the year in the constitution of the Board of Trustees for the Improvement of the City of Mysore. This Board had since the date of its constitution a full-time Chairman presiding over it; but, with a view to promote co-ordination of action and to enlist the sympathy of the Mysore City Municipal Council in the operations of the Board and to economise expenditure on establishments as far as possible, the appointment of a full-time Chairman was abolished, and the Deputy Commissioner of the Mysore District, who is also the President of the Mysore City Municipal Council, was, as a tentative measure, appointed Chairman, *ex-officio*. Certain other changes in the office establishments were also made. The revision has resulted in a saving of Rs. 20,000. Steps are being-taken to place on the Board the Health Officer of the Mysore City Municipality and the Deputy Sanitary Commissioner. It has also been decided that all new works undertaken by the Trust Board should receive the professional scrutiny of the Chief Engineer in respect of their engineering features, all administrative operations being left entirely under the control of the Trust Board.

103. The annual grant for the Mysore City Improvement is, with effect from the current official year 1908-09, fixed at three lakhs of rupees inclusive of the opening balance in favour of the Board and its income derived from properties.

104. In addition to the estimate for Rs. 1,89,000 sanctioned last year, another estimate for Rs. 2,79,585 was sanctioned during the year for acquisition and demolition

of houses in No. III drainage area. The amount available for expenditure during the year by the Board was Rs. 3,48,124, of which the expenditure on improvement works amounted to Rs. 2,58,361.

105. The Board has now under its consideration (1) the question of proper house-connections with street drains and (2) improved methods of building construction in the city and its extensions.

GOVERNMENT PRESS.

106. The machinery, type and appliances of the Government Press have been greatly improved and, under the management of its capable Superintendent, work is now being done in an efficient manner. It is satisfactory to learn that certain employees of the Press appeared for and passed the Madras Government Technical Examinations in printing. It is proposed to select some educated young men as Press Probationers and train them in all branches of printing work.

MUZRAI.

107. During the year 160 Muzrai Institutions were repaired at a cost of Rs. 50,000, of which Rs. 34,000 came from the surplus funds of the institutions concerned and a sum of Rs. 15,000 was contributed by the State. Annual tasdiks amounting to Rs. 5,000 a year were newly sanctioned, the bulk of which—Rs. 4,200 a year—was for the conduct of daily worship and other charities at the Brindavan constructed in Calcutta in memory of His Highness the late Maharaja Chamarajendra Wadayar Bahadur, G.C.S.I. Dharmadarsis were appointed to supervise the affairs of 28 institutions, and the lands of the Majjigehalli Matt of Mulbagal were taken over under Government management at the request of the Swami.

108. Recently steps have been taken to amalgamate the Muzrai Secretariat with the General and Revenue Secretariat and to appoint a Muzrai Superintendent who will be able to tour about freely inspecting Muzrai Institutions, while at the same time somewhat larger powers and more responsibility have been delegated to the Deputy Commissioners.

ARCHÆOLOGY.

109. The Sravana Belgola volume of the Epigraphia Carnatica is being revised and a general summary dealing with all the volumes and presenting the results in an easily accessible form has been prepared by Mr. Rice and will be published shortly. A general index, so necessary for the proper use of the volumes hitherto published, is also under preparation.

110. During the year 1907-08, Mr. R. Narasimha Char, now in charge of the Archæological Department, has been able to bring 210 new inscriptions to light and also some interesting copper plates.

111. Among the manuscripts that have been obtained are a work on rhetoric by Sayana, the well-known Vedic commentator, and a commentary on the *Aptamimamsa* by a celebrated Jain scholar of the 8th century, A.D.

112. Arrangements have been made to start excavation work in some ancient sites near Chitaldrug and elsewhere, and it is hoped that valuable results will be obtained.

EDUCATION.

113. I now turn to the Education Department, the administration of which engaged a large share of the attention of Government during the year.

114. It is satisfactory to note that there was a considerable increase in the number and strength of schools during the year. The total number of public and private schools was 4,146 and the total attendance 1,23,106, the highest figures recorded in the history of the Education Department in Mysore. The corresponding figures for the previous year were 3,964 and 1,17,951, respectively. The percentage of children of school-going age who attended the schools was 15·06 as against 14·43 in the previous year.

Abolition of Fees.

115. Several changes of an important and far-reaching character have been introduced in the Department during the year 1907-08 and since the beginning of the current year. As I told you last year the levy of school fees was abolished in the lower and upper primary classes of Village Elementary Schools from October 1907, and since then fees in the lower secondary classes of such schools and in the vernacular classes of Anglo-Vernacular Schools have been abolished, so that elementary education in all Government Schools is now entirely free. We are in hopes that the measure will bring the rudiments of education within the reach of the poorest classes in rural parts. The teaching of English has also been made compulsory in all Anglo-Vernacular Schools from class III upwards.

Increase of pay to Village School Masters.

116. I shall now pass on to another measure calculated to increase the efficiency of elementary education by affording teachers a living wage which in many instances they have not hitherto had. As you are aware, the pay of all village schoolmasters receiving less than ten rupees a month was raised by one rupee with effect from October 1907, and I am glad to say that it has been found possible to give full effect to the intentions of Government by raising the pay of all schoolmasters to Rs. 10 per month with effect from 1st July 1908.

Reorganization of Colleges.

117. In connection with Higher Education, the two first grade Colleges in the State are being reorganized to meet the requirements of the new Regulations of the Madras University. It is proposed to concentrate science

teaching in the Central College, Bangalore, and to confine the teaching in the Maharaja's College, Mysore, to the literary subjects. It is expected that this will tend to greater efficiency and avoid an unnecessary reduplication of courses such as now exists. It is hoped that in the near future it may be possible to teach all the science courses of the B. A. Degree Examination in the Central College, Bangalore, and all the literary subjects in the Maharaja's College, Mysore. Steps are being taken to erect the necessary laboratory and other buildings in Bangalore.

The Indian Institute of Science.

118. It is also a matter for gratification that the erection of buildings for the Indian Institute of Science founded by the late Mr. Tata, has been commenced on a suitable plot of ground near Bangalore granted by the State. As you may be aware the State has made a liberal building grant of five lakhs and also gives an annual grant of Rs. 50,000 to the Institute. As I have already informed you when dealing with the finances of the State, it was found possible to pay the whole of the building grant during the past year and the payment of the annual grant will come into operation during the current year along with similar grants by the Government of India and other bodies.

Kindergarten and Manual Training.

119. In my address to you last year I referred to the action taken in the first months of 1907-08 in regard to the introduction of kindergarten and manual training in the State. As many of you may be aware, the services of Dr. Gustaf Larsson, Principal of the Sloyd Training School, Boston, U. S. A., and of Miss Latter, a distinguished kindergarten specialist who had long been connected with the London School Board, were secured for a period of some months to organise the teaching in these subjects and to train teachers. Dr. Larsson was engaged on this duty from September 1907 to April 1908, and 22 teachers of High Schools were trained in the system. Dr. Larsson formed a very favourable opinion of the men deputed to undergo the training and found them to be most apt and willing pupils. He has left it on record that they made progress far beyond his expectations based on experience of similar teachers in America.

120. Miss Latter worked for some time in the Government Girls' Schools, Bangalore, and reformed and reorganised kindergarten teaching in the lower primary classes on the latest principles, paying special attention to nature study. She also delivered a course of lectures on the principles of kindergarten which were attended by about 50 teachers. During the short time she was in Bangalore she endeared herself to the little children in her charge, and her most unexpected and unfortunate death in November

last was extremely regretted by everybody who knew her and her work. Her work has, however, been continued by Miss Williams and Miss Hart and a large number of teachers are being trained in the system.

121. As regards the future development of these courses of training, arrangements have already been made to open nine Sloyd centres in connection with the Government High Schools, in which boys of these schools as well as boys of other schools in the neighbourhood, of Forms II to IV, will be trained. Cardboard work will be introduced into the first three Anglo-Vernacular classes below Form II in a large number of Anglo-Vernacular Schools and Kindergarten handwork in the lowest classes.

Educational Exhibition.

122. In this connection I must refer to the Educational Exhibition held during the Dasara of 1907 when a large number of the most interesting exhibits from schools in London were on view.

Technical Education.

123. Technical and Industrial Education has been making substantial progress, and the various schools, especially the school in Mysore, did excellent work. Sanction has been accorded for opening a new school in Sagar. The work of acquiring land for the Chamarajendra Technical Institute was proceeded with last year and the erection of the necessary buidings will be taken up this year.

124. The rules for the Damodar Doss Scholarships were revised so as to secure persons of high education and intelligence as candidates for the scholarships as it was found that the former rules did not ensure this result.

125. Female education continued to make satisfactory progress. It has been felt that more progress could be made if a larger number of female teachers were employed in schools, and Government are taking steps to gradually replace male by female teachers in Girls' Schools.

Compulsory Education.

126. Government have also under consideration the question of making education compulsory in a few selected places as an experimental measure, and Mr. Bhabha will soon be deputed to study the working of the system in Baroda.

Moral and Religious Instruction.

127. You will be glad to hear that His Highness the Maharaja has been pleased to accord his sanction to a scheme for imparting moral and religious instruction in all the Government Schools in the State, which will be brought into operation from the 1st November next.

THE UNREST IN INDIA.

128. When there is so much talked about regarding unrest in India, I cannot close this address without making some reference to it. I shall not attempt to enter into its causes; but that there is unrest in the country must be acknowledged by all. Its birth may be said to be

almost coeval with the introduction of English education into India. Political aspirations based on the lessons of English history and English thought, however vague they may have been in the beginning, have taken root in India among the English-educated classes, and signs are not wanting that such ideas are penetrating, in some shape or other, surely if slowly, the non-English-knowing population also. It may be that these ideas of liberty and popular government thus transplanted from England are somewhat alien to Indian soil, and that they require time if they are to be fully acclimatised to conditions in this country. But every one cannot but recognize that these aspirations have come to stay and must spread, and it is a duty both of the Government and of the leaders of the people to take count of the new forces and see that they are directed in right channels.

129. At the risk of repeating a sentiment that has been often expressed for some time past, but which is none the less true or apposite, I would say that the key to the whole difficult situation appears to be sympathy. I am not one of those who repeat the parrot cry which charges the rulers with want of sympathy. Sympathy is necessary not alone in the rulers with the ruled in their shortcomings and defects, their hopes and their aspirations, but also in the ruled with the rulers in their necessarily defective knowledge of the Indian mind and character, in the practical difficulties they have to face in carrying out new policies, and in their high responsibility for the preservation of external security, for the maintenance of law and order, and for the evolution of progress among a heterogeneous population. It is therefore a matter for profound regret that some misguided men should have overstepped all limitations of law and order, and even humanity, and sought the help of terrible anarchist weapons with the vain view to intimidate the Government. The great mass of the people, however, who enjoy the inestimable benefits of peace, order and justice under the ægis of the British Power, are perfectly loyal to the British throne, and they and all right-thinking men have no sympathy whatever with anarchist methods or with ideas inconsistent with the continuance of India as an integral part of the British Empire.

130. As regards Mysore, situated as we are, surrounded by British territory on all sides, and considering we have been equally long under the influences which have given rise to aspirations of nationality and liberty in British India, it is only in the nature of things that this State should not escape participation in the ferment that is noticeable all over India. We

should be thankful that the new spirit has not assumed any of those aggressive or ugly forms which it has taken in some other parts of India. Even here, the agitator had to be taken betimes in hand—although our agitator was a comparatively mild and harmless personage—and both the schoolboy and certain sections of the general public had to be warned of the dangers of adopting the creed as presented by an extreme section of the agitators, which might, when carried into action, commit them to courses which they would inevitably have to deplore. They had to be reminded that as far as Mysore was concerned they had all that a genuine nationalist could wish for. We have in the first place this great Assembly fully representative of the people. Every administrative question and every action of Government it is open to the members to interpellate Government upon and have it discussed in the full Assembly. Next we have the Legislative Council to which His Highness has been graciously pleased to allow two members to be elected by this Assembly. Then we have the Council of His Highness the Maharaja and the Maharaja himself at the apex of the constitution. We have a completely organised system of Government modelled on that of British India and manned almost entirely by Indians. The efforts of Government have been continuously directed to the promotion of the moral and material good of the people; and they have further in view the constitution of what is known as the Village Tank Panchayet which, as has been acknowledged, has great potentialities in it. If even a part of what Government anticipate from this measure is realised, we shall have gone far towards solving the question of real local self-government, the achievement of which our country-men in other parts of India are striving after.

131. Possessing all these advantages it would be sheer folly if, misled by catch phrases and spurious agitation, we allowed ourselves to be seduced from our duty to ourselves and to the State, and countenanced the mad preachings of misguided agitators. There is nothing wrong in the new spirit itself, but when it assumes the form of impatience of all authority and fosters lawlessness in unbalanced minds, it becomes a source of danger to society and prejudicial to well-ordered progress. I am confident that I am expressing the sentiments of one and all of you, representatives of the people of Mysore, when I say how utterly we abhor and condemn the terrible outrages recently perpetrated by a few misguided and fanatical agitators and how alien to our nature are the ideas and methods of which these outrages are the outcome and the expression.

132. Over and above our duty to the State and to our Maharaja, we have a duty to the Paramount Power to whom we, both ourselves and the State, owe so much; and anything calculated to weaken loyalty to the British Throne should be discountenanced and repelled by you. We owe our external security to that great power and what advance we may have made in constitutional government is due mostly to the sympathy and guidance of that power. I cannot conclude this address better than by quoting the words of His Highness the Maharaja addressed a few months ago to the Representative of the Paramount Power, words which express with a simple directness the loyal feeling of the people of Mysore towards the British Throne :—

"You have referred to the peculiar relation in which Mysore stands with regard to the Government and officers of the Paramount Power. This relation stands on a solid basis of benefit conferred on the one hand and, as I am proud to maintain, justified on the other. The friendship thus begun has been confirmed and cemented by the closest and most cordial intercourse at work and at play, in fair weather and in foul, for more than a hundred years. That these relations may ever be continued is, I can assure you, the earnest desire of Mysore and its Ruler."

V. P. MADHAVA RAO,
Dewan of Mysore.

APPENDIX A.

RECEIPTS.

Heads of Receipts	Final 1906-07	Preliminary 1907-08	Difference	Remarks
	Rs.	Rs.	Rs.	
Land Revenue	100,31,178	1,03,78,856	+ 3,47,678	Increase due to recovery of arrears of previous years.
Salt	18,638	10,182	— 8,456	
Stamps	7,58,283	7,98,314	+ 40,031	
Excise—(*a*) Arrack	20,01,438	21,79,393	+ 1,77,955	Increase under duty due to larger consumption.
(*b*) Toddy	18,66,485	18,85,292	+ 18,807	
(*c*) Miscellaneous	1,09,058	92,227	— 16,831	
Total, Excise ...	39,76,981	41,56,912	+ 1,79,931	
Sayer	3,67,677	2,451	— 3,65,226	Decrease due to the abolition of *Halat* on Supari.
Mohatarfa	3,29,650	3,16,693	— 12,957	
Forest—(*a*) Sandalwood	12,56,680	14,17,702	+ 1,61,022	Increase due to high price realised by sandalwood.
(*b*) Timber	3,57,891	4,25,491	+ 67,600	Increase due to the disposal of a larger quantity of timber in the Kadur District.
(*c*) Other Forest items ...	3,01,748	4,28,739	+ 1,26,991	
Total, Forest ...	19,16,319	22,71,932	+ 3,55,613	
Gold Mining—(*a*) Five per cent Royalty.	16,01,492	15,13,083	— 88,409	Decrease due to diminished output by some of the mines on the Kolar Gold Fields.
(*b*) Prospecting license fees, premia on new leases granted	45,422	69,892	+ 24,470	
Total, Gold Mining ...	16,46,914	15,82,975	— 63,939	
Registration	1,43,640	1,49,445	+ 5,805	
Amrut Mahal	54,454	49,666	— 4,788	
State Investments and Bank Deposits—				
(*a*) Interest on Government Securities, etc....	2,24,559	4,50,567	+ 2,26,008	Increase due to additional investments.
(*b*) Interest on Deposits in the Madras Bank	37,455	79,068	+ 41,613	
Total, State Investments and Bank Deposits	2,62,014	5,29,635	+ 2,67,621	
Interest on Loans and Arrears of Revenue.	99,827	1,34,621	+ 34,794	
Law and Justice—(*a*) Courts	52,830	44,389	— 8,441	
(*b*) Jails	24,062	23,706	— 356	
Total, Law and Justice ...	76,892	68,095	— 8,797	
Police	36,433	21,547	— 14,886	
Education	1,29,841	1,24,592	— 5,249	
Medical	81,183	99,543	+ 18,360	
Scientific and other Minor Departments...	20,730	25,274	+ 4,544	
Stationery and Printing	8,694	8,318	— 376	
Public Works	3,29,966	3,70,019	+ 40,053	Increase due to larger supply of water to the Mining Companies.
Other Items	1,79,949	1,81,890	+ 1,941	
Total ...	2,04,69,263	2,12,80,960	+ 8,11,697	
State Railways—Revenue Account ...	9,05,894	9,87,211	+ 81,317	Increase due to improved traffic on the Mysore-Harihar line.
Cauvery Power Scheme	20,11,554	17,58,346	— 2,53,208	Decrease mainly due to expiry of the period of h contract rates.
Grand Total ...	2,33,86,711	2,40,26,517	+ 6,39,806	

EXPENDITURE.

Heads of Expenditure	Final 1906-07	Preliminary 1907-08	Difference	Remarks
	Rs.	Rs.	Rs.	
Subsidy	35,00,000	35,00,000	.....	
Civil List	16,00,000	16,00,000	.....	
Pensions to Members of the Ruling Family ...	3,40,000	3,40,000		
Political Pensions including allowances in lieu of Jahgirs	84,361	84,824	 463	
Total ...	55,24,361	55,24,824	+ 463	
Refunds and Drawbacks—				
Irrigation Cess merged in Land Revenue ...	1,56,444	1,56,444	.....	
Other Items	57,887	51,975	—5,912	
Total ...	2,14,331	2,08,419	—5,912

SUPPLEMENT TO

THE MYSORE GAZETTE

Published by Authority.

MYSORE, THURSDAY, OCTOBER 15, 1908.

Abstract Proceedings of the Mysore Legislative Council.

The Council met in the Public Offices, Mysore, on Thursday the 1st October 1908 at 5 P.M.

PRESENT.

V. P MADHAVA RAO, ESQ., C.I.E., Dewan (Presiding).

Ex-officio Members.

T. ANANDA RAO, ESQ., B.A., (First Councillor).
K. P. PUTTANNA CHETTY, ESQ., (Second Councillor).

Additional Members.

Official.

RAJAKARYAPRAVINA A. RANGASWAMI IYENGAR, ESQ., B.A., B.L.
H. J. BHABHA, ESQ., M.A.
RAO BAHADUR M. MUTHANNA, ESQ.
M. KANTHARAJ URS, ESQ., B.A.
S. NARAYANA RAO, ESQ.
K. S. CHANDRASEKHARA AIYAR, ESQ., B.A., B.L.

Non-official.

RAJAMANTRAPRAVINA C. SRINIVASIENGAR, ESQ.
V. N. NARASIMMIYENGAR, ESQ.
M. C. RANGIENGAR, ESQ., B.A.
B. NAGAPPA, ESQ., Bar-at-law.
SYED AMIR HASSAN, ESQ.

C. S. BALASUNDARAM IYER, ESQ., B.A. (Secretary).

994

The Secretary reported that the Mysore Newspapers Regulation, III of 1908, received the assent of His Highness the Maharaja on the 8th day of August 1908.

Bill further to amend the City of Mysore Improvement Regulation, III of 1903.

MR. T. ANANDA RAO moved for leave to introduce the above bill, and in doing so said:—The object of the short amendment to the City of Mysore Improvement Regulation, III of 1903, is to vest in the Board of Trustees the powers exercised by the Mysore City Municipal Council under the new Mysore Municipal Regulation, VII of 1906, in regard to the drainage, conservancy and sanitation of the areas brought under the control of the Trust Board. Opportunity has also been taken to propose an amendment to Section 4 relating to the constitution of the Trust Board by which the Board will have 9 Trustees instead of 8. The Board thus constituted will include the Mysore City Health Officer and the Deputy Sanitary Commissioner in the place of the Civil Surgeon.

MR. K. P. PUTTANNA CHETTY seconded the motion.

The motion was put to the Council and carried.

Bill to provide a law relating to Treasure-Trove in Mysore.

RAJAKARYAPRAVINA MR. A. RANGASWAMI IYENGAR moved for leave to introduce the above bill, and in doing so said:—Under Rule 30 of the rules for the conduct of business of this Council, I rise to move for leave to introduce a bill to provide a law relating to Treasure-Trove in Mysore. The proposed bill and its statement of objects and reasons have been published with Government Notification No. J. 2709—Legis. 19 of 1906, dated 6th March 1907. The statement clearly explains the need for the legislative measure in question and the changes introduced in the existing rules and the Indian Treasure-Trove Act, VI of 1878, the provisions of which have been generally adopted. It is scarcely necessary for me to take up the time of the Council especially at this stage by going more fully into details, and I request accordingly that the bill may be allowed to be introduced.

MR. K. S. CHANDRASEKHARA AIYAR seconded the motion.

The motion was put to the Council and carried.

Bill for the Regulation of the Possession and Sale of Poisons in Mysore.

MR. K. P. PUTTANNA CHETTY moved for leave to introduce the above bill, and in doing so said:—Mr. President,—The measure I am entrusted with, deals with the possession and sale of poisons within the State. The question of restricting, by legislation, the possession and sale of poisons has been under the consideration of Government ever since 1894. It was then suggested to Government that the Bombay Act, VIII of 1886, might be introduced into Bangalore. It was however understood that the Act did not efficiently serve the object which its framers had in view. Meanwhile, the Government of India had under consideration a proposal for an enactment on the subject for the whole of India. This Government deferred taking further action till the Government of India passed the Poisons Act. Now that the Poisons Act (I of 1904) has been enacted and rules have been framed under it by almost all the Local Governments in British India, it is thought desirable to introduce a similar measure in Mysore.

I need not explain to you in any detail the necessity for such a measure. The ease with which poisons can be procured and the dastardly purposes to which they can be, and have been, used make it necessary that Government should exercise, in the interests of the people, some general control over the possession and sale of poisons. In the absence of such a measure, it is possible for any one to get hold of any quantity of poisons for any purpose and to escape notice or detection. The object of the present measure is, therefore, to provide for such a general control. The scope of the bill is very limited. It is only a

permissive measure, empowering Government to make rules for the objects specified therein. Its success will therefore depend upon the rules framed and upon the manner of enforcing them.

I shall now briefly advert to a few of the provisions of the bill. Clause 2 empowers Government to control the sale of poisons within Municipalities. Clause 3 authorizes the prohibition of the importation of white arsenic except under a license. This poison is particularized, because it is commonly used in criminal cases of poisoning and is also easily procurable. Further, by Clause 6 power is taken to apply the provisions relating to white arsenic to any other poison. Clause 10 affords protection for *bona fide* dealing with poison by professional men who have to employ them in the ordinary course of their business.

I must however refer to one point in some detail on which our bill departs from the British Indian Act. And that is with regard to the power vested in Government under Clause 10 (2) to make rules for the control of transactions by chemists and druggists and other professional men with regard to certain poisonous drugs to be specified by Government. Our recent experience has demonstrated the necessity for such a provision. I need not bring to your recollection the facts connected with the atrocious series of murders recently brought to light in Bangalore. How the miscreants used chloroform—primarily invented for the relief of pain—for effecting their nefarious objects and how easily they were able to obtain it, these are well known facts. It is indeed regrettable that such poisonous drugs, which may be used with fatal results, should be easily procurable from chemical shops, and it is, therefore, proposed to take power under the bill to provide that with regard to poisonous drugs to be specified by Government the medical practitioners and other professional people should maintain registers with full particulars and allow examination of the registers and the poisons exposed for sale.

I now move that leave be granted to introduce the bill.

Mr. M. Kantharaj Urs seconded the motion. The motion was put to the Council and carried.

Bill to amend the Mysore Registration Regulation, I of 1903.

Mr. T. Ananda Rao:—Sir,—I beg to move that the amendment of Section 88 of the Mysore Registration Regulation be taken up and read in Council. As already stated, it is for the purpose of exempting the Deputy Post Master-General of Madras from attending at Registration offices for the registration of documents to which he is a party. In British India, he is exempted from appearance just as all British Government Officers are exempted in British India and as all Mysore Government Officers are exempted in Mysore.

Mr. S. Narayana Rao seconded the motion.

The motion was put to the Council and carried. The bill was then finally considered in Council and was unanimously adopted by it.

The Village Tank Panchayet Bill.

Mr. K. P. Puttanna Chetty moved for the introduction and reading of the above bill, and in doing so said:—Sir, I beg to move that the Village Tank Panchayet Bill, which has been published in the Gazette of the 10th September, be read in Council. The object of the bill and the main principles involved in the measure are sufficiently clear from the statement of objects and reasons which has also been published, and it is hardly necessary for me to explain these at any great length.

To an agricultural country like Mysore, the importance of its irrigation works cannot be overrated; and, as might have been expected, the subject of tanks has engaged the attention of the Government for several decades past. There are in the State nearly 40,000 tanks, large and small, about 30,000 of which yield revenue to Government. Every valley and every drainage area has had a bund thrown across it for storing the drainage of the country, so

much so that, as observed by a great engineering authority, it is extremely difficult to find a site suitable for a new tank. It was therefore recognised at a very early stage that little remained to be done by the Government in the matter of irrigation facilities beyond restoring and maintaining the old works.

To take up first the subject of maintenance of tanks, it was found that the majority of the tanks were in a state of the utmost neglect. This was due to the customary obligations of the raiyats to keep their tanks in order not being enforced. All that a raiyat need be called upon to do in the way of maintenance of tanks is to throw a basketful of earth here and there, to fill in the gullies on the slopes of the bunds, remove prickly pear and rank vegetation from the bunds, and such small items of work, timely attention to which would save the tank from falling into disrepair. It is impossible for any Government agency to attend to these details; and, as a result of not enforcing the raiyats' obligations, it was found that tanks were every day hopelessly getting into disrepair. The Government therefore found that it was time the customary obligations of the raiyats were enforced, and accordingly in the year 1873 they passed the Tank Maintenance Rules for enforcing these obligations. It is under these rules, as slightly modified by a Government Notification issued in December 1904, that the maintenance of tanks by the raiyats is at present regulated.

The rules of 1873 refer only to tanks which are already in a state of efficient repair or have been restored and brought to a standard of safety and formally handed over to the raiyats for upkeep. As regards tanks which had not been restored to a standard of safety, it was considered that raiyats could not reasonably be called upon to restore or repair works which had been neglected for a number of years. The question of the repair and restoration of these neglected tanks engaged the anxious consideration of the Government for years, but no definite steps were taken in the matter until 1887, when a distinction was drawn between tanks yielding a revenue of over Rs. 300, which were called major tanks, and those yielding a revenue of Rs. 300 and under, which were called minor tanks. Under this classification there are 2,388 major tanks and 26,682 minor tanks in the State. The restoration of the former was to be carried out by the Public Works Department, subject to the levy of contribution from the raiyats. We are not, however, concerned, in the bill before us, with the subject of the restoration of major tanks, and I shall not refer to it again. As regards the minor tanks which form the great bulk of the tanks in the State and which have aptly been described as "the life of the country," these were, under the scheme sanctioned in 1887, to be restored by the Government and the raiyats jointly, the Government undertaking to do the required stone and masonry work, whenever the raiyats carried out the earthwork. After restoration, the maintenance of these tanks was to be enforced under the Rules of 1873. This scheme known as the Minor Tanks Restoration Scheme sanctioned in 1887 is still in operation, and it is under it that minor tanks throughout the State are now being restored.

These, then, are the rules in force in the State in regard to the two matters dealt with in the bill before us, the restoration and repair of minor tanks and the maintenance of all restored tanks, major and minor, *viz.*, the Minor Tank Restoration Scheme of 1887, in regard to the former and the Chief Commissioner's Rules of 1873, as amended in 1904, in regard to the latter. Let us consider what the results have been of the operation of these rules during the past several years.

Notwithstanding all the efforts made by Government for the proper preservation and restoration of these irrigation works, we cannot conceal from ourselves the fact that a large number of them are still in complete ruin and that many of the restored tanks themselves have been allowed to again fall into disrepair. Under the Minor Tank Restoration Scheme, altogether 2,304 tanks have been repaired since the scheme was started, or on an average of 110 per year. At this rate of progress it will be more than two centuries before all the minor tanks in the State are repaired. And as regards maintenance of restored tanks it has been a frequent complaint that the village officers on

whom the duty of enforcing the tank maintenance rules devolves have been slack in the performance of their duty, and that the higher Revenue officers have also been negligent in the matter. There have been many instances in which the raiyats neglected to do the necessary earthwork and the Public Works Department has had to undertake for a second time the restoration of such tanks to preserve them from complete ruin. Much has been done during the past few years to remedy this unsatisfactory state of affairs by the issue of orders insisting on the personal responsibility of Revenue officers to see to the proper maintenance of tanks.

While it is to be hoped that these measures will remedy matters to some extent, it appears to Government that something more is necessary before a radical improvement of the situation can be looked for. I do not say that the principle of the existing rules which insist on the responsibility of the raiyats for the maintenance of tanks once restored requires re-consideration—I have already shown that it is impossible for any but the raiyats interested in the tanks to maintain them—or that any material alterations are necessary in the scheme under which the restoration of minor tanks is carried out by the Government and the raiyats jointly. In fact a Committee appointed by Government in the year 1903 to consider the whole question was of opinion that no material changes in these rules were necessary. The rules are good enough so far as they go, but there are two circumstances which militate against their efficient working. The first is the want of a spirit of co-operation among the raiyats and the second is the absence of sufficient inducements to make them take a real and personal interest in their tanks. Undue importance was at one time given to the responsibility of Government for the upkeep of the tanks, the raiyats' liability being altogether ignored, and when Government found that its costly agency could not possibly undertake the management of all the tanks in the State, the raiyat was called upon to take charge of the majority of the tanks. But the raiyat had by this time lost all traditions of combination for works of public utility, and it is easy to see that without such combination it is impossible that the rules relating either to the maintenance of restored tanks or to the repair and restoration of minor tanks, both of which require concerted action on the part of the raiyats, can be satisfactorily carried out. It is an every-day experience of Revenue officers that the maintenance works required to be done by raiyats to tanks are often entirely neglected by reason of the obstinacy or default of a few recalcitrant raiyats, often only one or two. Again it often happens that, when a tank is to be restored, the majority of the villagers agree to pay the contribution demanded or to do the necessary earthwork, but the proposal falls through on account of the obstructive attitude of an unwilling minority. The first thing therefore to be done, if the present unsatisfactory state of things is to be remedied, is to educate the raiyats to unite for works of common benefit.

The second defect in our system of tank management to which I have referred is the absence of sufficient inducements to make the raiyats take any interest in the proper upkeep of their tanks. The maintenance of tanks has hitherto been treated as a matter in which Government is solely concerned and for which Government agency is alone responsible, while the principal factor in the problem, namely, the raiyat owning lands under the tanks, has been more or less ignored. The raiyats' part has been to unwillingly and sullenly carry out, if he could not evade, what was demanded of him by the village officers and revenue officers. Nothing has been done to interest the raiyat in the tank or to secure his willing and intelligent help and co-operation in the matter of its restoration and maintenance. In addition to educating the raiyats to co-operate with one another in their communal affairs, it is therefore necessary that an effort should be made to create in them an interest in the maintenance of their tanks. And if this is to be done there should be no feeling of compulsion when the raiyats have to do any work to their tanks. They should be given a substantial voice in the measures necessary for the maintenance of the tanks. The powers to execute the necessary works should be given to them, instead of their being pressed and compelled to do those works; and the

control over the funds that may be set apart for the purpose of repairing and maintaining tanks should also be transferred to them. They should be made to regard the tanks as their own and be induced to attend to their repairs and maintenance with the same readiness and interest as they would show in renewing the thatch to their houses or repairing the hedge of their gardens. In short, the raiyats' interest in the tanks can best be secured by allowing them a certain measure of self-government in respect of the tanks. It is with this view that it is proposed to constitute Village Panchayets for the control of tanks, composed of the Patel and Shanbhog of the village and three or more members elected by the raiyats from among themselves; and the object of the present bill is to authorise the constitution of such panchayets and to lay down their powers and duties. In giving over the control of tanks to the raiyats, their responsibilities and duties remain just the same as before. The bill does not relieve them of any of their existing obligations in regard to the maintenance, repair or restoration of tanks, nor does it impose any additional obligations on them. The bill only alters the agency by which these obligations are enforced. In place of the purely official agency now existing, the bill substitutes the agency of panchayets composed mostly of members elected by the raiyats themselves.

I should here like to remind the members of the Council of the fact that the constitution of Village Panchayets to deal with village tanks is not a new idea now started for the first time. On the contrary, there is strong evidence to show that village committees for the supervision and maintenance of tanks existed in South India from very early times. In the report of the Archæological Survey of British India for the year 1903-04, there is an interesting monograph from the pen of Mr. V. Venkayya about "Irrigation in Southern India in ancient times," in the course of which the writer makes some remarks about the committee for supervision of tanks which, he says, each village in the Tamil country seems to have had in ancient times, and which we may safely assume was to be found in the Kanarese country as well. "At Uttaramallur in the Chingleput District," says Mr. Venkayya, "there are two inscriptions belonging to the beginning of the 10th century, which furnish full details about the constitution of village assemblies and the mode of selection of members to them." . . . "We are there told that the village assembly consisted of several committees, of which the committee for supervision of tanks was one This body consisted of six members who held office for 360 days and then retired. If any one who served on the committees was guilty of any offence, he was removed at once. The duties entrusted to these committees are nowhere clearly laid down. But those of the committee for the 'supervision of tanks' with which alone we are at present concerned, do not require any detailed explanation. It may be presumed that all endowments made in favour of tanks were entrusted to them and that they had to invest money endowments in the best possible way. We may suppose that they utilised them in reclaiming waste land and cultivating it, in order to pay the interest on the endowment from the produce. They had apparently to look after the cultivation of lands granted to tanks. The income from both these sources had to be applied to meet the charges of the annual or periodical removal of silt in tanks and for repairs so far, I suppose, as funds would permit. Fines to be credited to the tank fund were levied by them." . . . "The king does not appear to have had any direct control over the upkeep of tanks. He could of course enforce the obligations incurred by village assemblies as trustees of endowments made for tanks." It will be seen from this that in former times the control of tanks vested not in the Government but in the village community, and that this control was exercised in a well-organised and systematic manner, but the information that we now possess does not enable us to say how or when this ancient indigenous institution ceased to exist.

The question may be raised whether it is wise to hand over the numerous irrigation works in the State on which so much of the revenue of the State and the prosperity of the people depend, to panchayets of villagers. Under the existing rules, the Revenue officers can compel the raiyats by coercive processes

to carry out the maintenance and repair of tanks. In spite of this power in the hands of the Revenue officers maintenance and repairs have been neglected. Will the raiyats show any more zeal in the matter when the enforcement of the rules is handed over from the Deputy Commissioner to their own panchayets and when the Deputy Commissioner can exercise coercion only on the application of the panchayets? This question has been asked and my answer to this is that the Government have every confidence that the proposed scheme will revive a communal spirit which will effect what any amount of coercion on the part of the Revenue officers has failed and must fail to achieve. But the Government fully recognize the fact that it is possible that they may be disappointed in their expectations; and, having regard to the enormous importance to the State and the people of the material interests dependent upon the upkeep of the tanks, they do not propose that the new scheme should be brought into force throughout the State at once. As explained in the statement of objects and reasons, the bill does not contemplate the constitution of panchayets compulsorily in places where the villagers do not wish to have them. The panchayets are to be formed only in villages where a majority of not less than two-thirds of the villagers wish to have them. And even where the majority of villagers decide to have panchayets, Clause 3 of the bill introduces a further limitation by laying down that panchayets are to be constituted only in places where the Government may consider it expedient to do so. The scheme will therefore be introduced only in villages where the Government may be satisfied that the conditions are favourable to its introduction. There should on the one hand be intelligent villagers who can co-operate for objects of common good, and on the other hand Amildars and Deputy Commissioners who are capable of working the scheme with zeal and sympathy. I fear that, with the disintegrating influences of modern civilisation, the factions existing in numerous villages, and the declining personal influence of the village officers and of the Amildars, it is only in a few villages that these conditions can, for some years at least, be found to exist. Far from there being therefore any danger of all or the majority of the tanks in the State being left entirely to the management of Village Panchayets who may or may not keep them in order, the problem which the Government will have to face when the bill is passed into law will be whether there are many places in which it could be successfully worked. And even in the few places where the panchayets may be constituted, clause 17 of the bill provides a remedy in the case of incompetency, default or abuse of powers on the part of panchayets by empowering Government to supersede the panchayets permanently or for a time. I may assure the Council that the working of the scheme will be most carefully watched by the Government and that they will not lose sight of the necessity to take careful stock of the position at short intervals in order to bring clause 17 into operation where necessary to prevent further deterioration of tanks which may have been neglected by panchayets.

Turning now to the powers and duties intended to be vested in the Tank Panchayets, it will be seen that as an immediate consequence of the constitution of a panchayet in a village, the enforcement of the Tank Maintenance Rules in that village will thereafter vest in the panchayet; and, as a corollary to this, the panchayet will have the power, which now vests in the village patel and the hobli shekdar or Revenue Inspector, to apportion the work required for the maintenance of the tank or tanks in the village among the raiyats according to their respective obligations; and, if a raiyat fails to do the work that is allotted to him or prefers to commute his quota or labour into a money payment, the panchayet will itself get the work done out of the funds at its disposal and recover the cost from the raiyat. The duty of getting work done which a raiyat fails to do now rests with the patel of the village; but, as the patel holds no funds for the purpose, this arrangement has not been found to be satisfactory in practice. Besides, when the patel by himself gets the work done, questions are likely to arise as to the cost actually incurred, but when the duty is entrusted to a panchayet of the leading raiyats their decision in such matters will be accepted without question.

The power to grant the beds of tanks for temporary cultivation of quick-growing crops is at present exercised by the Amildar and the Deputy Commis-

sioner, and is proposed under clause 12 of the bill to be transferred to the Tank Panchayet. Clause 13 provides that in order to avoid the waste of water that may be caused by different raiyats commencing the sowing of wet crops at different times, the panchayet may decide on the time when such sowing operations should be commenced and also empowers the panchayet to regulate the issue of water from the tank. The next clause of the bill, clause 14, also relates to the regulation of the issue of water from tanks, but it introduces an important innovation. This clause provides that a Tank Panchayet specially empowered by Government in this behalf with the consent of a majority of not less than two-thirds of the raiyats whose interests are affected may, in any year, having regard to the quantity of water available in the tank, impose such restrictions as it may consider necessary on wet cultivation below the tank. What now happens in seasons of short rainfall is that all the raiyats holding wet lands under a tank put their lands under wet cultivation, even when it is quite certain that the supply of water in the tank will not suffice for them all, with the result that there is a general scramble for water and all of them suffer from shortage, if not total failure, of crops. Similarly, there is now no restriction against any raiyat holding land under a tank planting sugarcane anywhere below the tank. The result is that sugarcane is planted in small patches here and there, and as this crop requires water nearly all the year round, there is considerable waste of water. To remedy this serious defect in the existing system, this clause provides that a panchayet specially empowered by Government as mentioned above may decide what extent out of each wet holding shall be allowed to be cultivated with wet crops, and, as for the cultivation of sugarcane, to select a suitable piece of land as near the sluice of the tank as possible and parcel it out among the different raiyats who may be desirous of cultivating sugarcane, and if the water in the tank is insufficient even for this to prevent such cultivation altogether. If, in accordance with a decision of the panchayet under this clause, any holder of wet land is not allowed water to irrigate his land and is prevented from raising wet crops thereon, it is proposed to allow a remission of half the assessment on the land. This is the most important provision of the bill.

Several questions are likely to be raised in connection with these provisions. In the first place, is it likely that a majority of wet land holders in any village will be willing to put it in the power of the panchayet to prevent the supply of water for irrigating their lands? Secondly, will the Government be justified in granting a remission of half assessment in such cases? Thirdly, will not this concession entail a serious loss of revenue to the State and will it not lead to abuse by encouraging the holders of wet lands to put their lands out of cultivation in order to secure the remission of half the assessment? To take up the last of these questions first, I think it may confidently be asserted that the panchayet or, for the matter of that, any raiyat will not put wet lands out of cultivation merely for the sake of obtaining a remission of half the assessment. It is well known that the Government assessment on wet lands represents but a small proportion of the income from the lands, and it is not to be supposed that anybody will willingly forego the profits to be derived from wet cultivation except for good and sufficient reason. There need not therefore be any fear of any serious loss of revenue to the State or of the concession leading to any abuse.

The second question is somewhat more difficult, *viz.*, whether the State would be justified, in view of its settlement system, in granting remissions in cases where wet crops cannot be raised on account of insufficiency of water. In Mysore we have followed the Bombay system of settlement under which wet lands are classed with reference to the capacity of the tanks to supply them with water for irrigation, and the assessment on them is fixed with reference to the average of a series of years, good and bad, and making sufficient allowance for occasional deficiencies of rainfall and other vicissitudes. Under this system the Government is not bound to grant either full or partial remission in bad years and the proposed system of granting remissions may therefore be objected to on the ground that it will affect the integrity of the existing settle-

ment. With reference to this I may say that, while I am prepared to hold that a system of settlement, under which a soil assessment and a water assessment are separately imposed on wet lands and the water assessment is remitted when no water is given for irrigation, has the advantage of simplicity and elasticity and may therefore be preferable to our existing system, it is now too late in the day to think of adopting such a system, and the Government have no intention of disturbing the existing system of settlement; but, they cannot shut their eyes to the fact that, in spite of all the care taken by the Survey and Settlement Department in classifying and assessing lands, more land has sometimes been entered in the *atchkat* of a tank than can properly be irrigated by it, and that although no doubt the assessment fixed on the basis of the average of a number of years works out fairly and equitably in the long run, the vicissitudes of the season often cause hardship in individual cases and in particular years; and, while the Government is not bound to grant full or partial remission in bad years, they have as a matter of fact been giving such remissions in cases of widespread drought. The present proposals go a step further in the same direction. Although no remission is claimable as a matter of right in cases where wet crops cannot be raised on any lands on account of insufficiency of water in a tank, yet as a concession and as an incentive to the raiyats to invest their panchayets with the useful powers contemplated in this clause, the Government propose to allow half remission in all cases where wet lands are thrown out of cultivation under the orders of a panchayet, treating them as analogous to the case of wet lands under tanks which have breached. And this brings me to the question whether the raiyats are likely to agree to put such a power in the hands of the panchayets. It is true that the people have almost lost the capacity for combined action, which implies readiness to make small personal sacrifices for the common good, and it is difficult to say how far the raiyats in a village, especially those holding lands at a distance from the sluice of the tank, will be willing to abide by a decision of the panchayet that in view of the insufficiency of water they should not raise wet crops upon any or all their lands; but, as observed in the statement of objects and reasons, if they are prepared to accept such a decision and show some self-restraint, this will be a measure of the extent to which the spirit of combination and self-sacrifice, which the Government wish to revive, has been brought into existence.

I have already referred to the fact that if the raiyats' personal interest in the tank is to be evoked, the control of the funds set apart for the repair and maintenance of tanks should be entrusted to them. It is therefore proposed that these funds, *viz.*, money payments from the raiyats in lieu of labour and a portion of the irrigation cess fund collected in the village, should be credited to a fund called the Tank Fund to be controlled by the panchayet. As an additional inducement to the raiyats to constitute panchayets, it is also proposed that several items of receipts which are now credited to the general revenues of the State, as for instance, the sale proceeds of the right of fishing in the tank and of the right of grazing in the tank bed, etc., should also be credited to the Tank Fund. These items will go some way towards reducing the cost which each raiyat would have otherwise to incur. Any advance or loan which the panchayet may obtain from the Government is also to be credited to this fund.

The only other clause of the bill to which I need now refer is clause 15 which deals with the construction, restoration and improvement of minor tanks. Under the existing system, as already explained, Government does not undertake such construction, restoration or improvement unless the raiyats come forward and do the earthwork, when the Government gets the masonry and stone work executed. This clause lays down that if the panchayet undertakes to execute such construction, restoration or improvement, the Government may entrust to the panchayet all the work required with the exception of stone and masonry work which will be done at the cost of Government. It is also laid down that the Deputy Commissioner may at his discretion entrust the execution of masonry and stone work also to the panchayet.

I have briefly explained the main principles underlying this measure, and it is unnecessary at this stage to go into its provisions in detail.

We hear so much in these days about the disappearance of the old village communal system of the country, and the Governments both of British India and of the Native States have frequently been asked to try to revive the ancient system. Here, in Mysore, we have had representations made during the meetings of the Representative Assembly asking for the constitution of Village Courts for the settlement of petty civil and criminal cases. There is a general feeling at the present time that we should try and revive this ancient indigenous institution of the Village Panchayet. Whether the old communal spirit can at all be revived is a matter which it is impossible for any one to predict with certainty; but the experiment is certainly worth trying. The scheme proposed in the bill before us is a practical attempt in this direction, and I commend it to the sympathetic consideration and support of the members of this Council. Personally I have every hope that the scheme will be a success in its primary object of improving the condition of tanks and in its ulterior object of reviving the communal spirit. I look forward to a day when the raiyat will have so identified himself with his tank as to feel a proprietary interest in it and a pride in keeping it neat and trim without any prompting from the officials. When such a feeling has been engendered in the raiyats it is possible that they may employ a Nirganti to watch the tank and put earth on it to fill up the holes and gullies and pay him either from their tank fund or by voluntary contributions. They may revive the old system of keeping a buffalo for carrying earth to be put on the bund. The raiyats who personally work in the field may set apart a day in the week or month and turn out to do work on the bund, the non-labouring classes contributing in money or grain for their share of the work. A rivalry will arise between neighbouring villages and one will vie with the other as to whose shall be the best kept tank. And when once the communal spirit is infused into the minds of the people and the raiyats develop the faculty of wisely administering the details of tank management, there is no reason why we should not entrust them with even a larger share in administering their own affairs. The panchayet may in course of time be able to prevent the occurrence of abuses in the collection of revenue, and in the sale of lands for arrears or on darkhast, settle differences among the people, manage their communal concerns and generally act as a committee of vigilance on behalf of the village community. But these are distant visions, no doubt.

With these remarks, Sir, I move that the bill be read in Council.

Mr. K. S. Chandrasekhara Aiyar seconded the motion which was put to the Council and carried.

Mr. K. P. Puttanna Chetty then moved that the bill be referred to a Select Committee consisting of Messrs. Rajakaryapravina A. Rangaswami Iyengar, M. Kantharaj Urs, S. Narayana Rao, V. N. Narasimmiyengar and Nagappa and the mover.

Mr. Nagappa seconded the above motion.

Rajakaryapravina Mr. A. Rangaswami Iyengar proposed the addition of Rajamantrapravina Mr. C. Srinivasiengar to the Select Committee and this was seconded by Mr. M. Kantharaj Urs. Both motions were adopted and a period of three months was fixed for the report of the Select Committee.

Bill further to amend the Code of Civil Procedure.

Mr. S. Narayana Rao:—Sir, I beg to present the report of the Select Committee on the bill to further amend the Code of Civil Procedure and in doing so, I have to observe that the Committee have unanimously approved of the bill referred to them on the 24th February last.

I desire to call attention to the recommendation made by the majority of the Committee in their report, suggesting an improvement to an earlier part of the Section 310A than that covered by the bill.

This Section 310A was introduced into the Code by Regulation III of 1906, and was intended to afford relief to certain judgment-debtors and others

whose immoveable property was sold in execution of decrees by enabling them to get the sales cancelled on payment of a certain amount of compensation to the purchasers and of the amount due under the decree to the creditor. The section may, for our present purpose, be viewed as consisting of two parts. The first part deals with the persons who are entitled to apply for cancellation of sales, while the second part lays down the terms on which the sales may be cancelled.

The bill now before the Council deals with the second part only, remedying certain formal defects therein and providing for an appeal against an order passed under this section. The amendments proposed in these respects are admitted on all hands to be necessary and desirable and the Committee have unanimously approved of the same, as I already submitted.

The further recommendation made by the Committee in their report refers to the first part of the section. The Committee felt it was not open to them to deal with this part of the section as being beyond the scope of the bill referred to them.

As this part of the section now stands in the Regulation, it restricts the persons who can apply for cancellation of the sale to the judgment-debtors and to such others as have acquired their title to and interest in the property before the same was attached, and in cases of mortgaged property before the decree directing the sale thereof was passed.

In British India the scope of this part of the section was enlarged (*vide* Section 2 of Act V of 1894) by declaring it open to every person who acquired his title to or interest in the property at any time before the Court sale thereof, to come in under this section and apply for cancellation of the same. This provision is retained in the new Civil Procedure Code of 1908 also. There are strong reasons in favour of the recommendation made by the Committee and it does not militate against the general policy or principle involved in the section. However, if the amendment recommended by the Committee cannot be regarded as part of the bill, it may be left out, and we may proceed to deal with the present bill which is intended to remove certain hardships experienced in working the section as it stands

I now move, under clause 46 of the Rules for the Conduct of Business, that the bill and the report of the Select Committee be taken into consideration by the Council.

MR. CHANDRASEKHARA AIYAR, in seconding the motion, added that the question of introducing the Civil Procedure Code as recently revised in British India was likely to be taken up shortly, and that the further recommendation of the Select Committee might be dealt with then.

MR. NAGAPPA proposed that the consideration of the Select Committee's report might be deferred to another meeting.

RAJAMANTRAPRAVINA MR. C. SRINIVASAIENGAR seconded this proposal, and after some discussion the Council resolved to take up the further consideration of the bill at a future meeting.

The Village Offices Bill.

MR. T. ANANDA RAO:—Sir, I beg to move that the following amendments to the Village Offices Bill be now considered:—

(*i*) *Clause 7, sub-clause* (*5*).—The words "subject to any rules which may be made by Government in this behalf under Section 22" shall be substituted for the words "under rules made under Section 22" appearing in line 1 of this sub-clause and placed at the beginning thereof.

(*ii*) *Clause 8, sub-clause* (*2*).—The word "personal" shall be inserted between the words "the" and "law" in the fifth line of this sub-clause, and the word "on" shall be inserted before the words "one of his heirs" in the eleventh line thereof.

(*iii*) *Clause 8, sub-clause (3).*—In the proviso to this sub-clause, the words "or removed" shall be inserted between the words "dismissed" and "dies" appearing in line 1.

(*iv*) *Clause (9).*—In para 2 of this clause, the words "within a given time" shall be substituted by the words "within such time as may be allowed by the Deputy Commissioner or Assistant Commissioner."

Of the amendments proposed, Nos. (*i*), (*ii*) and (*iv*) do not call for any remarks. The amendment in clause 8, sub-clause (2), by the insertion of the word "personal" between the words "the" and "law" would set at rest any doubt as regards the law applicable to succession to village offices in unalienated villages.

Mr. K. P. Puttanna Chetty seconded the motion, which was put to the Council and carried.

Mr. Ananda Rao then moved that the bill as amended be passed by the Council. In doing so, he said :—Sir, I beg to move that the Village Offices Bill as amended be now taken up and passed by this Council. The success of the Revenue Administration depends to a great extent upon the efficiency of the village service. A measure of this kind to regulate appointment to that service has been under consideration for a long time till it is now for this assembly to enact it into law.

Mr. K. P. Puttanna Chetty seconded the above motion.

Rajamantrapravina Mr. C. Srinivasiengar :—Sir, With your kind permission I beg to say a few words before I give my vote in favor of this bill. This is a measure of considerable importance that affects both the Government and the public in general and our village officers in particular. The law on the subject has till now been scattered over a large body of rules, standing orders, executive orders and decisions of Government, many of them not known or accessible to the public. The enactment which has now reached its final stage has for its object the removal of many anomalies and misconceptions which have hitherto existed on this important subject. There have been doubts, uncertainties, ignorance and differences of opinion with regard to several matters connected with village administration. In short, this legislation aims at evolving order out of chaos, and has in my opinion not been undertaken a moment too soon.

Sir, through your patience and forbearance we have had an exhaustive and interesting debate in the course of which all shades of opinion have been elicited and much useful information collected and the subject discussed threadbare from every stand-point. In the result, the measure is now emerging from the crucible in a form which I think ought to be acceptable to all concerned and upon which all of them are entitled to congratulate themselves. It is a pleasure to me when out of office to find myself associated in however insignificant a manner with the passing of a measure in the inception of which I had something to do while in office.

I do not propose to detain the Council by any detailed examination of the various provisions of this bill. Suffice it for me to say that, among other matters, ambiguous or obscure expressions have been clearly defined, suitable provision has been made for appointments and punishments, the principle of heredity has been scrupulously kept in view even to the extent of applying it to absentee heirs and heirs however remotely connected. Provision has been made for suits, applications and references ; in the matter of appeals, we have been extremely liberal in that we have allowed three appeals, a thing which does not to my knowledge obtain anywhere else ; unnecessary restrictions upon alienation have been abrogated ; in short, nothing has been omitted the inclusion of which is calculated to enhance the usefulness of this measure, which I may say has the further merit of being as concise as it is self-contained. If one body of persons more than another is likely to be benefited by this enactment, it is the holders of alienated villages in the State whose troubles are at present as great as their number is legion. Under the new law, they will,

in case they show themselves deserving of the confidence of Government, be given large powers, a judicious exercise of which will enable them to more effectually control their staff of village servants. Owing to the complex nature of the subject, this Council has been confronted at almost every step with difficulties of no ordinary magnitude which well nigh threatened to be insuperable; but thanks to the sympathetic Government willing and ready to make concession wherever this could be done without the sacrifice of principle or the impairment of efficiency, we have happily been enabled to surmount those difficulties in a manner eminently satisfactory. Some idea of the extent of time and attention and labour bestowed by us upon the bill may be formed from the fact that this short measure of not more than 22 sections occupied the Council no less than eight sittings of not less than several hours duration each. I have heard it said in some quarters that the bill is being rushed through with inordinate haste, and that due regard is not being paid to custom and vested interests. In my humble opinion, this is a baseless charge. As a matter of fact, all vested rights have been recognized; the position and prestige of our village offices have been strengthened and raised; and everything has been done to make the measure as popular and efficient as could be done under the circumstances. I am sure that when the provisions of the bill, as now revised and approved by Council, come to be generally understood, they will be better appreciated, and welcomed by the public with gratification and gratitude.

It only remains for me now, Sir, to thank you for allowing us free latitude and encouraging us to speak without reserve even at the risk of the discussion sometimes lapsing into desultoriness; and, I may assure you that this indulgence has not been thrown away; for, as the bill now issues from the legislative anvil, it is a document on which the Province may well be congratulated.

MR. B. NAGAPPA.—Sir, I fully concur in the sentiments so eloquently expressed by Mr. Srinivasiengar. As observed by him, the bill contains clear provisions of law on many important questions on which there were conflicting decisions. It embodies all the provisions of law on the subject which were hithereto found scattered in the rules, proceedings and standing orders of Government, which were not easily accessible to the legal practitioner and much less so to the public. It also contains some important changes in the existing law.

It was hitherto a difficult task for a legal practitioner to advise upon any question relating to the holders of village offices, owing partly to the unsatisfactory state of the law and partly for the want of a regulation containing the whole law on the subject. The absence of any settled principle to guide the Revenue Courts led to the unhappy increase of litigation.

Now that this bill which embodies a clear exposition of law is just about to be passed into law, we may expect with confidence that it will prove beneficial to the large section of the community to which it applies. Being fully convinced that this is a beneficent measure, I give my vote for the passing of this bill.

In conclusion, Sir, permit me to express my sincere thanks to you for the kind and sympathetic treatment accorded and the patient hearing given to the non-official members.

The motion was put to the Council and carried.

PRESIDENT:—Gentlemen, I need not say how equally gratifying it is to me to see the bill passed at this sitting; and it is a source of very great pleasure to me that such kind and appreciative remarks regarding my share in the passing of this bill have fallen from Mr. Srinivasiengar who was so honorably connected with the past administration and whose experience in so many different branches of the State service has been placed at the disposal of the Council to the great benefit of the discussions that have taken place here. An appreciation from him who has such intimate knowledge of the subject of this bill (we may now call it a Regulation) is most valuable and will go a great way to assure the public and the village community in particular that the Regulation in

which they are so interested is the outcome of long and full discussion of the subject from every point of view. They will all feel re-assured from the remarks of such an authority as Mr. Srinivasiengar that every interest has been considered and safeguarded. I may say the same as regards the remarks made by Mr. Nagappa who is another non-official member. Mr. Nagappa is in addition a representative of the agricultural community and his remarks are the more valuable on that account.

I cannot do better in connection with what has been said by the two members than read to you some appreciative remarks from His Highness who, as you know, has been watching the progress of the bill and has been taking a keen interest in our discussions. This is what His Highness has commanded me to communicate to you :—" I desire to congratulate the Legislative Council and its President on the satisfactory manner in which this important and contentious measure has been dealt with. The discussions were full and informing and show that the members, both official and non-official, fully appreciate their responsibility and are prepared to bestow ungrudgingly their time and thought on the measures submitted to them. I should be glad if the President would take the opportunity of the next meeting of the Council, after the bill becomes law, to express my appreciation of the services rendered by the non-official members in particular."

This must be very gratifying testimony to you all and sufficient reward for the services you have rendered in passing the bill through the Council.

The non-official members requested the Dewan to convey to His Highness the Maharaja their respectful acknowledgments for the gracious message which His Highness was pleased to communicate to them through the President and they further assured him (President) that they felt highly gratified and honored that their humble services in connection with the Village Office Bill should have attracted the kind notice of His Highness and elicited his warm approval and appreciation.

The meeting then adjourned.

V. P. MADHAVA RAO,
President.

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	7½	5½ to 5¾	seers per rupee.
	Ragi ...	19½	10½ to 11	

State of standing crops.—Withering.

Cattle are in good condition. Water sufficient. Fodder is growing very dear.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *The standing crops,* both wet and dry, *viz.,* paddy, sugar-cane, ragi, avare and togari are fading throughout the district for want of rain. Raiyats are very anxiously waiting for rain. It is reported that further failure of rain will damage the standing crops in all the taluks to a great extent. No damage to crops by insects has been reported.

10. Prospects of the season are not very hopeful. Rainfall has been insufficient all over the district, except in parts of the Magadi and Channapatna Taluks. Food stuffs are available in sufficient quantities, but their prices are going higher.

11. Except for plague in all the taluks of the district, excepting Channapatna and Closepet, public health generally good.

12. "Dod Roga" in Marlavadi Hobli, Kankanhalli Taluk, and Virupakshipura Hobli, Channapatna Taluk, and "Naradi Roga" in Chanmarahalli village, Closepet Sub-Taluk, are still prevailing. Drinking water is reported to be available in the district, excepting the Kodiballi Hobli, Kankanhalli Taluk, where well-water is being used for cattle. It is reported that green grass is not available in sufficient quantities and that dry fodder can be had in sufficient quantities, excepting in some parts of the Magadi Taluk, where, it is reported, that green leaves are being used as fodder owing to herds of cattle having come into that taluk, from parts of the Kunigal and Tumkur Taluks.

KOLAR.

8. Market well supplied.

9. *Standing crops* are withering for want of rain, which is badly needed.

Crops sown.—Nil.

Crop harvested and its yield.—Same in the Bowringpet and Gudibanda, yield 8 annas in each taluk.

10. Prospects of the season unsatisfactory and rain is very badly needed throughout the district. Food stuffs are available, but their prices continue to be very high.

11. Except for plague in a few villages of Sidlaghatta, cholera in parts of the Bowringpet Taluk and small-pox in parts of the Mulbagal Taluk, public health generally good.

12. It is reported that Rinderpest is prevailing among cattle in parts of Sidlaghatta, Bagepalli, Goribidnur and Gudibanda. Water and fodder just sufficient.

TUMKUR.

8. Supply in markets moderate.

9. *Standing crops* are reported to be withering in all the taluks for want of rain.

Crops sown.—Horse gram and cholam in Tiptur and Turuvekere; and horse gram in Sira and Pavagada.

Crops harvested.—Nat ragi in Maddagiri and Pavagada; cholam in Gubbi, Maddagiri and Koratagere; and sugar-cane in Sira and Turuvekere.

10. Prospects of the season not encouraging. Food stuffs available but their prices are very high. Rain is badly needed throughout the district.

11. Public health generally good.

12. Cattle generally healthy, except in certain villages of Tumkur, Maddagiri, Chiknayakanhalli, Sira and Tiptur, where they are suffering from "Dod Roga." Water and fodder are available at present in limited quantities in the taluks of Sira, Tiptur, Kunigal, Koratagere and Turuvekere. They are getting scanty in the taluks of Tumkur, Maddagiri, Chiknayakanhalli, Gubbi and Pavagada. Date leaves are being used as fodder in Tiptur and Kunigal. Some cattle from the Tumkur and Kunigal Taluks have been taken for grazing purposes to the Magadi Taluk. Similarly some raiyats of the Turuvekere Sub-Taluk are reported to have taken their cattle to Sigegudda and other places.

MYSORE.

8. Market well supplied.

9. *Agricultural operations.*—Lands in parts of the Malvalli Taluk are being ploughed and made ready for sowing Bengal gram.

Standing crops.—Wet crops, *viz.*, paddy and sugar-cane in parts of the Mysore and Chamrajnagar Taluks, and paddy in parts of the Heggaddevankote and Malvalli Taluks, are reported to be withering for want of rain. It is reported that dry crops in parts of the Mysore, Heggaddevankote, Nanjangud, T.-Narsipur, Malvalli and Krishnarajpete Taluks are also withering. In other parts of the district, they are reported to be in moderately good condition. Rain is, however, very badly wanted throughout the district.

Crops sown.—Coriander, black gram, green gram and Bengal gram in parts of the Gundlupet Taluk.

Crops harvested.—Nil.

10. Prospects of the season not hopeful. Rain is urgently wanted throughout the district. Food stuffs sufficient for the present, but their prices are on the rise.

11. Except for plague in a few places in the district, public health generally good.

12. Cattle generally healthy, but "Dod Roga" in parts of the Mysore, Chamrajnagar and Gundlupet Taluks, and "Sappe Roga" in parts of the Mysore and Yedatore Taluks are still prevailing. Tanks and wells in parts of the Nanjangud Taluk are reported to be running dry. Water and fodder available.

HASSAN.

8. Market well supplied.

9. *Standing crops.*—Paddy and ragi in the Manjarabad Taluk are reported to be in somewhat good condition All crops throughout the district are reported to be badly in want of rain. Damage is being done to crops by "Katte Hula" in the Manjarabad Taluk and "Kondli Hula" in the Banavar Hobli of the Arsikere Taluk.

Crops sown.—Gingelly is being sown in parts of the Manjarabad Taluk.

Crops harvested.—Ragi and cardamom in the Manjarabad Taluk; gingelly and potato in the Arkalgud Taluk are being harvested.

10. Prospects of the season are not so serious just at present but are causing anxiety for want of rain. Food grains are available, but their prices have risen high.

11. Except for plague in parts of Hassan and Belur Taluks, public health generally good.

12. Cattle generally healthy. But "Dod Roga" continues still in parts of the Manjarabad, Belur and Hole-Narsipur Taluks. It is subsiding in the Hassan Taluk. Water and fodder available, except in parts of the Arsikere and Channarayapatna Taluks, from which cattle are being driven out towards Kadur and Belur for grazing in the kavals there.

SHIMOGA.

8. Market well supplied.

9. *Standing crops, viz.*, paddy, ragi and sugar-cane are withering for want of rain in parts of all the taluks, except the low lying tracts and the Tirthahalli Taluk. For want of rain, ragi crop in certain localities in the Shimoga and Sorab Taluks, and horse gram in the Sorab Taluk have totally failed.

Crops harvested.—Karthika paddy in portions of the Sorab Taluk; ragi in the Honnali Taluk and arecanut in the Sagar Taluk.

10. Prospects of the season are not encouraging and may take a serious turn if there should be no rain in near future. Food grains are available but their prices are high.

11. Public health generally good. But plague continues still in the town of Shimoga and in a few villages in the Shimoga and Channagiri Taluks and the Kumsi Sub-Taluk.

12. Water and fodder are available, except in a few villages of the Holehonnur and Benkipur Hoblis of the Shimoga Taluk, where want of them is just beginning to be felt.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Ploughing operation is going on in parts of the Chikmagalur Taluk.

Standing crops:—

In Chikmagalur—Paddy, avare, gingelly, dod ragi, coriander, sugar-cane, togari and coffee.

In Kadur—Paddy, ragi, jola, avare, horse gram, sugar-cane, togari, chillies and castor.

In Tarikere—Paddy, ragi, horse gram, avare, togari, jola, navane, baragu, coriander, gingelly, sugar-cane, green gram and black gram.

In Koppa—Paddy, sugar-cane, areca, pepper, cardamom and coffee.

In Mudgere—Paddy, ragi, cardamom, sugar-cane, areca and coffee.

In Yedahalli—Paddy, sugar-cane, areca and coffee.

In Sringeri—Paddy and areca.

All these are reported to be withering for want of rain. In the Chikmagalur Taluk, it is reported that some damage is being done to the standing crops by insects, owing to want of rain.

Crops harvested and their yield:—

Kadur—Sugar-cane, yield 8 annas.	
Tarikere—Black gram and gingelly on a small scale.	
Koppa—Areca and cardamom	do
Mudgere—Cardamom	do
Sringeri—Areca	do

10. Prospects of the season fair in the malnad, but discouraging in the maidan parts of the district. Rain is urgently wanted throughout the district. Food stuffs are available, but their prices are high.

11. Except for plague in a few villages in the district, public health generally good.

12. Cattle generally healthy. But "Dod Roga" is still prevailing in certain parts of the district. Water and fodder are available. They are getting scanty especially in the maidan parts. In some villages of the Bidre and Yagati hoblis of the Kadur Taluk, it is reported that cattle are being fed on date leaves.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Such as ragi, jola, horse gram, togari, avare, castor, haraka, sajje, navane, save, chillies, cotton and gingelly are withering for want of rain. But crops under *kapile* wells are in fairly good condition.

Crops sown.—Jola in the Davangere Taluk and the Harihar Sub-Taluk and gingelly in the Harihar Sub-Taluk.

Crops harvested and their yield.—Sugar-cane and jola in the Chitaldrug Taluk, yield from 4 to 8 annas.

10. Prospects of the season not encouraging. Rain is urgently needed throughout the district. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Holalkere Taluk, where "Rinderpest" prevails. Water and fodder available, except in parts of the Hosdurga Taluk, where they are getting scarce.

BANGALORE,
21st October 1908.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

Monthly Season Report for the month of July 1908.—Section I.

District	For the month	For the corresponding month of last year	Average for the month for ten years	Number of tanks supplied with water for six months and under	Number of tanks supplied with water for over six months	Number of tanks not supplied with water	Number of tanks supplied with water for three months and under	Number of tanks supplied with water for over three months	Number of tanks not supplied with water	Water-supply in tanks: Large tanks, i.e., those which have an area of 100 acres and upwards	Water-supply in tanks: Small tanks, i.e., those which have an area of below 100 acres	Acreage of lands newly taken up for cultivation during the month	Acreage of lands for which Ryotwari was settled during the month	Seasons: Sowing	Seasons: Agricultural operations	Seasons: Harvesting	State of the standing crops during the month

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	7½	5½ to 5¾	seers per rupee.
	Ragi ...	20¼	10½ to 11	

Want of rain is much felt for the standing crops.

Cattle are in good condition. Water sufficient. Fodder is growing very dear.

BANGALORE CITY AND TALUKS.

8. Market generally well supplied.

9. *Standing crops, viz.*, paddy and sugar-cane are reported to be fading in the Channapatna, Hoskote and Dodballapur Taluks, for insufficiency of water in tanks. Dry crops in the Kankanhalli Taluk are reported to have slightly improved on account of the recent rains. In other parts of the district, they are stated to be fading for want of rain. It is reported that dry crops in Bilidale village, Kankanhalli Taluk, are suffering from a disease known as "Hilukina Roga."

Crops harvested.—Early sown crops are being reaped in parts of the Bangalore Taluk.

10. Prospects of the season, which were rather gloomy, are now showing signs of improvement. Still rain-fall is insufficient throughout the district. Food stuffs are available in sufficient quantities, but their prices are stated to be as high as before.

11. Public health generally good, except that plague prevails in parts of the district, other than the taluks of Channapatna and Closepet.

12. Cattle are affected with "Dod Roga" in parts of the Kankanhalli, Magadi and Closepet Taluks. Drinking water is reported to be available all over the district, except in Kodihalli, where well-water is still being used for cattle. Fodder is reported to be available only in small quantities in the Dodballapur and Magadi Taluks. In the latter taluk, the scarcity of fodder is attributed to herds of cattle having come into the taluk for grazing purposes from the Kunigal and Tumkur Taluks.

KOLAR.

8. Market well supplied.

9. *Standing crops* are reported to be thriving in all taluks of the district except the taluks of Mulbagal, Bowringpet, Bagepalli and Goribidnur, where more rain is needed.

Crops sown.—Cholum in parts of the Goribidnur Taluk.

Crops harvested and their yield.—Savè in Bowringpet, Mulbagal, Sidlaghatta and Bagepalli, yield 8 annas in each of these taluks.

Gid ragi in parts of Sidlaghatta, Bagepalli and Goribidnur, yield from 8 to 12 annas on the average.

Sajje in parts of Bowringpet, yield 8 annas.

10. Prospects of the season unsatisfactory and more rain is still needed throughout the district. Food stuffs are available, but their prices continue to be very high.

11. Except for plague in the Kadadinahalli village, Malur Taluk, cholera in the Harati village, Kolar Taluk, and in parts of the Bowringpet Taluk, and small-pox in parts of the Mulbagal Taluk, public health generally good.

12. It is reported that Rinderpest is prevailing in parts of the Sidlaghatta, Bagepalli and Goribidnur Taluks. Water available. Fodder is just sufficient.

TUMKUR.

8. Supply in market insufficient.

9. *Standing crops* are reported to be withering in the Sira, Gubbi, Pavagada, Kunigal, Tumkur and Tiptur taluks for want of rain. Paddy and nat ragi under wells in the Maddagiri Taluk are in fair condition. Standing crops in Koratagere, Turuvekere and Chiknayakanhalli are in moderately good condition.

Crops sown.—Cholum in Sira and Turuvekere.

Crops harvested.—Nat ragi in Maddagiri, Sira and Pavagada; cholum in Maddagiri Gubbi and Koratagere; sugar-cane in Gubbi, Tiptur and Turuvekere; savè and navane in Maddagiri and Chiknayakanhalli; and paddy in Turuvekere.

10. Prospects of the season are not very encouraging. Food stuffs are available in sufficient quantities but their prices are very high. Rain is badly needed throughout the district.

11. Public health generally good.

12. Cattle generally healthy, except in certain villages of Tumkur, Maddagiri, Chiknayakanhalli and Tiptur, where they are suffering from "Dod Roga" and "Chappe Roga." Water and fodder for cattle are procurable only in limited quantities in the taluks of Tumkur, Maddagiri, Sira, Gubbi, Tiptur, Pavagada and Kunigal. They are sufficiently available at present in Chiknayakanhalli, Koratagere and Turuvekere. Date leaves are being used as fodder in Tiptur and Kunigal. Some cattle from the Kunigal Taluk have been taken for grazing purposes to the Magadi Taluk.

MYSORE.

8. Market well supplied.

9. *Agricultural operations.*—Lands in parts of the Malvalli Taluk are being ploughed and made ready for sowing Bengal gram.

Standing crops.—Have greatly improved by the recent rains and it is reported that they are in moderately good condition in all the taluks. But owing to failure of timely rains in parts of the Mandya Taluk, the outturn of crops there is estimated at less than 8 annas.

Crops sown.—Bengal gram and coriander in parts of the Seringapatam Taluk, and horse gram, Bengal gram and alasandi in parts of the Nanjangud Taluk.

10. Prospects of the season generally good. Food stuffs sufficient for the present, but their prices are on the rise.

11. Except for plague in a few places in the district, public health generally good.

12. Cattle generally healthy, but "Dod Roga" in parts of the Chamrajnagar and Gundlupet Taluks, and "Sappe Roga" in parts of the Yedatore Taluk are still prevailing. Water and fodder available, except in parts of the Nagamangala Taluk, where stock of fodder is reported to have run short.

HASSAN.

8. Market well supplied.

9. *Standing crops.*—Paddy in the Manjarabad and Arkalgud Taluks, and paddy and sugar-cane in the Channarayapatna Taluk are reported to be in somewhat good condition. The recent showers have done some good to the withering crops in the district. More rain is required still for all the crops in the district It is reported that "Kondli Hula" is causing damage to castor plants in the Banavar, Kanakatte and Kasaba Hoblis of the Arsikere Taluk.

Crops sown.—Kulthi, gingelly and jola are being sown in parts of the Channarayapatna Taluk.

Crop harvested.—Ragi is being harvested in the Manjarabad Taluk.

10. Prospects of the season are not serious just at present but are causing anxiety owing to want of rain. Food grains are available, but their prices have risen high.

11. Except for plague in parts of the Hassan and Belur Taluks, public health is generally good.

12. Cattle are generally healthy. But "Dod Roga" exists still in parts of the Hassan, Manjarabad and Belur Taluks. Water and fodder are available, except in parts of the Arsikere and Channarayapatna Taluks. Cattle are being taken out from these taluks to kavals near Kadur, Tarikere and Belur for grazing them there.

SHIMOGA.

8. Market well supplied.

9. *Standing crops, viz.,* paddy and sugar-cane are in good condition in the Tirthahalli Taluk, whereas these and other crops in the remaining taluks of the district, are withering for want of rain. Dry crops in portions of the Shikarpur and Sorab Taluks have failed.

Crops harvested.—Karthika paddy is being harvested in portions of the Sorab Taluk; and arecanut is being gathered in the Nagar and Tirthahalli Taluks.

10. Prospects of the seasons not improved. Want of rain is being keenly felt. Food grains are available but their prices are on the rise.

11. Public health generally good. But plague continues still in Shimoga town and in a few of its neighbouring villages.

12. Water and fodder are available for the present, except in a few villages of the Holehonnur and Benkipur hoblis of the Shimoga Taluk, where their want is being much felt.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Sowing of Besige jola and horse gram in Chikmagalur and of coriander, Besige jola and Bengal gram in Tarikere is going on.

Standing crops:—

In Chikmagalur—Paddy, dod ragi, avare, togari, coffee, sugar-cane, gingelly, castor and horse gram.

In Kadur—Paddy, ragi, horse gram, jola, togari, avare, castor, chillies and sugar-cane.

In Tarikere—Paddy, ragi, horse gram, jola, togari, avare, navane, baragu, coriander, gingelly, sugar-cane, green gram and black gram.

In Koppa—Paddy, sugar-cane, areca, pepper, cardamom, coffee, ragi, and horse gram.

In Mudgere—Paddy, ragi, cardamom, sugar-cane, areca and coffee.

In Yedahalli—Paddy, sugar-cane, areca and coffee.

In Sringeri—Paddy and areca.

All these are reported to be reviving owing to recent showers all over the district. In some villages of the sivane Hobli, Tarikere Taluk, castor is reported to have been infected with "kondli" insects.

Crops harvested and their yield:—

Kadur—Sugar-cane, yield 8 annas.

Koppa—Cardamom and sugar-cane on a small scale.

Mudgere—Cardamom, yield 6 annas.

Sringeri—Areca on a small scale.

10. Prospects of the season fair. But more rain is urgently needed throughout the district. Food stuffs available, though their prices continue to be high.

11. Except for plague in a few villages of the Tarikere and Kadur Taluks, public health generally good.

12. Cattle generally healthy. But "Dod Roga" is still prevailing in parts of the district. Water and fodder are generally available. But they are getting scarce especially in the maidan parts of the district. In some villages of the Bidre and Yagati Hoblis of the Kadur Taluk, it is reported that cattle are being fed on date leaves.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Such as ragi, jola, horse gram, togari, avare, navane, paddy, sugar-cane, sajje, castor, save, chillies, and cotton are reported to have been benefited to some extent by the recent showers. Crops under *kapile* wells and the Marikanave channels are in fair condition. Rain is urgently required for the standing crops throughout the district.

Crops sown.—Nil.

Crops harvested and their yield.—

Jola in the Chitaldrug and Molakalmuru Taluks, yield from 4 to 12 annas; sugar-cane in the Chitaldrug Taluk, yield from 8 to 12 annas; ragi under *kapile* wells in the Challakere Taluk, yield from 4 to 6 annas; navane, sajje and sesamum in the Molakalmuru Taluk, yield from 8 to 12 annas.

10. Prospects of the season not encouraging. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Holalkere Taluk, where "Rinderpest" prevails. Water and fodder available, except in parts of the Hosdurga, Challakere and Molakalmuru Taluks, where they are getting scarce.

BANGALORE,
28th October 1908

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

Prices Current [Wholesale] of Food Grains, &c., at the Head-Quarters of the several Districts of the Mysore State during the fortnight ending 15th Oct. 1908.

*Report not received.

DISTRICT REPORTS.

8. Markets how supplied.
9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.
10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.
11. Public health.
12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	$7\frac{1}{2}$	$5\frac{1}{2}$ to $5\frac{3}{4}$	seers per rupee.
	Ragi ...	$20\frac{1}{4}$	$10\frac{1}{2}$ to 11	

Agricultural operations.—Ragi is under harvest.

Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied.

9. *Standing crops.*—These are reported to be fading in the Channapatna, Anekal, Magadi and Bangalore Taluks, owing to insufficiency of water in tanks. All over the district, the late sown dry crops are in urgent need of rain. It is reported that ragi crops are attacked with "Hilukina Roga" in Bilidali grama, and castor plants are being damaged by "Kondli Hula" in parts of the Satnur hobli, of the Kankanhalli Taluk.

Crops harvested.—It is reported that the early sown dry crops are being harvested in parts of the Devanhalli, Channapatna, Anekal and Bangalore Taluks.

10. Prospects of the season have not much improved. All over the district, the rainfall has been insufficient. Though there is generally sufficient stock of food grains, yet their prices are reported to be as high as before.

11. Except for plague prevailing in parts of the district, except the Channapatna and Closepet Taluks, public health generally good.

12. Cattle are reported to be affected with "Dod Roga" in the Closepet, Channapatna, Magadi, Dodballapur and Kankanhalli Taluks. Fodder is reported to be available in all the taluks, except portions of the Magadi, Channapatna, Devanhalli and Dodballapur Taluks and the Closepet Sub-Taluk. Some difficulty is being experienced for drinking water in the Kankanhalli Taluk. It is reported that well-water is being used in certain villages of the Kodihalli hobli.

KOLAR.

8. Market well supplied.

9. *Standing crops* ragi, avare, togari and kulthi are reported to have been largely benefited by the recent small showers.

Crops sown.—Vysakhi paddy in parts of Bowringpet and cholum in parts of Goribidnur.

Crops harvested and their yield.—Savè in parts of Kolar, Bowringpet, Mulbagal, and Bagepalli, yield 8 annas on the average;

Sajje in parts of Bowringpet, yield 8 annas;

Gidda ragi in parts of Sidlaghatta, Goribidnur, Bagepalli and Gudibanda; yield from 8 to 12 annas on the average.

10. Prospects of the season which were rather gloomy, are now showing signs of improvement. Karthika wet crop is a failure. Vysakhi wet crops, dependant upon tank filling heavy showers are eagerly looked for. Food stuffs are available, but prices continue to be still high.

11. Public health generally good.

12. It is reported that Rinderpest is still prevailing in parts of the Bagepalli, Sidlaghatta, and Goribidnur Taluks. Water available. Fodder is just sufficient. Grass is beginning to grow.

TUMKUR.

8. Supply in market insufficient.

9. *Standing crops* are reported to be withering for want of rain in Pavagada, Kunigal and Koratagere and in certain parts of Maddagiri, Chiknayakanhalli, Sira and Gubbi. In other parts of these latter taluks they are reported to be reviving owing to the showers that fell about the end of the week. In parts of Tiptur and Tumkur, standing crops have withered.

In other parts, they are withering. In parts of Turuvekere they are in fair condition; while in their northern parts, rain is urgently wanted. In the Dodderi Hobli of the Maddagiri Taluk, castor is reported to have been infested with "Kondli Hula."

Crops sown.—Bengal gram and cholum in Chiknayakanhalli, Gubbi and Tiptur; and horse gram and cholum in Turuvekere.

Crops harvested.—Sugar-cane in Sira, Tiptur and Turuvekere; Nata ragi in Maddagiri, Sira and Pavagada; baragu, navane and savè in Chiknayakanhalli, Maddagiri, Pavagada and Koratagere; cholum in Maddagiri and Pavagada; and paddy in Turuvekere.

10. Prospects of the season are not very encouraging. Food stuffs are available in sufficient quantities but their prices continue to be high. Rain is badly needed throughout the district.

11. Public health generally good.

12. Cattle generally healthy, except in certain villages of Tumkur, Chiknayakanhalli, Sira and Tiptur, where they are suffering from "Dod Roga." Water and fodder for cattle are procurable only in limited quantities in the taluks of Tumkur, Chiknayakanhalli, Sira, Gubbi, Tiptur, Pavagada and Kunigal. They are available in Maddagiri, Koratagere and Turuvekere Date leaves are being used as fodder in Chiknayakanhalli and Tiptur. Some cattle from the Kunigal Taluk have been taken for grazing purposes to the Magadi Taluk.

MYSORE.

8. Market well supplied.

9. *Standing crops* have greatly improved by the recent rains and it is reported that they are in moderately good condition in all taluks.

Crops sown.—Bengal gram and coriander in parts of the Malvalli Taluk.

Crop harvested—Hain ragi in parts of the Nanjangud Taluk.

10. Prospects of the season generally good. Food stuffs sufficient for the present, but their prices are on the rise.

11. Except for plague in a few places in the district, public health generally good.

12. Cattle generally healthy, but "Dod Roga" in parts of the Mysore, Chamrajnagar, Heggaddevankote and Gundlupet Taluks; and "Sappe Roga" in parts of the Mysore and Yedatore Taluks, are still prevailing. Water and fodder available, except in parts of the Nagamangala Taluk, where stock of fodder is reported to have run short.

HASSAN.

8. Market well suppled.

9. *Standing crops.*—Paddy and ragi in the Manjarabad Taluk; paddy in Belur and in parts of the Alur Sub-Taluk; ragi, avare, togari, sugar-cane and castor in the Hassan Taluk; sugar-cane, paddy, ragi, avare, togari, castor and chillies in the Hole-Narsipur Taluk; paddy, green gram, kulthi and avare in the Arkalgud Taluk, are reported to be in somewhat good condition.

Crops sown.—Jola and kadle are being sown in parts of the Arsikere Taluk.

Crops harvested.—Ragi and cardamom are being harvested in the Manjarabad Taluk.

10. Prospects of the season are not serious just at present, but are causing anxiety for want of more rain. Food grains are available, but their prices have risen high.

11. Except for plague in parts of the Hassan and Belur Taluks, public health generally good.

12. Cattle are generally healthy. But "Dod Roga" exists in parts of the Hassan, Manjarabad and Belur Taluks; and in parts of the Alur Sub-Taluk. Water and fodder are available, except in parts of the Arsikere Taluk, whence cattle are being driven to Kadur and Belur Taluks for grazing in the kavals.

SHIMOGA.

8. Market well supplied.

9. *Standing crops, viz.*, paddy, ragi, sugar-cane, green gram, kurasani, save, jola and horse gram are in fair condition. Ragi, horse-gram and other dry crops failed in portions of the Shikarpur Taluk for want of rain.

Crops harvested.—Ragi in portions of the Channagiri Taluk; Karthika paddy in the Shikarpur and Sorab Taluks; and arecanut in the Sagar and Nagar Taluks, are being harvested.

10. Prospects of the season have slightly improved from the rains which fell recently. But the crops are still in need of more rain. Food stuffs are available but their prices continue to be high.

11. Public health generally good. Plague continues still in the Shimoga town, Kumsi Sub-Taluk and at Mandagadde in the Tirthahalli Taluk.

12. Cattle generally healthy. Murrain continues in portions of all the taluks except Nagar and Tirthahalli. Water and fodder available.

KADUR.

8. Market well supplied.

9. *Standing crops*:—

In Chikmagalur—Paddy, ragi, avare, castor, togari, coffee, sugar-cane, gingelly, coriander and horse gram.

In Kadur—Paddy, ragi, avare, sugar-cane, togari, castor, jola, horse gram, and chillies.

In Tarikere—Paddy, ragi, horse gram, avare, jola, togari, navane, baragu, coriander, gingelly, sugar-cane, green gram and black gram.

In Koppa—Paddy, sugar-cane, areca, pepper, cardamom, coffee, ragi, and horse gram.

In Mudgere—Paddy, ragi, cardamom, sugar-cane and coffee.

In Yedahalli—Paddy, sugar-cane, areca and coffee.

In Sringeri—Paddy and areca.

These, which were in a bad condition, are reported now to have been benefited by the recent rains which fell throughout the district.

Crops harvested and their yield:—

Kadur—Sugar-cane, yield 8 annas.

Koppa—Cardamom do

Areca yield on a small scale.

Mudgere—Cardamom, yield 6 annas.

10. Prospects of the season which were rather gloomy hitherto, now show signs of improvement. Rainfall is still insufficient especially in the maidan taluks. Food stuffs are available, but their prices still continue to be high.

11. Except for plague in certain villages of the Kadur and Tarikere Taluks, public health generally good.

12. Cattle are generally healthy. But "Dod Roga" is still prevailing in certain parts of the district. Water and fodder available. Date leaves are still being used for cattle in a few villages of the Kadur Taluk and some cattle have been taken for grazing purposes to the malnad parts.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Such as ragi, jola, horse gram, togari, avare, paddy, sugar-cane, navane, sajje, castor, save, haraka, chillies and cotton are reported to be withering for want of rain, except those under wells and channels which are in fairly good condition. Rain is urgently wanted for the crops throughout the district.

Crops sown.—Nil.

Crops harvested and their yield.—

Ragi in the Chitaldrug, Challakere, Holalkere and Molakalmuru Taluks, yield from 4 to 12 annas; sugar-cane in the Chitaldrug Taluk, yield 8 annas; jola, navane and sajje in the Holalkere and Molakalmuru Taluks, yield from 4 to 12 annas; mustard in the Holalkere Taluk, yield from 4 to 8 annas; sesamum in the Molakalmuru Taluk, yield 8 annas.

10. Prospects of the season fair. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug and Holalkere Taluks, where "Rinderpest" prevails. Water and fodder available, except in parts of the Hosdurga Taluk, where they are getting scarce.

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	7½	5½ to 5¾	seers per rupee.
	Ragi ...	20¼	10½ to 11	

Agricultural operations.—Ragi under harvest.

Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Market sufficiently supplied for the present.

9. *Agricultural operations.*—First sown ragi is reported to be ready for harvest in the Hoskote, Kankanhalli, Magadi, Bangalore, Channapatna, Anekal and Devanhalli Taluks.

Standing crops.—Dry crops are reported to be in fair condition in the Hoskote, Kankanhalli, Channapatna, Bangalore and Anekal Taluks and the Closepet Sub-Taluk. In the rest they are reported to be withering for want of rain. Wet crops are reported to be fading for want of water in the tanks.

The general prospects are not encouraging. Small tanks are reported to have dried up. Rain is very badly wanted throughout the district for the crops.

Outturn of crops.—It is reported that outturn of ragi in the Anekal Taluk may range from 6 annas to 12 annas.

Damage to crops.—It is reported that castor plants [illegible] Honnahalli and Halasur in the Kankan[illegible] that ragi is attacked with "Hilukina R[illegible]

10. Prospects of the season are not very en[illegible] district. Stock of food stuffs sufficient for the prese[illegible] as before.

11. Public health generally good, exce[illegible] fever and plague are reported to be prevailin[illegible]

12. Cattle generally healthy. Cattle diseas[illegible] continues in Uyyamballi Hobli, Kankanhalli Taluk, and in parts of the Anekal Taluk. [illegible] subsiding in Channapatna. Water and fodder are available for the present, except in Magadi, Kankanhalli and Closepet, where difficulty is being felt in procuring these. In Dodballapur, the labouring classes complain of want of work. It is reported from Magadi that coolies have come to it from the Kunigal Taluk and that cattle have also been brought to it from other taluks for being fed on forest leaves.

KOLAR.

8. Market well supplied.

9. *Standing crops,* ragi, avare, togari and kulthi are reported to be withering. Rain is still required for them.

Crops sown.—Nil.

Crops harvested and their yield.—

Gid ragi in parts of Bagepalli, Goribidnur, Malur and Gudibanda, yield from 8 to 12 annas on the average; sugar-cane by use of *Kapiles* in Goribidnur, yield from 8 to 12 annas; in Bagepalli, sajje yield 4 annas and savè yield 6 annas.

10. Prospects of the season not much improved. Tank filling showers are eagerly looked for the Vysakhi wet crops. Food stuffs available, but their prices continue to be very high.

11. Public health generally good.

12. It is reported that Rinderpest is still prevailing in parts of Sidlaghatta, Goribidnur and Gudibanda. Water and fodder are sufficient for the present.

TUMKUR.

8. Supply in market moderate.

9. *Standing crops* are reported to be withering for want of rain in Chiknayakanhalli, Pavagada and Kunigal Taluks and the Koratagere and Turuvekere Sub-Taluks. In parts of the Tumkur, Gubbi and Tiptur Taluks, crops have withered away in some parts and in other parts are withering. In the Maddagiri Taluk, crops on wet lands are in fair condition, but

those on dry lands are withering. In Sira, Nat ragi is in fair condition and the other crops are withering. In the Dodderi Hobli, Maddagiri Taluk, castor is reported to have been attacked by "Kondli Hula."

Crops sown.—Bengal gram in the Maddagiri, Chiknayakanhalli and Tiptur Taluks and in the Turuvekere Sub-Taluk; cholum in Maddagiri and Tiptur; and wheat and paddy (under wells) in the Pavagada Taluk.

Crops harvested.—Ragi in Maddagiri, Gubbi and Pavagada; navane, savè and baragu in Maddagiri, Chiknayakanhalli, Sira and Pavagada; cholum in Maddagiri, Tiptur, Pavagada and Koratagere; sugar-cane in Tiptur and Turuvekere, and paddy in Turuvekere.

10. Prospects of the season are not satisfactory. Food stuffs are available in sufficient quantities but their prices continue to be high. Rain is badly needed throughout the district.

11. Except for small-pox at the Sadarhalli village, Chiknayakanhalli Taluk, public health generally good.

12. Cattle generally healthy, except in certain villages of the Tumkur, Gubbi, Sira and Tiptur Taluks. Water and fodder are procurable in limited quantities in all the taluks. Date leaves are being used as fodder in Chiknayakanhalli, Tiptur, Kunigal and Turuvekere.

MYSORE.

8. The weekly markets are reported to have been well supplied during the week. Prices of grains are still very high.

9. *Standing crops* are reported to be in good condition in Mysore, Chamrajnagar, Seringapatam, Hunsur, Yedatore, Heggaddevankote, Gundlupet, Nanjangud, T.-Narsipur, Malvalli and parts of the Mandya Taluk. They are reported in want of rain in Nagamangala, in parts of Mandya and in Nanjangud. They are estimated to yield 6 annas crop in the Krishnarajpete Taluk.

Crops sown.—Bengal gram and coriander are being sown in parts of the Malvalli Taluk.

Crop harvested.—Ragi is being harvested in parts of the Mysore Taluk.

10. Prospects of the season good. Food stuffs are available with raiyats and merchants. Their prices are still high. There are no people under relief.

11. Except for plague in parts of the district, public health generally good.

12. Cattle [illegible] "Dod Roga" in parts of the Mysore, Chamrajnagar, Heggaddevankote and Malvalli Taluks; and "Chappe Roga" in parts of the Yedatore and Nagamangala Taluks. Cattle are reported to be generally weak in the [illegible] are available throughout the district.

8. Market well supplied.

9. *Standing crops.*—Paddy and [illegible] the Manjarabad Taluk; paddy, green gram, kulthi, avare, togari and castor in [illegible] and Channarayapatna Taluks; sugar-cane, paddy, avare, ragi, togari, castor, chillies [illegible] kulthi in the Hole-Narsipur Taluk; and sugar-cane in the Alur Sub-Taluk; these are re[illegible] to be in fair condition. It is reported that crops are withering in the Hassan Taluk and that ragi has failed in a few villages of the Kasaba and Kanakatte Hoblis in the Arsikere Taluk. In the Alur Sub-Taluk, paddy crops in high-lying lands (ಮುಕ್ಕಗದ್ದೆ) have withered in parts of the Alur Sub-Taluk.

Crops sown.—Kadle and jola are being sown in parts of the Channarayapatna and Arsikere Taluks.

Crops harvested.—Ragi and cardamom in the Manjarabad Taluk.

Outturn of crops.—Manjarabad and Belur, cardamom and ragi yield 8 annas; Channarayapatna and Hole-Narsipur, standing crops yield from 4 to 8 annas and from 6 to 8 annas.

Agricultural operations.—Raiyats in parts of the Belur Taluk are harrowing their fields.

10. Prospects of the season are not serious just at present, but more rain is required throughout the district. Food grains are available, but their prices have risen high.

11. Except for plague in parts of the Hassan and Belur Taluks, public health generally good.

12. Cattle are generally healthy. But "Dod Roga" still exists in parts of the Hassan, Manjarabad and Belur Taluks. Water and fodder are available, except in parts of the Arsikere Taluk, whence cattle are being driven to Kadur, Hassan and Belur for grazing in kavals there. It is reported that many cart-loads of paddy and ragi straw have been brought from the Hassan Taluk and sold in Arsikere on Shandy days.

SHIMOGA.

8. Market well supplied.

9. *Standing crops.*—Paddy, ragi, sugar-cane and jola are in fair condition in the Shimoga, Chennagiri, Honnali, Sorab and Tirthahalli Taluks and in the Kumsi Sub-Taluk. In the remaining taluks, crops growing on lands below tanks and in low lying tracts are in fair condition for the present; while in other localities, they are withering for want of rain.

Crops harvested.—Ragi, jola, avare and kulthi in portions of the Channagiri Taluk; green gram, gingelly and kurasani in the Honnali Taluk; arecanut in the Sagar, Nagar and Tirthahalli Taluks; and paddy in the Sorab Taluk and in the Kumsi Sub-Taluk.

10. Prospects of the season are not so fair as in previous years. Crops are still in need of rain. Food stuffs are available but their prices continue to be high.

11. Public health generally good. But plague continues still in the Shimoga Town and in the Kumsi Sub-Taluk.

12. Cattle generally healthy. But murrain continues in all the taluks, except Nagar and Tirthahalli. Water and fodder available.

KADUR.

8. Market well supplied.

9. *Standing crops*:—

In Chikmagalur—Paddy, ragi, avare, castor, togari, coffee, sugar-cane, gingelly, coriander and kulthi.

In Kadur—Paddy, ragi, avare, sugar-cane, togari, castor, jola, kulthi and chillies.

In Tarikere—Paddy, ragi, kulthi, avare, jola, togari, navane, baragu, coriander, gingelly, sugar-cane, green gram and black gram.

In Koppa—Paddy, sugar-cane, areca, pepper, cardamom, coffee, ragi, and kulthi.

In Mudgere—Paddy, ragi, cardamom, sugar-cane and coffee.

In Yedahalli—Paddy, sugar-cane, areca and coffee.

In Sringeri—Paddy and areca.

All these are reported to be in moderately good condition. More rain is still needed for them. In parts of the Chikmagalur Taluk, it is reported that paddy has been attacked with "Katte roga" that ragi has been infested by 'Kondli Hula."

Crops harvested and their yield:—

Kadur—Sugar-cane yield 8 annas.
Koppa—Areca and cardamom yield 8 annas.
Mudgere—Cardamom yield 8 annas.
Yedahalli—Paddy do

10. Owing to recent rain, prospects of the season have slightly improved. But more rain is urgently needed throughout the district. Food stuffs are available, but their prices continue to be still high.

11. Except for plague in certain villages of the Kadur and Tarikere Taluks, public health generally good.

12. Cattle generally healthy. But "Dod Roga" is still prevailing in certain parts of the district. Water and fodder available.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Such as ragi, jola, horse gram, togari, avare, navane, sajje, paddy, castor, cotton gingelly, green gram and black gram, are reported to be generally withering. But those under wells and channels are in fairly good condition. Rain is urgently wanted for the crops throughout the district.

Crops sown.—Jola in the Chitaldrug and Davangere Taluks; and cotton and Bengal gram in the Chitaldrug Taluk.

Crops harvested and their yield.—

Ragi and jola in the Chitaldrug and Molakalmuru Taluks and ragi in the Challakere and Holalkere Taluks yield from 4 to 12 annas; sugar-cane in the Chitaldrug Taluk yield from 4 to 8 annas; navane and savè in the Holalkere Taluk and in the Harihar Sub-Taluk and navane in the Molakalmuru Taluk yield from 4 to 12 annas; sajje, haraka and chillies in the Holalkere Taluk yield from 4 to 12 annas; and cotton in the Harihar Sub-Taluk yield from 8 to 14 annas.

10. Prospects of the season fair. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug and Holalkere Taluks, where "Rinderpest" prevails. Water and fodder fairly available, except in parts of the Hosdurga Taluk, where they are getting scarce.

A. RANGASWAMI IYENGAR,
Revenue Commissioner in Mysore.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. FL. 2095—B. 4-08-9, DATED 5TH NOVEMBER 1908.

ORDER—The following Resolution of the Government of India on the Administration of the Co-operative Credit Societies Act during the fifteen months ending 30th June 1907, is published for the information of District Officers and of the general public.

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

No. 2—188-1.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

LAND REVENUE.

Dated Calcutta, the 25th March 1908.

READ—

The reports received from Local Governments on the administration of the Co-operative Credit Societies Act (Act X of 1904), during the fifteen months ending 30th June 1907.

The proceedings of the conference of Registrars of Co-operative Credit Societies held in Calcutta on the 18th November 1907 and following days.

RESOLUTION.

After the passing of the Co-operative Credit Societies Act in March 1904, a Registrar was appointed in each province to carry out the formal duties imposed upon that officer by the Act and to foster in every possible way the growth of the co-operative movement in India. In the instructions issued by the Government of India after the passing of the Act, stress was laid on the necessity of reducing restrictions to a minimum, so that the people might be encouraged (subject to certain necessary safeguards) to work out the problem on their own lines with such guidance and help as could be given to them. Local Governments were invited to select a few districts in each province in which the experiment might be most hopefully tried, and it was pointed out that it would be advisable to start cautiously and to progress gradually, since the principle of co-operation might be fatally discredited by a series of failures, whereas a few really successful results would encourage imitation and set an example which would quickly spread.

2. On the 31st March 1905, thirty-five rural and six urban societies with a capital Rs. 54,128 had been registered under the Act, but there were also, especially in the United Provinces, a considerable number of societies at work that had not been formally registered. A year later the Registrars were supervising the work of 490 societies, but of these over 200 were either not working actively or had not been registered under the Act. The total number of active societies registered under the Act on the 31st March 1906 was 283, of which 9 were central societies, 37 were urban societies and 237 were rural societies. They had a membership of 21,629 and a working capital of Rs. 4,73,219. In accordance with the recommendation of the first conference of Registrars which was held in September 1906, the 30th June was fixed as the end of the Co-operative Credit Societies' year and the reports and returns now submitted accordingly cover a period of fifteen months. The following table compares the statistics of registered societies on the 30th June 1907 and on the 31st March 1906:—

	31st March 1906.	30th June 1907.
No. of Societies.	Rs.	Rs.
Central	9	14
Urban	37	89
Rural	237	743
Total ...	283	846
Number of members	28,629	91,343
Capital.	Rs.	Rs.
Loans from private persons ...	1,40,539	6,56,092
Share capital	1,31,205	5,55,805
Deposits by members	1,23,925	5,76,025
State aid	70,152	2,84,738
Reserve	7,398	58,598
Total. ...	4,73,219	21,31,258

	31st March 1906	30th June 1907.
Expenditure.	Rs.	Rs.
Loans repaid to private persons ...	20,352	1,51,185
Loans issued to members ..	3,40,440	23,83,971
Purchase of raw material and stores ...	1,01,313	3,15,679
Profits	*26,559	1,12,614
Total ..	4,88,664	29,63,449

The expansion of business is very remarkable though it is exaggerated by the omission from the returns of 1906, as now prepared, of societies which were actually working without having been registered. After full allowance is made for this cause however the material progress made has been much greater than was anticipated when the movement started. It is also satisfactory that out of the total capital of over 21 lakhs less than 3 lakhs has been advanced by Government, while over 11 lakhs has been advanced by the members themselves as share capital and deposits. The work of the State has been as far as possible confined to the encouragement of societies in their initial stages.

3. Other satisfactory features in the reports are the punctuality with which loans have been repaid and the fact that the purposes to which the money lent has been applied have been almost exclusively productive, although this matter has hitherto been left entirely to the societies themselves. It is observed that the Burma Registrar is of opinion that owing to the improvident habits of the cultivators in that country, it would be advisable to lay down a rule restricting the grant of loans to those given for productive purposes, but elsewhere there is no indication that this is necessary or that the increased facilities for borrowing afforded by the societies have led to a misuse of credit and to greater indebtedness.

4. But while the progress made is satisfactory, the movement has so far touched only the fringe of the vast population concerned. The 90,000 members of existing societies represent only a minute fraction of the numbers which must eventually be brought within the scope of the movement, if co-operative credit is to produce any marked effect on the problem of agricultural indebtedness in India. It would not be prudent at the present stage to press for too rapid an advance, but it is noticed that the main obstacle to expansion is the failure of the societies to attract outside capital. The deposits made by members are satisfactory so far as they go, but though the large amount of members' deposits obtained in some provinces is remarkable, comparatively little can be expected from this source until the poorer members have benefited sufficiently to be in a position to save. In many places, well-to-do persons have joined the societies from philanthropic motives and their pecuniary contributions together with their personal influence have been of great value. But it would be unsound to depend on assistance of this nature for the establishment of the movement on a widespread and permanent basis, and one of the most important problems to be solved in the immediate future is to obtain for the societies access to the outside money market. Something has alredy been effected in this direction in Madras, Burma and Bengal, where the rate of interest offered by the societies is higher than elsewhere. It will be impossible to attract outside capital without paying a comparatively high rate of interest and the societies will find it difficult to establish themselves on a permanent basis, unless they attract outside capital on business terms.

5. Another problem raised by the expansion of the movement is the best method of organising and combining societies for the purposes of control. The personal control of the Registrar over individual societies must diminish as they increase in number. In the United Provinces this difficulty is being met with apparent success by the establishment of District banks to which the rural societies are affiliated. Elsewhere local unions of rural societies are being formed. It is becoming recognised that the combination of village societies for the purposes of finance and control is as important as the combination of individuals for the purpose of forming a single society and that the combination of societies is intimately connected with the problem of giving them access to the outside money market. Time and experience alone can show whether the combination of societies can best be effected from above or from below.

6. As regards the question of State aid from Government, the majority of the Registrars consider that the present rules under which Government loans are only made against an equal amount of deposits made by members make adequate provision for the encouragement of societies in their initial stages, and it seems to be advisable that this restriction should continue except in cases where for special reasons it is desirable to form societies which could not comply with this requirement. The concession is at present limited to rural societies and a proposal to extend it to urban societies is being referred to Local Governments for consideration. Several Registrars consider that a special procedure for the recovery of debts due to societies would do much to improve their credit, but the Government of India are inclined to think that there is much force in the argument that there is a danger that the introduction of such a special procedure would lead to less care in the management of the societies, and so far there has been no indication that a special procedure is necessary. On the contrary, the punctuality with which loans have been repaid is one of the most satisfactory features of the movement.

* Profits inclusive of reserve fund.

7. In their reports the Registrars deal with the problem of their respective provinces on thoughtful and sympathetic lines, and the interest which they have shown in making themselves acquainted with the principles and procedure which have proved successful in other countries is most satisfactory. Genuine advance has been made everywhere, except in Ajmer and the North-West Frontier Province where the movement has not yet taken root. But the lines on which progress is being made are by no means stereotyped, and provided main principles are not infringed the societies are rightly allowed a large amount of elasticity in their working. The results so far achieved give every reason for the hope that the problem of founding individual credit societies in India will be successfully solved and that the system will take root and spread, while the spirit shown by all who have taken part in the movement is a hopeful augury that the larger questions connected with the combination of individual societies for the purposes of finance and control will in due time be satisfactorily settled. The failure of crops in a large part of the country in the present year will subject the societies to a severe strain, and the result of their working during the period of trial will be looked forward to with special interest. The Government of India desire to associate themselves with the Local Governments in their appreciation of the good work done by the several Registrars and of the valuable assistance received from non-official gentlemen in many provinces.

ORDERED, that the above Resolution be communicated to all Local Governments and Administrations and that it be published in the Supplement to the *Gazette of India*.

To the Government of Madras.
" do do Bombay.
" do do Bengal.
" do do the United Provinces.
" do do the Punjab.
" do do Burma.
" do do Eastern Bengal and Assam.
" Honourable the Chief Commissioner, Central Provinces.

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	$7\frac{1}{2}$	$5\frac{1}{2}$ to $5\frac{3}{4}$	seers per rupee.
	Ragi ...	$20\frac{1}{4}$	10 to $10\frac{1}{2}$	

Agricultural operations.—Ragi under harvest.

Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Market sufficiently supplied for the present.

9. *Agricultural operations.*—Early sown ragi is being harvested throughout the district.

Standing crops.—Wet crops have dried in most parts of the district and are reported to be drying in Hoskote, Channapatna, Devanhalli and Bangalore Taluks, for want of water in tanks. Dry crops are reported to be in a fairly good condition in Channapatna, Devanhalli, Anekal and Kankanhalli Taluks; in a bad condition in Nelamangala and Magadi Taluks and completely dried up in the rest.

Probable outturn of crops.—In Anekal Taluk the probable outturn of ragi is reported to be from 6 annas to 12 annas.

Damage to crops.—Castor plant in Kankanhalli is reported to be infested with insects; and in some parts of Magadi, paddy is reported to be attacked with "Kokkare Roga."

10. Prospect of the season is doubtful. Rain is badly wanted throughout the district. It is reported that people from other taluks have come in search of cooly work in the Magadi Taluk. The supply of food stuffs sufficient for the present. But the prices are prohibitively high.

11. Public health generally good.

12. Cattle are generally healthy. Cattle disease is reported to be subsiding in the Channapatna Taluk. Water and fodder are available for the present though with some difficulty in Magadi, Channapatna, Devanhalli, Closepet and Dodballapur Taluks. It is reported from Magadi that cattle are fed on green leaves and also that cattle from Kunigal Taluk have been brought to it for fodder.

KOLAR.

8. Market well supplied.

9. *Standing crops.*—These are reported to be withering for want of rain.

Crops sown.—Nil.

Crops harvested.—

Gidda ragi in parts of Sidlaghatta, Bagepalli, Goribidnur, Malur and Gudibanda Taluks is reported to yield from 8 to 12 annas on the average. Sugar-cane under *kapile* wells in Goribidnur yield from 8 to 12 annas; same and sajje yield from 4 to 6 annas in the Bagepalli Taluk.

10. Prospects of the season not satisfactory. Rain is very badly needed throughout the district for the standing dry crops. Food stuffs available, but their prices continue to be very high.

11. Public health generally good, except in the Patna village in the Kolar Taluk, where cholera prevails and plague is reported to be prevailing in Chendrasekharapura of the Kolar Taluk and also in parts of Malur Taluk.

12. It is reported that "Rinderpest" is still prevailing in parts of Mulbagal, Sidlaghatta, Bagepalli, Goribidnur and Gudibanda Taluks. Water and fodder are sufficient for the present.

TUMKUR.

8. Supply in market moderate.

9. *Crops sown.*—Bengal gram in Maddagiri, Gubbi and Tiptur Taluks and Turuvekere Sub-Taluk; cholum in Maddagiri, Gubbi and Tiptur Taluks; wheat and paddy (under wells) in Pavagada Taluk.

Crops harvested.—Ragi in Tumkur, Maddagiri, Chiknayakanhalli, Sira, Gubbi and Pavagada Taluks; navane and savè in Maddagiri, Chiknayakanhalli, Gubbi and Pavagada Taluks; cholum in Chiknayakanhalli, Tiptur, Pavagada and Koratagere Sub-Taluk; paddy and sugar-cane in Gubbi and Turuvekere Sub-Taluk and til and cotton in Pavagada Taluk.

Standing crops.—These are reported to be withering for want of rain in Chiknayakanhalli and Kunigal Taluks and Turuvekere Sub-Taluk. In parts of Tumkur, Tiptur, Gubbi and Pavagada Taluks and Koratagere Sub-Taluk, crops have withered away and in other parts are withering. In the Maddagiri Taluk, crops on wet lands are in fair condition and those on dry lands are withering. In Sira, nati ragi is in a fair condition and the other crops are withering.

10. Prospects of the season are not satisfactory. Food stuffs are available but their prices continue to be high. Rain is badly needed throughout the district.

11. Excepting small-pox at Sadarahalli village in the Chiknayakanhalli Taluk, public health generally good.

12. Fodder is procurable in limited quantities in all the taluks, except Turuvekere Sub-Taluk. Leaves of trees and date leaves are being used as fodder in Chiknayakanhalli Taluk and Turuvekere Sub-Taluk. Some cattle in the Tiptur Taluk are reported to have been taken to Chiknayakanhalli for grazing. Similarly some raiyats of Kunigal Taluk have taken their cattle to Magadi and Shimoga Taluks for grazing purposes. Scarcity of water is being felt in several villages of Tumkur, Chiknayakanhalli, Gubbi and Pavagada Taluks. In certain villages of Tumkur, Sira and Tiptur Taluks, cattle are reported to be suffering from "Dodda Roga."

MYSORE.

8. Market fairly well supplied.

9. *Agricultural operations*—Nil.

Standing crops.—These are reported to be in moderately good condition in all the taluks, except in the Maddur and Krishnarajpete Taluks, where they are reported to be withering for want of rain. Crops in Nagamangala Taluk are reported to be in need of rain.

Crops sown.—Bengal gram in parts of the Yedatore Taluk.

Crops harvested.—Ragi in parts of the Mysore, Chamrajnagar, Nanjangud, T.-Narsipur and Malvalli Taluks, togari and green gram in parts of the Chamrajnagar Taluk and save in parts of the Malvalli Taluk.

10. Prospects of the season generally good. Food stuffs sufficient for the present but their prices are on the rise. There are no people under relief.

11. Excepting plague in a few places in the district, public health generally good.

12. Cattle generally healthy, but "Dodda Roga" in parts of the Mysore, Chamrajnagar, Heggaddevankote and Gundlupet Taluks; and "Sappe Roga" in parts of the Mysore and Malvalli Taluks are still prevailing. "Sappe Roga" in parts of Yedatore Taluk is reported to be abating. Water and fodder available, except in parts of the Nagamangala Taluk, where stock of fodder is reported to have run short.

HASSAN.

8. Market fairly well supplied.

9. *Standing crops.*—Fair in Arkalgud and Hole-Narsipur, but in other taluks paddy, sugar-cane, avare, togari and chillies are withering for want of rain.

Crops sown.—Jola and Bengal gram in parts of Arsikere Taluk.

Crops harvested.—Dod ragi is being cut in Hassan, Channarayapatna and Hole-Narsipur Taluks. In the first two taluks it is estimated to yield from 4 to 8 annas. In the Hole-Narsipur Taluk, it is from 6 to 8 annas. Early sown paddy is being cut in the Manjarabad Taluk, the estimated yield being 8 to 12 annas.

10. Prospects of the season are generally fair, but more rain is required throughout the district, more especially in parts of Arsikere and Channarayapatna Taluks.

11. Except for plague in parts of Belur and Hassan Taluks, public health is generally good.

12. Cattle are generally in good condition. "Dod Roga" is prevalent in parts of Belur Taluk. Pasturage is infested with a kind of insect in the Manjarabad Taluk. Some specimen insects are reported to have been sent to the Government Entomologist and Mycologist for examination. In parts of Channarayapatna and Arsikere Taluks, dug-up grass is used where it is not sufficiently grown. From the latter taluk cattle are being driven to Hassan, Belur and Kadur Taluks for grazing in the kavals. Water difficulty is felt in the Channarayapatna and Arsikere Taluks and steps are being taken towards sinking new wells and deepening old ones.

SHIMOGA.

8. Market well supplied.

9. *Agricultural operations.*—Ragi, jola are being harvested in parts of Shimoga and Honnali Taluks; paddy in Shikarpur, Sorab and in Kumsi Sub-Taluk; arecanut in Sagar, Nagar and Tirthahalli Taluks.

Standing crops, viz.; paddy, ragi, sugar-cane, horse-gram, avare, togari and cotton are in somewhat fair condition in Shimoga, Channagiri, Honnali, Sorab and Tirthahalli Taluks and Kumsi Sub-Taluk; but paddy has failed under several tanks in Shimoga, Channagiri and Honnali Taluks. Ragi has also failed in parts of these taluks. In the remaining taluks, the crops growing on lands below the tanks and low-lying tracts are in fair condition for the present; while in other localities, they are withering for want of rain.

10. Prospects of the season are not much improved. The crops are in need of rain Food grains are available but their prices continue to be high.

11. Public health is generally good. Plague continues in the Shimoga Town and Kumsi Sub-Taluk.

12. Fodder and water are available but grass is beginning to dry up in the maidan parts. Cattle are generally healthy. "Murrain" continues in all the taluks except Nagar and Tirthahalli.

KADUR.

8. Market well supplied.

9. *Agricultural operations.*—Bengal-gram in Chikmagalur; wheat, jola and Bengal-gram in Kadur; and jola and Bengal-gram in Tarikere were sown during the week.

Standing crops:—

In Chikmagalur—Paddy, ragi, sugar-cane, avare, gingelly, coriander, kulthi, coffee and castor.

In Kadur—Paddy, ragi, avare, sugar-cane, togari, castor, jola, kulthi and chillies.

In Tarikere—Paddy, ragi, kulthi, avare, jola, togari, navane, baragu, coriander, gingelly, sugar-cane, green gram, black gram.

In Koppa—Paddy, sugar-cane areca, pepper, cardamon, coffee, ragi, and kulthi.

In Mudgere—Paddy, ragi, cardamon, sugar-cane and coffee.

In Yedahalli—Paddy, sugar-cane, areca, coffee.

In Sringeri—Paddy and areca.

These are reported to be in moderately good condition. But crops are still in urgent need of more rain.

Crops harvested and their yield:—

Kadur—Sugar-cane and coffee.

Tarikere—Jola and ragi.

Mudgere—Cardamom 2 annas and areca 8 annas.

Yedahalli—Paddy 6 annas and areca [illegible] annas.

10. Prospects of the season fair More rain is urgently needed throughout the district. Food stuffs are available but their prices continue to be still high.

11. Except for plague in a few villages of the Kadur and Tarikere Taluks, public health generally good.

12. Cattle are generally healthy. But "Dod Roga" still prevails in parts of the district. Water and fodder are available.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Such as ragi, jola, horse-gram, Bengal-gram, togari, avare, navane, sajje, haraka, castor, gingelly, paddy and cotton are reported to be generally withering, except those under wells and channels which are fairly in good condition.

Crops sown.—Nil.

Crops harvested—Ragi, jola, navane in the Chitaldrug and Jagalur Taluks, yield (Chitaldrug Taluk, 4 to 12 annas and Jagalur Taluk, 2 to 8 annas); sajje and ragi in Challakere and Holalkere Taluks, yield 4 to 8 annas; sugar-cane in the Chitaldrug Taluk, yield 4 to 8 annas; navane, savè, haraka and chillies in the Holalkere Taluk, yield 4 to 12 annas; sajje in Jagalur and Hosdurga Taluks, yield 2 to 8 annas; jola, navane and sajje in Molakalmuru Taluk, 4 to 8 annas cotton and chillies in the Harihar Sub-Taluk, yield (cotton 6 to 14 annas and chillies 6 to 12 annas).

Rain is urgently wanted for the standing crops throughout the district.

10. Prospects of the season fair, except in parts of Hosdurga, Hiriyur and Challakere Taluks, where the dry crops have failed entirely. Tank filling rains are urgently required and the raiyats are anxiously looking forward for them. These will help the existing crops such as jola and gram on the black cotton soil.

Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug, Challakere and Holalkere Taluks, where "Rinderpest" prevails.

Water and fodder fairly available, except in parts of the Hosdurga Taluk, where they are getting scarce.

BANGALORE,
18th November 1908.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

No. R. 2927—Agri. 90-07-4, dated 14th November 1908.

With reference to Notification No. R. 5735—Agri. 90-07-2, dated 6th March 1908, published in Part IV of the *Mysore Gazette*, dated 12th March 1908, it is hereby notified for general information that the proposed Grand Exhibition of Japan will not be held in 1912 as originally intended, the Japanese Government having decided to postpone the Exhibition till 1917.

By Order,

K. S. CHANDRASEKHARA AIYAR,

Secy. to Govt., Gen. & Rev. Depts.

MYSORE GOVERNMENT METEOROLOGICAL DEPARTMENT.

N. VENKATESA IYENGAR, *Chief Observer in charge, Mysore Meteorological Dept.*

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 1095—115, dated the 22nd August 1908, from the Inspector-General of Police in Mysore, reporting on the working of the Mysore Mines Regulation, IV of 1906, during the official year 1907-08.

With reference to Government Proceedings No. 3503-4—Legis. 30-06-6, dated 17th May 1907, I have the honor to forward herewith copy of letter No. C. 36, dated 13th instant, from the District Magistrate, Kolar, submitting a Report on the working of the Mysore Mines Regulation, IV of 1906, for the official year 1907-08.

2. Forty-four cases with 66 persons werefiled by the Police under Sections 5 to 19 of the Regulation, relating to the protection of the mining property, against 22 cases with 30 persons during the previous year. Of these, 35 cases with 39 persons ended in conviction against 16 cases with 19 persons during the previous year. The number of prosecutions has increased under all the sections, except under Section 6 (unlawful possession of mining materials), which is attributed to be due alike to the careful and vigorous working of the Regulation, as to the close supervision and discretion used in launching prosecutions thereunder.

3. The number of prosecutions under Section 7 for working without a license has increased and fines amounting to Rs. 225 were realised. The amount of license fees collected was Rs. 107-8-0 against Rs. 70 during the previous year.

The principles enunciated by the District Magistrate under which licenses are issued to goldsmiths are good and cannot in any way prove a hardship to *bona fide* settlers.

4. Under Sections 11, 12 and 18 of the Regulation there were 1, 1 and 2 prosecutions respectively, during the year, whereas there were none during the previous year.

5. In the case under Section 12 (possession of unwrought gold), a komati was convicted by the Magistrate having been found in possession of a bar of gold; but the conviction was set aside by the Chief Court.

6. Under Section 16 of the Regulation (liability of tenant or occupier of premises where mining materials are found), 4 cases with 12 persons were prosecuted, of which 1 case with 2 persons ended in conviction. The question of the practical utility of this section may be decided after further trial as suggested by the District Magistrate.

7. Twenty-two undesirables were prosecuted and 19 convicted against 11 and 10 respectively, during the previous year and the total number of notices issued was 53 during the year or over a hundred since the Regulation came into force.

8. Under the present system these notices are served by the Superintendent of the Mine at which the individual works and this does not ensure the absolute quitting of the individual from the whole mining area. He may have opportunities for surreptitiously getting himself employed in another mine. To prevent this it was suggested last year that the notice should be issued by the Mining Board. But on a further consideration of the question, the District Magistrate suggests that as there are in the Fields two Stationary Magistrates and a Police Superintendent solely for the benefit of the Mining Companies, any of them to whom the Superintendents may apply may be empowered to issue the same. I fully concur with him in his views in the matter.

9. Sections 18 and 19 (Hawkers and Pedlars).—From September 1907, 56 licenses were issued and the fees realised were Rs. 192. In two cases two persons were fined for hawking without license.

10. It is satisfactory to note that the New Regulation has been worked smoothly without provoking the least discontent among the law-abiding and peaceful subjects of His Highness the Maharaja.

11. It is reported that the frequency and violence of air blasts in the Champion Reefs Mine have been greater that in last year, and have been causing considerable anxiety. The cause of the same and the preventive measures adopted are not reported.

12. In conclusion, I request that early orders may be passed on the subjects referred to in Government Order No. 2958-59—Legis. 7-07-3, dated 26th March 1908, reviewing the report for the year 1906-07.

Letter No. C. 36, from C. Srikanteswara Aiyar, Esq., B.A., B.L., District Magistrate, Kolar District.

Adverting to Government Proceedings No. J. 3503-4—Legis. 30-06-6, dated 17th May 1907, I have the honor to submit my second Annual Report on the working of the Mysore Mines Regulation, IV of 1906 for the official year 1907-08, as follows :—

2. The number of cases filed during the year under the said Regulation was 59, 44 being by the Police and 15 by the Geological Department. Those charged alternatively under this Regulation and the Indian Penal Code, for possession of mining materials, are not of importance affecting the Regulation.

Protection of mining property.

3. Of the 44 cases put up by the Police under the more stringent Sections 5 to 19 of the Regulation, 35 ended in conviction, against 22, filed and 16 convicted during the previous year, as detailed below :—

Under Sections	1906-07				1907-08			
	Prosecuted		Convicted		Prosecuted		Convicted	
	Cases	Persons	Cases	Persons	Cases	Persons	Cases	Persons
6 and 13	8	11	4	4	5	8	3	4
7 and 13	2	6	2	5	9	16	8	10
11 and 13	...	...	...	...	1	1	1	1
12 and 13	...	...	...	...	1	1	1	1
16	1	2	...	...	4	12	1	2
17 and 19	11	11	10	10	22	22	19	19
18 and 19	...	...	...	...	2	2	2	2
Total ...	22	30	16	19	44	62	35	39

(*a*) *Section 6—Unlawful possession of mining materials.*—There have been fewer cases under this Section, due alike to the careful and vigorous working of the Regulation as to the close supervision and discretion used in launching prosecutions thereunder.

The question of bringing all electrical fittings and the like, especially copper wire which is a valuable asset, under the definition of mining material, has already been urged and is engaging the attention of Government, and when they are so brought it will go a long way to further safeguard the mining property.

(*b*) *Section 7.—Licenses required for gold-dealers and goldsmiths.*—Of the 9 cases involving 16 persons put up during the year, against 2 cases and 5 persons of the previous year, for working without licenses, 8 ended in conviction of 10 persons, and one in the acquittal of the other three persons, 3 of the accused being discharged. Fines amounting to Rs. 225 were imposed and collected under this section during the year under notice.

Nine goldsmith licenses were issued up to 31st December 1907, and 17 up to 30th June 1908, the amount of license fees collected during the official year being Rs. 107-8-0, as against Rs. 70 of the previous year.

As a rule, the issue of such licenses is governed by the two main principles enunciated in my last report, *viz.*, (i) to grant licenses to all local and hereditary goldsmiths, unless the applicant has been convicted or is of reputed bad character; and (ii) never to grant any license to foreign goldsmiths, unless the applicant is of *proved good character and* a *bona fide* settler with no dishonest motives or amidst suspicious surroundings.

It is this class of persons that has been a source of trouble ever since the mines started, as receivers of stolen gold and the strictest supervision, therefore, has been exercised over them.

No gold-dealers licenses were issued during the year.

(*c*) *Section 11.—Goldsmiths not to deal with gold, etc., until after three days of receipt.*—That only one person—and he a licensed goldsmith was prosecuted under this section, convicted and fined Rs. 50, argues both the moral effect produced upon such class of persons by this provision and how it has not acted harshly upon any *bona fide* workman.

(*d*) *Section 12.—Possession of unwrought gold.*—Only a single case arose under this section, in which a komati, was charged with being in possession of a piece of bar gold, convicted and fined Rs. 50. On reference by the accused, the Chief Court examined * both the facts and law involved and set aside the conviction, holding *inter alia* that the piece of gold "was a remnant of certain articles of jewellery the accused had melted down some 5 or 6 years ago," and that the Magistrate had "accepted the account given by the accused as true." The learned Judges specifically raised and discussed at great length the legal points (i) whether the New Mines Regulation had the retrospective effect of rendering possession of unwrought gold without a license, lawful on the date of the passing of the Regulation, an offence after the passing thereof, (ii) whether the section was not too general or applied to any but the goldsmiths and gold-dealers, and (iii) whether the definition of "Unwrought gold" included such cases, considered several English cases quoted in Maxwell's Interpretation of Statutes and other kindered books, and in separate judgments concluded it was unnecessary to express a definite opinion on the matter, and left the points open, quashing the conviction as aforesaid.

* Criminal Revision Petition No. 34 of 1907-08, Venkataramiah Chetti *vs.* Government.

(*e*) *Section 16—Liability of tenant or occupier of premises where mining materials are found.*—Four cases involving 12 persons were put up under this section during the year, against one case and two persons in the previous year. Of the four cases, only one ended in conviction of two persons.

It has been urged that the section is not of practical utility, as Magistrates are not likely to convict a tenant or occupier when many persons inhabit the same hut and there is always the chance of the stolen material being planted on the premises to get the tenant or occupier into trouble. I have sent for and perused the records in all the four cases, and it seems to me that before suggesting any amendments to the section, pronouncing it to be abortive, unless in very exceptional cases, further trial thereof is necessary. Sections 6 and 12 read along with this section, would practically seem to meet all cases, as the tenant or occupier of a hut wherein suspicious articles are found can be required to prove that he was not privy to their being introduced in his hut, and that he is under such an obligation is enough to ensure his not permitting his friends or undesirables to use the premises, to get himself into trouble. A good test case has yet to arise, to form a decided opinion as to its utility or otherwise.

(*f*) *Sections 17 & 19.—Undesirables.*—Of the 22 cases against 22 persons launched during the year, as against 11 cases involving 11 persons in the previous year, 19 ended in the conviction of 19 persons. This section has done much good not only in getting rid of some of the very worst undesirables infesting the fields, but also in scaring away a good many more of them—the scum from all parts who congregate here and whose sole means of living consists in stealing sand, quartz and other mining materials.

The total number of notices served on such undesirables by the Mining Companies and the Police, during the year, was 53, and over a hundred since the Regulation came into force, which fact alone has greatly tended to keep down theft, of late, on the Fields.

As stated in my last report, it is necessary and most desirable that a notice served on a bad character on a particular Mine, should be made applicable to all the Mines, Camps, and Cooly Colonies. An undesirable now served with a notice on one Mine has only to shift himself to another, where he remains practically safe, until spotted out and served with a fresh notice, which process can go on repeating for a considerable period, as there are several Mines to which the undesirable can remove himself, by turns, with impunity. It stands to reason that if he is an undesirable in one place he is so on all the Mines, Camps and Cooly Colonies, and it would therefore be well to provide for a central authority issuing such notices, which can be made applicable to the whole of the mining area. There was once a suggestion that the notice might be served by the Mining Board, but on a consideration of this matter, now that we have on the Fields two Stationary Magistrates and a Superintendent of Police, entirely for the benefit of the Mining Companies, I think it would be better to empower any of them, to whom the Superintendents of Mines may apply, to issue the same.

During the year under report, this section has been very carefully worked, and in no instance, I am aware of, has it given arise to any unfairness or acted harshly upon any but the foreign squatters.

(*g*) *Sections 18 & 19.—Hawkers and Pedlars.*—Before Government Notification No. J. 106—Legis. 5-06-11, dated 9th July 1907, requiring hawkers and pedlars to take out licenses, was brought into effect, all hawkers and pedlars usually visiting the Fields were duly warned that they would be prosecuted if found hawking or peddling without proper licenses, which were issued from September 1907. Fifty-six such licenses have since been issued up to end of June 1908, the fees realised therefrom being Rs. 192.

As a rule, no license is issued until due enquiry has been made as to the desirability or otherwise of allowing the applicant to hawk or peddle his goods. In one instance, a hawker license issued to a komati of Civil and Military Station of Bangalore, to sell jewellery on the Mines, was re-called and cancelled, he having been subsequently ascertained to be a receiver of stolen gold.

In 12 cases, two persons were convicted and fined for hawking without licenses.

This section also has had a very good effect in keeping away people, who on the pretext of hawking goods, obtained free access to all parts of the Mines, wherefrom they eventually became so many transmittors of stolen gold and mining materials.

4. That the foregoing sections have been worked very satisfactorily in protecting mining property, is patent from another fact that ever since the New Regulation came into force, the Police have come across a number of men in possession of bogus gold, being a composition of brass filings resembling sponge gold, arguing that those that formerly did a small trade in real gold, have now been reduced to making a living by this means, owing to the difficulty in obtaining the genuine gold.

Safety and discipline of mining employees and inspection of mines.

5. Sections 21 to 23, 15 cases involving 20 persons were brought to trial by the Geological Department, during the year, against 7 cases and 7 persons in the preceding year; and of the 15 cases filed, 11 ended in the conviction of 14 persons.

6. There was not even a single case filed for breaches of Sanitary Rules during the year, which testifies to the good work done and vigilance exercised by the Sanitary staff, both of the Mining Companies and the Sanitary Board.

Sanitation.

7. The Mining Board have again pressed for the introduction of the Mines Regulation into the Railway premises between Bowringpet and Marikuppam. Though there are difficulties attending the prosecution of persons found in possession of mining materials within this strip of land, the case in which a Mahomedan found in possession of sponge gold within the Railway premises was lately convicted, under Section 414, Indian Penal Code, by the District Magistrate of the Civil and Military Station of Bangalore, indicates that on sufficient evidence, convictions can be secured under the ordinary law, but only in exceptional cases. The subject is, however, already before Government.

Introduction of Mines Regulation into Railway premises.

8. On the whole, it is gratifying to have to report that the New Regulation has so far been worked successfully, without in any way acting repressively upon the law-abiding and peace-loving subjects of His Highness the Maharaja, the only class of people affected thereby being the undesirable rowdies and impecunious fortune-hunters from outside, who form the bulk of the floating population on the Fields.

General.

9. The special report called for by Government in Proceedings No. J 255-7—Legis. 5-05-10, dated 28th July 1906, after the Regulation has been in force for two years from 1st September 1906, the date on which it came into operation, will be submitted later on, in due course.

No. J. 1060-62—LEGIS. 15-08-2, DATED BANGALORE, 8TH OCTOBER 1908.

ORDER THEREON.—Forty-four cases involving 66 persons were filed by the Police under the several penal sections of the Regulation during the year under review, with the result that 35 cases involving 39 persons ended in conviction, as against 22 cases with 30 persons filed and 16 cases with 19 persons convicted during the previous year. The increase in the number of cases prosecuted is reported to be due to the careful working of the Regulation and to effective supervision on the part of the Police.

2. Only one case of unlawful possession of unwrought gold under Section 12 of the Regulation was prosecuted during the year. The accused person in the case was convicted by the Assistant Commissioner Magistrate of the Kolar Gold Fields and sentenced to pay a fine of Rs. 50 but on appeal the conviction was set aside by the Chief Court.

3. Four cases involving 12 persons were prosecuted under Section 16, which renders the tenant or occupier of the premises where mining materials are found liable for their possession in the absence of proof to the contrary; of these one case involving two persons resulted in conviction. The District Magistrate reports that no good test case has arisen for determining the practical utility of this section.

4. Twenty-six goldsmiths licenses and 56 Hawkers and Pedlars licenses were issued during the year and the fees realized amounted to Rs. 107-8-0 and Rs. 192, respectively.

5. Government note with satisfaction the assurance of the District Magistrate that the Regulation while protecting the gold industry is being worked smoothly without causing any hardship to the law-abiding population of the Gold Fields area.

6. The extension of the Regulation to the Railway premises in the Kolar Gold Field Mining area and other matters regarding the amendment of the Regulation referred to by the District Magistrate in para 7 of his report, are still under the consideration of Government and orders will be passed in due course.

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

Revenue Commissioner in Mysore.

HIS MAJESTY THE KING-EMPEROR'S MESSAGE TO THE PRINCES AND PEOPLES OF INDIA.

شاهی اعلان

پیام ملک معظم ہز مجسٹی کنگ امپرر بنام رئیسان واہالی ہندوستان

۱ پچاس سال کا زمانہ ہوا کہ ان ممالک کی فرمانبرداری سابق ہماری مادر مشفقہ کوین وکٹوریا نے بعض اسباب اہم کی بنا پر بصلاح ورضامندی مجلس شوری ملکی اس مملکت کی عنان سلطنت اپنے دست مبارک مین لی تھی جو اوسوقت تک ایسٹ انڈیا کمپنی کے قبضہ اقتدار مین تھی۔ اس جلیل القدر ذمہ داری کی یادگار مین جو اسوقت نہایت شان وشوکت سے لی گئی تھی ما بدولت اس سالگرہ

۵ کے موقع پر ہندوستان کے رئیسون اور لوگون کو مبارکباد کہنے کا مناسب موقع تصور کرتے ہین۔ امتداد زمانے کے مقابلہ مین نصف صدی ایک عرصہ قلیل ہے تاہم یہ آدہی صدی جو آج ختم ہوتی ہے۔ تمہارے صفحات تاریخ مین نہایت چمکتے ہوے نشان کا کام دے گی۔ تاج برطانیہ کے بلاواسطہ قبضہ وتصرف کے اعلان نے حکومت ہند پر یگانگی کا سکہ بٹھا دیا اور ہندوستان مین ایک نیا دور شروع کردیا راستہ دشوار گذار تھا اور رفتار بعض اوقات دھیمی نظر آئی ہوگی۔ مگر برٹش گورنمنٹ کے ظل عاطفت وحکمرانی مین بہت سی عجیب اختلاف والی قومون اور تقریباً تیس کروڑ نفوس انسانی کا امتزاج بالاستقلال اور مسلسل ہوتا گیا ہے۔ ما بدولت گذشتہ نصف صدی کی حکومت برطانیہ کی مساعی پر ایک سنجیدہ اور منصفانہ نظر ڈالتے ہین۔

۲ دقتین جو انسانی حکومت مین ہر زمانہ اور ہر موقع پر پیش آیا کرتے ہین۔ وقتاً فوقتاً یہان بھی پیش آتی رہین۔ فدویان سلطنت برطانیہ نے محنت ہمت اور صبر سے اور سنجیدہ صلاح اور عزم بالجزم سے جسمین کبھی لغزش اور جنبش نہین ہوئی۔ اونکا سامنا کیا۔ اگرچہ غلطیان واقع ہوئین تو مدبران سلطنت نے اونکی اصلاح مین کوشش ومحنت کا کوئی دقیقہ اٹھا نہین رکھا۔ اگر بدعملیان عمل مین آئین تو قوی ہاتھون سے اونکا تدارک کیا گیا۔

۳ کوئی تدبیر سلطنت خشک سالی اور طاعون کی مصیبتون کو دفع نہین کر سکتی مگر تجربہ کار مدبرین سلطنت نے قدرت کی ان ہیبت ناک آفتون کو کم کرنے لیئے وہ سب کیا ہے جو انسانی محنت اور کوشش کر سکتی ہے۔ عرصہ دراز تک۔ جس عرصہ کا تمہاری تاریخ مین کہین نشان نہین۔ تم اپنے ملک کی حدود کے اندر جنگ کے مہلک آفات سے محفوظ رہے۔ اور ملکی امن برابر قایم رہا۔

۴ ۱۸۵۸ء کے بڑے شاہی اعلان مین ملکہ معظمہ کوین وکٹوریا نے اپنی دلی خواہش کا تمکو یقین دلایا تھا کہ ہندوستان کی آسودگی بخش حرفت کو ترقی دیجائیگی۔ رفاہ عام کے کامون مین مدد کیجائیگی اور ہندوستان کی حکمرانی اس طرز پر ہوگی جس سے ہند کے تمام لوگون کو نفع پہونچیگا۔ وہ تدبیرین جو نہایت محنت اور کوشش سے تجویز کی گئی ہین اور تمہارے امن وعافیت اور ترقی کے لئے کام مین لائی گئین۔ وہ تدبیرین۔ جو اپنی عظمت وسعت کی وجہ سے بے نظیر سمجھی جاتے ہین۔ اوس سرگرمی کو تمام دنیا پر ثابت کر رہی ہین جس سے وہ فیاضانہ وعدہ پورا کیا گیا ہے۔

۵ ماتحت رئیسون اور حکمرانون کے دعوون اور حقوق کی حفاظت اور نگہداشت کا لحاظ رکھا گیا ہے اور اونکی وفادارانہ اطاعت غیر متزلزل مانی گئی ہے۔ ہماری رعایا مین سے کوئی اس وجہ سے کہ وہ ایک خاص مذہب کا معتقد اور پیرو ہے۔ نہ کسی رعایت کا مستحق ہوا۔ نہ ستایا گیا اور نہ پریشان کیا گیا۔ تمام لوگ قانون کے حفظ وامان مین ہین خود قوانین کے وضع کرنے مین تمام اقوام ومال کا اونکے رسوم وخیالات کا جو اونکی تہذیب کی جڑ ہین لحاظ رکھا گیا ہے۔ قانون مین سہولت پیدا کی گئی ہے اور اوسکو اقوام قدیم کی جو نئی روشنی مین بتدریج داخل ہوتی جاتی ہین ضرورتون کے مناسب کیا گیا ہے۔

۶ مابدولت کی سرکار کی ذمہ داری کے ساتھ زمانہ حال واستقبال کی بے انتہا قسمتین وابستہ ہین۔ پس یہ اہم ترین فرض ہے کہ اون مفسدانہ سازشون کو جنکی نہ کوئی معقول وجہ ہے اور جنکا نہ کوئی مناسب منشا ہے قوی بازون سے نیست ونابود کر دیا جائے۔ ہم جانتے ہین کہ ہماری خیرخواہ اور وفاشعار ہندوستانی رعایا کا اکثر حصہ ان سازشون سے نفرت کرتا ہے۔ ہم اوسکو روا نہین رکھ سکتے کہ ہمارے امن وعافیت ملک کے انتظام مین یہ سازشین خلل انداز ہوسکین۔

۷ چونکہ مابدولت واقبال کو یہ منظور نہین ہے کہ یہ قابل یادگار سالگرہ الطاف ومراحم خسروانہ کے اظہار کے بغیر گذرے۔ اسلیئے ہماری سرکار سے یہ فرمان جاری کیا گیا ہے (جیسا ۱۹۰۳ء کے دربار تاجپوشی کے قابل یادگار موقع پر جاری کیا گیا تھا کہ

اون لوگون کی سزائین جنکو قانون کی خلاف ورزی کے جرم مین ہماری عدالتون نے باقاعدہ سزا دی ہے معاف کردی جائین یا حسب مدارج گھٹادیجائین۔ ہم چاہتے ہین کہ یہ خطاکار اس ترحم شاہنشاہی کو یاد رکھین اور آئندہ اپنی غلط کاریون سے باز آئین۔

۸ متواتر کوششین ہو رہی ہین کہ سرکاری اعلیٰ عہدون کے حاصل کرنے کے لئے قومیت کا امتیاز دور کردیا جائے۔ ما بدولت کو امید واثق ہے کہ جیسی جیسی تعلیم پھیلتی جائیگی تجربہ پختہ ہوتا جائے گا اور ہندوستان کے زہین اور لایق لوگ ذمہ داریون کے سبق حفظ کرتے جائینگے ترقی کی رفتار مستقل اور یقینی ہوتی جائیگی۔

۹ ابتدا ہی سے نیابتی حکومت کے اصول کو آہستہ آہستہ عمل مین لانا مد نظر تھا۔ اور اب وہ وقت آگیا ہے کہ ہمارے وایسرائے اور گورنر جنرل اور مشیران دولت کی راے سے اوس اصول کو وسعت دیجائے۔ تم مین کے قابل لحاظ طبقون کے لوگ وہ خیالات رکھتے ہین جنکو حکومت برطانیہ کے اثر نے بڑھایا اور تقویت دی۔ وہ لوگ شہریت کی مساوات کا اور وضع قوانین و حکومت مین زیادہ حصہ لینے کا دعوی کرتے ہین۔ ان مطالبات کا مناسب طور پر عطا کرنا موجودہ اقتدار و حکومت کو ضعیف کرنے کے بدلے اور تقویت دیگا اگر افسران حکومت کو اُن لوگون سے جن پر وہ حکومت کرتے ہین اور اون لوگون سے جنکا اثر عام لوگون کے خیالات پر پڑتا ہے اکثر میل جول بڑھانیکے موقعے ملتے رہے تو انتظام سلطنت اور بھی زیادہ معقول اور موثر ہوگا۔ ہم ابھی۔ اون تدبیرون کا ذکر نہین کرتے جو اُن مطالبات کے لئے بڑے غور و فکر سے تجویز کی جارہی ہین۔ تمکو بہت جلدی اونکی اطلاع دیجائیگی اور ما بدولت کو یقین ہے کہ اون سے تمہاری ترقی کا ایک قابل یادگار دورہ شروع ہوجائیگا۔

۱۰ ما بدولت کو اپنی ہندوستانی فوج کی شجاعت اور وفاداری کا یقین ہے اور ہمنے حکم دیا ہے کہ سال نو کے آغاز مین ہماری ہندی فوج کے سپاہیانہ جوہر اونکی عمدہ آراستگی اور ادائے خدمت کے لئے اونکی وفادارانہ آمادگی کی ہماری قدرشناسی کے خیال کو اصلیت کی شان مین ظاہر کرنیکا موقع حاصل کیا جائے۔

۱۱ ملکۂ معظمہ کوئین وکٹوریا کی دلی خواہشون مین سے ایک نہایت ہی عزیز خواہش

ہندوستان کی فلاح وبہبود تھی۔ مابدولت کو ۱۸۷۵ء کی سیاحت ہندوستان کے زمانہ سے ہندوستان اوسکے رئیس اور اوسکے لوگون کو فائدہ رسانی کی۔ شفقت آمیز خواہش ایسی ہے کہ مرور زمانہ اسکو ضعیف نہین کرسکتا۔ ہمارے نورچشم پرنس اور پرنسس آف ویلس تم لوگون مین رہکر تمہارے ملک کی محبت اور اوسکی بہتری اور آسودگی کا سچا اور دلی خیال اپنے ساتھ واپس لائے ہین۔ ہندوستان کے لئے شاہی خاندان کی ایسی سچی ہمدردی کے خیالات اور توقعات برطانیہ کے لوگون کے متحدانہ خواہشون اور ارادون کو بہت سچائی سے ظاہر کرتی ہین۔

۱۲ خدائے عزوجل اپنی حمایت وفضل سے عقل وفہم اور باہمی ربط وضبط کو تقویت بخشے جو ایسے عظیم الشان کام کے سرانجام کے لئے ضروری ہین جو زمانہ تاریخ مین کسی ریاست کے فرمان رواؤن اور رعایا کو پیش نہین آیا تہا۔

بحکم جناب معلی القاب ہز اکسلنسی دی آنریبل
گورنر صاحب بہادر باجلاس کونسل
ایچ۔ او۔ کوین
سکرٹری گورنمنٹ

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	7½	5½ to 5¾	seers per rupee.
	Ragi ...	19	9½ to 10	

Agricultural operations.—Ragi is under harvest.
Standing crops are withering.
Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Market sufficiently supplied for the present.

9. *Standing crops.*—Standing dry crops are reported to be in fair condition at present in the taluks of Bangalore, Hoskote, Kankanhalli, Channapatna, Anekal and Devanhalli. Standing wet crops are reported to be withering in all places, except parts of the taluks of Bangalore, Hoskote and Anekal. It is reported that sugar-cane is withering in the Kankanhalli Taluk. In the Devanhalli Taluk, it is in fairly good condition.

Crop harvested.—First sown ragi is being harvested throughout the district.

Probable outturn.—It is reported that in certain parts of the Nelamangala Taluk, the probable outturn is from 1 to 6 annas and in other parts from 4 to 12 annas. In Anekal and Closepet from 6 to 12 annas.

10. Prospects of the season cannot be said to be very promising. Rainfall has been insufficient throughout the district. Scarcity of water is beginning to be felt in parts of the taluks of Nelamangala, Dodballapur, Kankanhalli, Magadi and Channapatna and in Closepet. Arrangements have been made to have wells sunk in the affected parts. Supply of food stuffs sufficient for the present. But their prices continue to run high in the markets. It is reported that men from outside have come to the Magadi Taluk in search of cooly work.

11. Public health generally good. But plague, it is reported, has broken out in some parts of the Kankanhalli Taluk.

12. Cattle generally healthy. But it is reported that in some parts of the Anekal Taluk they are affected with "Neradi Roga." Water and fodder are available for the present. But it is reported that they are rather insufficient in parts of the Dodballapur, Nelamangala, Magadi and Channapatna Taluks and the Closepet Sub-Taluk. It is reported that green leaves are being used for feeding cattle in some parts of the Magadi and Channapatna Taluks and that in some parts of the Kankanhalli Taluk, well-water is being used for their use.

KOLAR.

8. Market fairly supplied.

9. *Standing crops* are reported to be withering for want of rain in the Kyasamballi Hobli of the Bowringpet Taluk. Dry crops are affected with "Kunbuti Roga."

Crop sown.—Jola in Bowringpet and Goribidnur.

Crops harvested.—Ragi in all the taluks of the district, savè in Bowringpet, Sidlaghatta, Chikballapur, Bagepalli, and Srinivaspur; gid ragi in parts of Sidlaghatta and Goribidnur; sajje in Bagepalli; and sugar-cane in Goribidnur and Chikballapur.

Outturn of crops.—

Goribidnur—Ragi, yield 4 annas.
Sugar-cane, yield from 8 to 12 annas.
Chikballapur—Sugar-cane, yield from 2 to 4 annas.
Savè do 2 to 6 „
Sajje do „ „

10. Prospects of the season not satisfactory. Rain is very badly needed throughout the district for the standing crops. Food stuffs available, but their prices continue to be very high.

11. Except for cholera in the Srirangapur village of the Mulbagal Taluk, and plague in Bidiganahalli of the Chikballapur Taluk, public health generally good.

12. It is reported that "Rinderpest" is still prevailing in parts of the Mulbagal, Sidlaghatta, Bagepalli, Goribidnur and Srinivaspur Taluks. Water and fodder are available for the present.

12. Cattle are generally in fair condition. "Dod Roga" is still prevailing in parts of Hassan, Arkalgud and Belur. Pasture and fodder are generally available. In parts of the Channarayapatna and Arsikere Taluks, where grass is not sufficiently grown dry up grass is being used. It is reported that many cart-loads of paddy and ragi strow are being brought

TUMKUR.

8. Supply in market moderate.

9. *Standing crops.*—Dry crops have almost withered away in all the taluks. Paddy under wells in the Maddagiri and Pavagada Taluks is in modarately good condition.

Crops sown.—Bengal gram in the Maddagiri and Sira Taluks and the Turuvekere Sub-Taluk; cholum in the Maddagiri and Sira Taluks; wheat in the Maddagiri and Pavagada Taluks; and paddy under wells in the Sira Taluk.

Crops harvested.—Ragi in the Tumkur, Maddagiri, Chiknayakanhalli, Sira, Gubbi and Pavagada Taluks; and the Koratagere Sub-Taluk; cholum in the Maddagiri, Chiknayakanhalli, Tiptur and the Pavagada Taluks and the Koratagere Sub-Taluk; horse gram in the Chiknayakanhalli and Pavagada Taluks; castor in the Sira and Gubbi Taluks; and paddy in the Gubbi Taluk and the Turuvekere Sub-Taluk.

10. Prospects of the season are not satisfactory. Food stuffs are available for the present, but their prices continue to be high.

11. Except for plague in the villages of Aralghatta and Iraksandra in the Gubbi Taluk and small-pox at Sadarhalli, public health generally good.

12. Fodder is procurable in limited quantities in all the taluks, except the Tumkur Taluk and the Turuvekere Sub-Taluk. Date leaves and leaves of trees are being used as fodder in the Turuvekere Sub-Taluk. Water scarcity is being felt in several villages of the Tumkur, Gubbi and Pavagada Taluks. "Dod Roga" still prevails among cattle in certain villages of the Tumkur and Tiptur Taluks.

MYSORE.

8. The weekly markets in all the taluks are reported to have been sufficiently supplied with grain during the week.

9. *Agricultural operations.*—Lands in parts of the Gundlupet Taluk are being ploughed and made ready for sowing kar seeds.

Standing crops.—Dry crops are reported to be withering in most taluks for want of rain. Wet crops under some tanks in the Chamrajnagar Taluk are reported to be in good condition. But in the Nagamangala and Mandya Taluks, they are reported to be withering. Wet crops under river channels are generally in good condition.

Crops harvested.—Ragi in parts of the Mysore, Chamrajnagar, Nanjangud, T.-Narsipur and Malvalli Taluks; savé in parts of Malvalli and paddy in parts of Yedatore.

Estimated yield of standing crops :—

Malvalli—Ragi, yield 8 annas; paddy, yield 12 annas.

10. Prospects of the season good on the whole. The standing dry crops are in urgent need of rain in all parts of the district. Food stuffs are available with raiyats and merchants, but their prices are still high.

11. Except for plague in a few places, public health generally good.

12. Cattle are suffering from "Dod Roga" in parts of Mysore and Gundlupet and from "Chappe Roga" in parts of the Mysore, Yedatore, Krishnarajpete and Malvalli Taluks. In other parts, they are reported to be healthy. Water and fodder are, at present, available. Some State Forests in the Nagamangala Taluk have been thrown open for free grazing.

HASSAN.

8. Market fairly well supplied.

9. *Standing crops.*—Paddy, sugar-cane, avare, togari, chillies, etc., in Hassan; paddy in Manjarabad; paddy, black gram, kulthi, avare, togari, and castor in Arkalgud; paddy in low-lying lands in Belur; sugar-cane and paddy under channels; ragi, avare, kulthi, togari, castor and chillies in Channarayapatna; ragi, avare, kulthi, hutchellu, togari, castor and chillies in Arsikere; ragi, avare, togari kulthi, paddy and sugar-cane under channels in Hole-Narsipur; paddy in low-lying lands, sugar-cane and cereal crops in Alur—these are reported to be in fair condition.

Crops sown.—Bengal-gram and jola in Channarayapatna and Bengal-gram in Arsikere have been sown in beds of tanks in which there is no water.

Crops harvested.—Paddy, ragi and cardamom in Manjarabad; paddy in Belur and Alur and Dod ragi in parts of Arsikere and Hole-Narsipur are being harvested. The yield of paddy at Manjarabad is estimated from 8 to 12 annas.

10. Prospects of the season generally fair, but more rain is required throughout the district, and especially in parts of the Arsikere and Channarayapatna Taluks.

11. Except for plague in parts of the Hassan, Belur and Arsikere Taluks, public health is generally good.

and sold in the Arsikere Town. Some cattle from the Kunigal side are reported to have been brought to the Manjarabad Taluk for grazing purposes. Difficulty for water is felt in parts of the Arsikere and Channarayapatna Taluks, and steps are being taken to sink new wells and deepen old wells where necessary.

SHIMOGA.

8. Market well supplied.

9. *Standing crops, viz.*, paddy, ragi, jola, sugar-cane, togari, avare, cotton, wheat, coriander, Bengal-gram and horse-gram are in somewhat fair condition, especially in low-lying lands; whereas those in other localities failed for want of rain.

Crops harvested.—Ragi in portions of the Shimoga and Honnali Taluks; paddy in the Honnali and Sorab Taluks and the Kumsi Sub-Taluk; jola and save in the Honnali Taluk; and arecanut in the Sagar, Nagar and Tirthahalli Taluks—these are being harvested.

10. Prospects of the season are not fair as in previous years. Food stuffs are available for the present, but their prices are high.

11. Public health generally good. But plague continues still in the Shimoga Town, Honnali Taluk and the Kumsi Sub-Taluk.

12. Murrain prevails among cattle in the Honnali and Sorab Taluks. Water and fodder available for the present.

KADUR.

8. Market well supplied.

9. *Standing crops*:—

In Chikmagalur—Paddy, ragi, sugar-cane, avare, gingelly, coriander, kulthi, coffee and castor.

In Kadur—Paddy, ragi, avare, sugar-cane, wheat, togari, castor, jola, kulthi and chillies.

In Tarikere—Paddy, ragi, kulthi, avare, jola, togari, navane, baragu, coriander, gingelly, sugar-cane, green gram and black gram.

In Koppa—Paddy, sugar-cane, areca, pepper, cardamom, coffee, kulthi and ragi.

In Mudgere—Paddy, ragi, cardamom, sugar-cane and coffee.

In Yedahalli—Paddy, sugar-cane, areca and coffee.

In Sringeri—Areca and paddy.

Crops are reported to be withering for want of rain.

Crops harvested and their yield:—

Chikmagalur—Paddy yield 8 annas.
Kadur—Sugar-cane do
Tarikere—Paddy, ragi and jola.
Koppa—Paddy and areca, yield 8 annas.
Mudgere—Cardamom do
Yedahalli—Paddy and areca do
Sringeri—Paddy and areca.

10. Prospects of the season, which were showing signs hitherto of some slight improvement, have again been causing anxiety owing to want of rain. More rain is needed throughout the district. Food stuffs are available but their prices are very high.

11. Except for plague in certain villages of the Kadur and Tarikere Taluks, public health generally good.

12. Cattle are generally healthy. But "Dod Roga" still prevails in certain parts of the district. Water and fodder are again getting scanty, especially in the maidan parts. Date leaves are still being used for cattle in the Bidare hobli of the Kadur Taluk and some cattle have been taken from that taluk to the malnad parts for grazing purposes.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops.*—Such as ragi, navane, sajje, bili jola, horse-gram, Bengal-gram, castor, togari, avare, cotton and gingelly are reported to be generally withering for want of rain. But those under *kapile* wells and channels are in fairly in good condition. Throughout the district rain is urgently wanted for the standing crops.

Crops harvested and their yield—

Ragi in the Challakere and Holalkere Taluks, yield from 4 to 12 annas; jola, paddy, same and chillies in the Holalkere Taluk, yield from 4 to 12 annas.

10. Prospects of the season fair, except in parts of the Hiriyur, Challakere and Hosdurga Taluks, where the dry crops have entirely failed. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Holalkere Taluk, where "Rinderpest" prevails. Water and fodder available, except in parts of the Hosdurga, Hiriyur and Challakere Taluks.

BANGALORE,
25th November 1908

DISTRICT REPORTS.

8. Markets how supplied.

9 Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	7½	5¼ to 5½	seers per rupee.
	Ragi ...	19	9½ to 10	

Agricultural operations.—Ragi under harvest.

State of standing crops are withering for want of rain.

Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied for the present.

9. *Standing crops.*—Standing wet and dry crops have been withering for want of rain throughout the district. Sugar-cane in the Kankanhalli Taluk and punaji paddy in the Magadi Taluk have been reported to be fading. Ragi and paddy in portions of the Madhure and Dodbelavangala Hoblies of the Dodballapur Taluk are reported to have completely dried up.

Crops harvested.—Early sown ragi in all the taluks, and same in the Hoskote Taluk and kulthi in the Nelamangala Taluk are being harvested.

Probable outturn of harvests.—Ragi reported to be from 1 to 6 annas in some parts and from 4 to 12 annas in other parts of the Nelamangala Taluk; from 2 to 8 annas in the Hoskote Taluk and from 6 to 12 annas in the Anekal Taluk and the Closepet Sub-Taluk.

10. Prospects of the season are not very encouraging. Rainfall is insufficient throughout the district. Supply of foods sufficient for the present, but their prices continue to be high.

11. Public health generally good. But in some parts of the Magadi Taluk, people are reported to be suffering from fever and cold.

12. Cattle generally healthy for the present. But "Dod Roga" is still prevalent in the Kote Koppa village of the Kankanhalli Taluk. Fodder is available for the present though insufficiently in the Channapatna, Magadi, Nelamangala, Dodballapur and Devanhalli Taluks and the Closepet Sub-Taluk. In some parts of the Madhure Hobli, Dodballapur Taluk, cattle are reported to having been fed on standing crops, which became dried up. And in some parts of the Channapatna and Magadi Taluks, they are reported to being fed on green leaves.

KOLAR.

8. Market fairly well supplied.

9. *Standing crops* are reported to be withering throughout the district.

Crop sown.—Cholum in parts of Sidlaghatta and Goribidnur

Crops harvested.—Samè in Chintamani, Mulbagal, Chikballapur, Bagepalli, Goribidnur and Srinivaspur; sugar-cane in Goribidnur (under Kapilays) and Bagepalli; and ragi in almost all the taluks of the district.

Outturn of harvests.—

Samè—In Chintamani, yield 1 anna.
In Mulbagal, do 4 „
In Chikballapur, yield from 4 to 8 annas.
In Bagepalli, do 2 to 6 „
In Goribidnur, do 2 to 3 „
In Srinivaspur, yield 4 annas.

Sugar-cane—In Goribidnur, yield from 8 to 12 annas.
In Bagepalli, yield 12 annas.

Ragi, yield from 4 to 6 annas on the average.

10. Prospects of the season not satisfactory. Rain is very badly needed throughout the district. Food stuffs are available, but their prices continue to be very high.

11. Except for cholera in the Mudavatti village of the Kolar Taluk and a suspicious case of cholera in Malur town and small-pox in parts of Mulbagal, public health generally good.

12. It is reported that Rinderpest is still prevailing in parts of Mulbagal, Sidlaghatta, Bagepalli and Goribidnur. Water and fodder just sufficient.

TUMKUR.

8. Supply in market moderate.

9. *Standing dry crops*, are reported to have withered away in the Taluks of Tumkur, Maddagiri Chiknayakanhalli, Tiptur and Kunigal and also in the Koratagere Sub-Taluk. In other taluks, they are withering. Wet crops under wells in the Maddagiri and Pavagada Taluks are in good condition.

Crops sown.—Bengal gram and cholum in the Maddagiri, Chiknayakanhalli, Sira, Gubbi and Pavagada Taluks. Wheat in the Maddagiri and Pavagada Taluks. Paddy in the Sira and Pavagada Taluks; and Bengal gram in the Koratagere and Turuvekere Sub-Taluks.

Crops harvested.—Ragi in all the taluks except Pavagada and Kunigal; paddy in the Gubbi Taluk and the Turuvekere Sub-Taluk. Castor in the Chiknayakanhalli and Gubbi Taluks; cotton, til, and horse gram in the Pavagada Taluk; sugarcane in the Turuvekere Sub-Taluk; navane, haraka, save, tajje and baragu were harvested in certain parts of the Maddagiri, Sira, Gubbi, Tiptur and Pavagada Taluks.

10. Prospects of the season not satisfactory. Food-grains are available for the present, but their prices continue to be high.

11. Except for small-pox in certain villages of the Chiknayakanhalli and Maddagiri Taluks, public health generally good.

12. "Dod Roga" still prevails among cattle in the Tumkur and Tiptur Taluks. By the recent harvest of ragi, fodder is procurable in limited quantities in all the taluks, except portions of the Tumkur and Kunigal Taluks and Turuvekere Sub-Taluk. Water scarcity is being felt in several villages of the Tumkur, Tiptur and Pavagada Taluks. Date leaves and leaves of trees are being used as fodder in the Taluks of Chiknayakanhalli and Tiptur and the Turuvekere Sub-Taluk. Some cattle in the Kunigal Taluk are reported to have been taken to the Shimoga and Magadi Taluks for grazing purposes. Similarly, some raiyats in the Turuvekere Sub-Taluk have also taken their cattle to Coorg, Chikmagalur, Heggaddevankote and the Nilgiris.

MYSORE.

8. The weekly markets in all the taluks are reported to have been fairly well supplied with grain during the week.

9. *Agricultural operations.*—Lands in parts of the Gundlupet Taluk are being ploughed and made ready for sowing kar seeds.

Standing crops, and wet crops under tanks are reported to be withering for want of rain. Wet crops under river channels are generally in good condition.

Crops harvested.—Ragi and chillies in parts of Mysore; ragi in parts of Mandya and Chamrajnagar; paddy in parts of Seringapatam and Yedatore; horse gram, green gram and Bengal gram in parts of Gundlupet; ragi and togari in parts of T.-Narsipur; and ragi and same in parts of Malvalli.

Estimated outturn of crops:—

Seringapatam—Harvested paddy, yield 8 annas.
Do ragi, yield from 4 to 6 annas.
Gundlupet—Horse gram, green gram and Bengal gram, yield 2 annas.
Malvalli—Ragi and same, yield 8 annas.
Mandya—Ragi, yield from 4 to 6 annas.
Krishnarajpete—Paddy, yield 8 annas. Ragi, yield 4 annas. Horse gram, yield 8 annas.

10. Prospects of the season "indifferent" in certain parts and not good in others. The standing dry crops are in urgent need of rain in all parts of the district. Food grains are available with raiyats and merchants, but their prices are still high.

11. Except for plague in a few places, public health generally good.

12. Cattle are reported to be suffering from "Dod Roga" in parts of Mysore and Gundlupet and from "Chappe Roga" in parts of the Mysore, Yedatore and Malvalli Taluks. Fodder scarce in the Krishnarajpete and Nagamangala Taluks. In other parts, it is available for the present, tanks are gradually getting dry. Water is available at present for men and cattle, except in the Nagamangala Taluk.

HASSAN.

8. Market fairly well supplied.

9. *Standing crops.*—Paddy, sugar-cane, togari and avare in the Hassan Taluk; avare, kulthi, togari, castor, same and haraka in the Channarayapatna Taluk; ragi, avare, kulthi, etc., in the Arsikere Taluk; and the cereal crops in the Alur Sub-Taluk; all these are reported to be in need of rain. Paddy in the Manjarabad, Arkalgud, Belur and Hole-Narsipur Taluks and also in the Alur Sub-Taluk; black gram, avare, castor, togari, etc., in the Arkalgud, Belur and Hole-Narsipur Taluks all these are reported to be in fair condition.

Crops sown.—Bengal gram and jola in the Channarayapatna Taluk and Bengal gram in the Hassan and Arsikere Taluks are sown in beds of tanks in which there is no water.

Crops harvested.—Paddy in the Hassan, Manjarabad, Belur and Arkalgud Taluks; Dodragi in parts of Arsikere, Channarayapatna and Hole-Narsipur. The estimated yield of paddy in the Manjarabad Taluk is from 8 to 12 annas and in Belur from 8 to 10 annas.

10. Prospects of the season generally fair, but more rain is required throughout the district, more especially in parts of the Arsikere and Channarayapatna Taluks.

11. Except for plague in parts of the Hassan, Belur and Arsikere Taluks, public health generally good.

12. Cattle are generally in fair condition. "Dod Roga" is prevalent in the Manjarabad and Arkalgud Taluks. It is reported to be subsiding in the Hassan Taluk. Pasture and fodder are generally available. In parts of the Arsikere and Channarayapatna Taluks, where grass is not sufficiently grown, dug-up grass and jola stalks are being used. It is reported that many cart-loads of paddy and ragi straw are brought from the Hassan Taluk and sold in the Arsikere Town. It is also reported that some people from the Kunigal and other maidan taluks have come with a number of cattle for grazing purposes in the Manjarabad Taluk, 800 head of cattle from the Arsikere and Channarayapatna, Tiptur, Gubbi and Kunigal Taluks are reported to have been brought for grazing in the kavals of the Belur Taluk. Difficulty for water is felt in parts of the Arsikere and Channarayapatna Taluks and steps are being taken to sink new wells and deepen old ones, where necessary.

SHIMOGA.

8. Market supplied in moderate quantities.

9. *Standing crops, viz.*, Sugar-cane, wheat, Bengal gram Yannaigar, jola, cotton and avare are in pretty fair condition for the present, in the Shimoga, Honnali, Nagar and Tirthahalli Taluks; whereas in the Channagiri and Sagar Taluks they are withering for want of rain. The dry crops failed in the Sorab Taluk and in portions of the Shimoga, Channagiri, Honnali, Sagar and Nagar Taluks.

Probable outturn of crops.—

Sorab Taluk—Paddy, yield 10 annas.
Ragi, do 2 „
Horse-gram, yield 4 annas.
Jola do
Sugar-cane, yield from 10 to 12 annas.
Arecanut, yield 12 annas.

10. Prospects of the season are not so fair as in previous years, as there was untimely rainfall in all the Taluks except Tirthahalli. Food stuffs are available but their prices are rising.

11. Public health generally good. Plague is subsiding in the Shimoga Town.

12. Cattle are generally healthy. But Murrain is still prevailing in portions of the Honnali, Shikarpur and Sorab Taluks. Water and fodder are available for the present except in portions of Channagiri and Sorab Taluks where want of water is being felt.

KADUR.

8. Market well supplied.

9. *Standing crops*:—

In Chikmagalur—Paddy, ragi, sugar-cane, avare, gingelly, kulthi, coriander, jola, wheat, castor and coffee.

In Kadur—Paddy, jola, wheat, Bengal gram, ragi, avare, sugar-cane, chillies, castor, and togari.

In Tarikere—Paddy, ragi, kulthi, avare, jola, togari, navane, baragu, coriander, gingelly, sugar-cane, green gram and black gram.
In Koppa—Paddy, sugar-cane, areca, pepper, cardamom and coffee.
In Mudgere—Paddy, ragi, cardamom, sugar-cane and coffee.
In Yedahalli—Paddy, sugar-cane, areca and coffee.
In Sringeri—Paddy and areca.
Dry crops are reported to be withering for want of rain. Wet crops also need more rain.

Crop sown.—Bengal gram was sown in parts of the Tarikere Taluk, during the week

Crops harvested and their yield:—
In Chikmagalur—Paddy yield 4 annas, and ragi yield from 2 to 4 annas.
In Kadur—Sugar-cane yield 8 annas, ragi and chillies yield from 2 to 4 annas.
In Tarikere—Paddy, ragi and jola and chillies yield not given.
In Koppa—Areca and coffee yield 8 annas.
In Mudgere—Paddy yield 8 annas, and coffee yield 12 annas.
In Yedahalli—Paddy yield from 4 to 6 annas, and areca yield from 8 to 10 annas.
In Sringeri—Paddy and areca yield not given.

10. Prospects of the season not satisfactory. Rain is very badly needed throughout the district and especially in the maidan parts to save the situation. Supply of food stuffs sufficient for the present, but their prices continue to run high in the markets.

11. Except for plague in certain villages of the Kadur and Tarikere Taluks, public health generally good.

12. Cattle generally healthy. But "Dod Roga" still prevails in certain parts of the district. Water and fodder are getting scanty, especially in the maidan taluks of the district. Date leaves are still being used as fodder for cattle in certain villages of the Kadur Taluk and they have been taken from that taluk to the malnad parts for grazing purposes.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops*, such as ragi, jola, horse-gram, togari, avare, navane, castor, paddy, sugar-cane, Bengal-gram, cotton and gingelly are reported to be withering for want of rain in the district excepting those under *kapile* wells and channels, which are in fairly good condition.

Crops sown.—Bengal-gram.

Crops harvested.—Ragi and navane in the Chitaldrug, Challakere and Holalkere Taluks, yield from 2 to 12 annas; ragi in parts of the Hiriyur Taluk, yield 12 annas; jola in the Chitaldrug, Holalkere Taluks, and the Harihar Sub-Taluk, yield from 2 to 10 annas; paddy in the Chitaldrug and Holalkere Taluks, yield from 4 to 8 annas; same and sajje in the Challakere Taluk, yield from 2 to 8 annas; sugar-cane in the Chitaldrug Taluk, yield from 4 to 8 annas; chillies in the Davangere Taluk and the Harihar Sub-Taluk, yield from 4 to 8 annas; cotton gingelly and Bengal-gram in the Harihar Sub-Taluk, yield from 4 to 10 annas. Rain is urgently required for the standing crops throughout the district.

10. Prospects of the season fair, except in parts of the Hiriyur, Challakere and Hosdurga Taluks. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Holalkere Taluk, where "Rinderpest" prevails. Water and fodder available, except in parts of the Hosdurga, Hiriyur and Challakere Taluks.

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	7½	5¼ to	seers per rupee.
	Ragi ...	19	9½ to 10	

Agricultural operations.—Paddy under harvest.

Standing crops are withering for want of rain.

Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Market well supplied for the present.

9. *Standing crops.*—Hingar standing wet and dry crops are reported to be withering throughout the district for want of rain. Sugar-cane is reported to be withering in the Devanhalli and Kankanhalli Taluks.

Crops harvested.—First sown ragi is reported to have been harvested in the Bangalore, Nelamangala, Kankanhalli, Anekal and Devanhalli Taluks. First sown ragi in the taluks of Channapatna and Hoskote and in the Closepet Sub-Taluk, kulthi in the Nelamangala and Magadi Taluks, samè in the Hoskote Taluk and doddi paddy in the Magadi Taluk, are be harvested.

Estimated outturn of harvests.—

Nelamangala Taluk.—Ragi, yield from 1 to 6 annas in some parts and from 4 to 12 annas in other parts.

Anekal Taluk and Closepet Sub-Taluk.—Ragi, yield 6 to 12 annas.

Devanhalli Taluk.—Ragi, yield from 2 to 8 annas.

Parts of Channapatna Taluk.—Ragi, yield less than 2 annas.

10. Prospects of the season are not encouraging. Rainfall has been insufficient throughout the district. Food stuffs are available, but their prices are reported to be high.

11. Public health generally good. But plague in some parts of the Kankanhalli Taluk and fever and cold in some parts of the Magadi Taluk are still prevailing.

12. Except for "Dod Roga" prevailing in the Bidadi Hobli, Closepet Sub-Taluk, and in parts of the Kankanhalli Taluk, cattle generally healthy. Supply of fodder insufficient in parts of the Dodballapur, Devanhalli, Nelamangala, Magadi and Channapatna Taluks and the Closepet Sub-Taluk. Dried up standing ragi crops in the Madure Hobli, Dodballapur Taluk, it is reported have been allowed to be fed on by cattle. In parts of Dodballapur and Devanhalli and in the Closepet Sub-Taluk, water is obtainable with difficulty.

KOLAR.

8. Market fairly well supplied.

9. *Standing wet and dry crops* have been withering throughout the district for want of rain.

Crops sown.—Bengal gram in beds of tanks in Bowringpet, Chintamani and Sidlaghatta and cholum also in beds of tanks in parts of Sidlaghatta, Goribidnur and Gudibanda.

Crops harvested.—Sugar-cane in Bagepalli, Goribidnur and Gudibanda; samè in Mulbagal, Bagepalli and Goribidnur; paddy in parts of Bowringpet; gid ragi in Bagepalli, Goribidnur and Gudibanda; and ragi in almost all the taluks of the district.

Outturn of harvests.—

Samè	in Mulbagal,	yield	4 annas.
Do	in Bagepalli,	yield from	2 to 6 annas.
Do	in Goribidnur,	do	2 to 3 „
Paddy	in Bowringpet,	do	8 to 10 „
Gid ragi	in Bagepalli,	do	8 to 12 „
Do	in Goribidnur,	do	
Do	in Gudibanda,	do	

Sugar-cane in Bagepalli, Goribidnur and Gudibanda, yield from 8 to 12 annas.

Ragi, yield from 4 to 6 annas.

10. Prospects of the season not satisfactory. Rain is very badly needed throughout the district. Food stuffs available, but their prices continue to be very high.

11. Except for cholera in the Mudavatti village, Kolar Taluk, plague in two villages of the Kolar Taluk and small-pox in parts of Mulbagal, public health generally good.

12. It is reported that Rinderpest is still prevailing in parts of Mulbagal, Sidlaghatta, Goribidnur, Bagepalli and Gudibanda. Water and fodder sufficient for the present.

TUMKUR.

8. Supply in market moderate.

9. *Standing crops* are reported to have withered away in the taluks of Tumkur, Maddagiri, Chiknayakanhalli, Tiptur and Kunigal and in the Turuvekere Sub-Taluk. In other taluks they are withering. Wet crops under wells in the Maddagiri and Pavagada Taluks are in good condition.

Crops sown.—Cholum and Bengal gram in the Maddagiri, Sira, Gubbi and Pavagada Taluks and the Koratagere Sub-Taluk; Bengal gram in the Kunigal Taluk and the Turuvekere Sub-Taluk; and paddy under wells in the Maddagiri and Pavagada Taluks.

Crops harvested.—Ragi in all the taluks, except Kunigal; paddy in the Maddagiri, Sira and Gubbi Taluks, and the Turuvekere Sub-Taluk; castor in the Chiknayakanhalli and Gubbi Taluks; paddy in the Maddagiri, Sira and Gubbi Taluks and the Turuvekere Sub-Taluk; horse gram in the Chiknayakanhalli and Pavagada Taluks; sugar-cane in the Sira Taluk and the Turuvekere Sub-Taluk; and navané, baragu, samé and haraka, in certain parts of the Maddagiri, Sira, Gubbi and Tiptur Taluks.

10. Prospects of the season not satisfactory. Food stuffs are available for the present, but their prices continue to be high.

11. Except for small-pox at the villages of Sadarhalli and Madanamadu in the Chiknayakanhalli Taluk, public health generally good.

12. "Dod Roga" still prevails among cattle in the Tumkur, Gubbi and Tiptur Taluks and the Turuvekere Sub-Taluk. Owing to ragi and other crops having been harvested recently, fodder is procurable in limited quantities in all the taluks, except in portions of the taluks of Tumkur and Kunigal and the Sub-Taluk of Turuvekere. Date leaves and leaves of trees are being used as fodder in the taluks of Chiknayakanhalli and Tiptur and the Turuvekere Sub-Taluk. Water scarcity is being felt in several villages of the Tumkur, Tiptur and Pavagada Taluks. It is reported that some cattle from the Turuvekere Sub-Taluk have been taken to Coorg,, the Nilgiris, Tarikere, Shimoga and Heggaddevankote.

MYSORE.

8. Market fairly well supplied.

9. *Agricultural operations.*—Lands in parts of the Gundlupet Taluk are being ploughed and made ready for sowing kar seeds.

Standing crops.—Dry and wet crops under tanks are reported to be withering for want of rain. Paddy under some tanks in the Chamrajnagar Taluk is reported to be in good condition. Wet crops also under river channels are generally in good condition.

Crops harvested.—Hain ragi in parts of the Mysore Taluk; ragi and togari in parts of the Chamrajnagar and T.-Narsipur Taluks; paddy and ragi in parts of the Seringapatam Taluk; and paddy in parts of the Hunsur, Yedatore and Krishnarajpete Taluks.

Estimated outturn of crops :—

Hunsur Taluk—Paddy, yield 12 annas.
Gundlupet Taluk—Harvested ragi, yield from 6 to 8 annas.
Malvalli Taluk—Harvested ragi and samè, yield 8 annas each.
Krishnarajpete Taluk—Paddy, yield 12 annas.
Do Ragi, yield 4 annas.

10. Prospects of the season indifferent in certain parts and not good in others. The standing dry crops are in urgent need of rain in all parts of the district. Food grains are available with raiyats and merchants, but their prices are still high.

11. Except for plague in a few places in the district, public health generally good.

12. Cattle are suffering from "Dod Roga" in parts of the Mysore, Chamrajnagar, Heggaddevankote and Gundlupet Taluks, and from "Sappe Roga" in parts of the Mysore, Yedatore and Malvalli Taluks. Fodder scarce in the Krishnarajpete and Nagamangala Taluks. In other parts, it is available for the present. Tanks are running dry. Water is available at present for men and cattle, except in the Nagamangala Taluk.

HASSAN.

8. Market fairly well supplied.

9. *Standing crops.*—Avare, hurali, togari, castor, haraka, etc., in the Channarayapatna Taluk and ragi, avare, kulthi, etc., in the Arsikere Taluk, are reported to require rain urgently. Ragi, avare, kulthi, etc., in the Alur Sub-Taluk; and black gram, castor, avare, etc., in the Hassan, Arkalgud, Hole-Narsipur and Belur Taluks are reported to be in need of rain; and paddy, and sugar-cane, under channels in the Hole-Narsipur Taluk are reported to be in good condition.

Crops sown.—Bengal gram and jola in the Belur and Channarayapatna Taluks are sown in beds of tanks in which there is no water.

Crops harvested.—Paddy in the Hassan, Manjarabad, Belur, Channarayapatna, Arkalgud and Hole-Narsipur Taluks and the Alur Sub-Taluk; sugar-cane in the Hassan and Channarayapatna Taluks; togari in the Hassan and Hole-Narsipur Taluks; and Dod ragi in parts of the Arsikere, Channarayapatna and Hole-Narsipur Taluks; these are being harvested.

10. Prospects of the season generally fair, but rain is required throughout the district, and more especially in parts of the Arsikere and Channarayapatna Taluks.

11. Except for plague in parts of the Hassan and Channarayapatna Taluks, public health generally good.

12. Cattle are generally in fair condition. "Dod Roga" is prevalent in the Manjarabad and Arkalgud Taluks. It is reported to be subsiding in the Hassan Taluk. Pasture and fodder are generally available. In parts of the Arsikere and Channarayapatna Taluks, where grass is not sufficiently grown, dug-up grass and jola stalks are being used. It is reported that many cart-loads of paddy and ragi straw are being taken to Arsikere from the Hassan Taluk for being sold there. It is also reported that some people from Kunigal and other maidan taluks have gone with a number of cattle for grazing purposes to the Manjarabad Taluk. It is reported that 356 head of cattle (besides the 800 referred to in the last week's report) from the Arsikere and Channarayapatna Taluks as also from the taluks of Tiptur, Gubbi and Kunigal have been brought during the week to the Belur Taluk, for grazing in the kavals there. Difficulty for water having been felt in parts of the Arsikere and Channarayapatna Taluks, estimates amounting to Rs. 950 and Rs. 1,550, respectively, have been sanctioned for sinking wells in these two taluks.

SHIMOGA.

8. Supply in markets is moderate.

9. *Standing crops.*—Cotton and horse gram in the Shimoga Taluk; togari and avare in the Shimoga and Honnali Taluks; sugar-cane in all the taluks; and paddy in the Shimoga, Shikarpur, Sorab, Sagar, Nagar and Tirthahalli Taluks; these are in fair condition; but they are in need of more rain.

Crops harvested.—Paddy in portions of the Shimoga, Honnali, Sagar, Nagar and Tirthahalli Taluks; ragi in the Shimoga and Channagiri Taluks; jola in the Channagiri and Honnali Taluks; mustard, chillies, navane and koresane in the Honnali Taluk; and arecanut in the Tirthahalli and Nagar Taluks; these are being harvested. Sugar-cane is being milled in portions of the Channagiri Taluk.

Probable outturn of crops—

Shimoga Taluk—Paddy and ragi, yield from 4 to 8 annas.
Channagiri Taluk—Paddy, yield 8 annas.
Jola, do
Ragi, yield from 4 to 8 annas.
Honnali Taluk—Paddy and jola, yield 8 annas.
Shikarpur Taluk—Paddy and sugar-cane, yield 8 annas.
Dry crops, yield 3 annas.
Sagar Taluk—Paddy, yield 8 annas.
Nagar Taluk— Do
Tirthahalli Taluk— Do
Kumsi Sub-Taluk— Do
Ragi, yield 8 annas.

10. Prospects of the season are not so fair as in previous years, owing to want of rains. Food stuffs are available in limited quantities but their prices are still on the rise.

11. Except for plague prevailing in the Shimoga town and in the Kumsi Sub-Taluk, public health generally good.

12. Cattle generally healthy. But Murrain prevails among them in the Honnali and Sagar Taluks. Water and fodder available for the present. But their want is likely to be felt in the near future.

KADUR.

8. Market well supplied.

9. *Standing crops*:—

In Chikmagalur—Paddy, ragi, avare, gingelly, castor, kulthi, coriander, jola, sugar-cane, wheat and coffee.

In Kadur—Paddy, ragi, jola, sugar-cane, avare, Bengal gram, chillies, wheat, kulthi, navane and savè.

In Tarikere—Paddy, ragi, kulthi, avare, jola, togari, navane, baragu, coriander, gingelly, sugar-cane, green gram and black gram.

In Koppa—Paddy, sugar-cane, areca, coffee and pepper.

In Mudgere—Paddy, ragi, cardamom, sugar-cane and coffee.

In Yedahalli—Paddy, sugar-cane, areca and coffee.

In Sringeri—Paddy and areca.

Standing wet and dry crops have been withering for want of rain.

Crops harvested and their yield:—

In Chikmagalur—Paddy, yield from 4 to 12 annas.
Do Ragi do 2 to 4 „
Do Coffee do 4 to 8 „

In Kadur—Ragi, savè, paddy, chillies, navane, jola and sugar-cane, yield not given.

In Tarikere—Paddy, ragi and jola, yield not given.

In Koppa—Paddy, arecanut and coffee, yield 8 annas.

In Yedahalli—Paddy, yield from 4 to 6 annas.
Do —Areca, yield from 8 to 10 „

In Sringeri—Paddy and areca, yield not given.

10. Prospects of the season not satisfactory. Rain is urgently needed throughout the district and especially in the maidan parts to save the situation. Supply of food stuffs sufficient for the present, but their prices are very high.

11. Except for plague in certain villages of the Kadur and Tarikere Taluks, public health generally good.

12. Cattle generally healthy. Water and fodder are available in the malnad; but difficulty is felt in procuring them in the maidan parts of the district. In some parts of the Kadur Taluk, cattle are being fed on dried up standing crops and date leaves.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops*, such as ragi, jola, cotton, navane, avare, togari, paddy, sugar-cane, castor, Bengal gram and horse-gram, are reported to be generally withering for want of rain. But those under *kapile* wells and channels are in fairly good condition. Rain is urgently wanted for the standing crops throughout the district.

Crops sown.—Bengal gram in the Challakere, Holalkere and Davangere Taluks; and jola, navane and wheat in the Challakere Taluk.

Crops harvested and their yield.—Ragi, navane and sajje in the Chitaldrug, Challakere and Molakalmuru Taluks, yield from 2 to 8 annas; togari in the Chitaldrug and Holalkere Taluks, yield from 2 to 8 annas; jola in the Chitaldrug and Molakalmuru Taluks, yield from 2 to 8 annas; navane in the Holalkere Taluk, yield from 4 to 8 annas; samè in the Chitaldrug and Challakere Taluks, yield from 2 to 8 annas; horse gram in the Challakere, Holalkere and Chitaldrug Taluks, yield from 2 to 8 annas; paddy, sesamum, sugar-cane and cotton in the Chitaldrug Taluk, yield from 4 to 8 annas; chillies and hutchellu in the Holalkere Taluk, yield from 4 to 8 annas.

10. Prospects of the season fair, except in parts of the Hiriyur, Challakere and Hosdurga Taluks. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug and Holalkere Taluks, where Rinderpest prevails. Water and fodder available, except in parts of the Hosdurga, Hiriyur and Challakere Taluks.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,
Dated Bangalore, the 8th December 1908.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter dated the 23rd November 1908, from the Secretary to the Carnival Committee of the South Indian Athletic Association, Limited, Madras, regarding the Exhibition of Indigenous Industries at the Carnival of Sports and Amusements to be held at Madras from the 26th December 1908 to the 2nd January 1909 with copies of the prospectus and rules thereof.

No. R. 3501—*Agri.* 87-08-2, *dated 2nd December* 1908.

ORDER THEREON—The prospectus and rules of the proposed Exhibition of articles of indigenous manufacture will be published in the *Mysore Gazette.*

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

Exhibition of Indigenous Industries.

Under the auspices of the S. I. A. Association, Limited, Madras.

AT THE

CARNIVAL OF SPORTS AND AMUSEMENTS, MADRAS.

The Committee of the Carnival of Sports and Amusements to be held from 26th December 1908 to 2nd January 1909, both days inclusive, having decided to make an Exhibition of articles of indigenous manufacture one of the features of the Carnival will be glad to receive exhibits.

A large piece of ground is being specially reserved for the Exhibition upon which temporary structures will be erected for the display of Exhibits. Everything possible will be done by the Committee to protect exhibitors from damage to or loss of exhibits and as the Carnival has been daily attended for the past four years by some 20,000 to 40,000 people, it offers exceptional advantages to manufacturers to make their Special Industries known to the people of Southern India.

The exhibits will be arranged under the following heads.

GROUP I.—Textile Fabrics.

Gold and silver thread and imitation gold and silver thread.

Cotton fibre, silk and woollen cloths, for men or women, rugs, blankets, kumblies, table cloths, carpets, shawls, gold and silver lace cloths (for men or women).

Hosiery; gold, silver and silk embroidery, knitted work, crochet work, lace work, cocoanut fibre, coir ropes, mats, etc.

GROUP II.—Leather Goods.

Harness, boots, saddles, Gladstone and other bags.—Book-bindings, etc.

GROUP III.—Pottery.

Enamelled art and other pottery, porcelain pipes, vessels, etc.

Plaster work, moddelling, figures, casts, vases.

GROUP IV.—Metals.

Brass, bronze, German silver and other alloys, lead, tin and aluminium ware.

Iron ware, cutlery, hardware, etc.

Copper vessels, wires, etc.

Locks, hinges, safes, etc.

Turned and engraved work, hammered ware, inlaid work.

Fancy metal goods, enamelled ware, silver and gold work; cheap jewellery, plain and set with precious stones, etc.

GROUP V.—Chemical Industries.

Attars, perfumes, perfumed oils, powders, cosmetics.

Paints, varnishes, pastes, glues, inks, etc.

Candles, soaps, matches, etc.

GROUP VI.—Furniture and Decorations.

Furniture, carved wood-work, upholestery, screens, curtains, corner pieces, marble work, brackets, boxes, etc.

GROUP VII.—Vegetable and Animal Products.

Fruits and *vegetable* products.

Tea, coffee, cocoa, cardamom, ginger, sugar (raw and refined), etc.

Tobacco, cigarettes, cheroots, etc.

Preserved food and provisions, jams, jellies, flours, preserved fruits, chutney, curry powders, etc.

GROUP VIII.—Miscellaneous.

Sporting goods and toys, etc.

Basket work, cane work, bamboo work, grass and leef work, and shell work, etc.

The Committee will appoint Special Judges for the articles under the several groups and will award *Gold* and *Silver* Medals to the first and second best exhibitors in each group.

Cards should be attached to each of the exhibits containing the name and address of the exhibitor, and the price of the article.

Exhibitors must send their own Agents to be in charge of their articles and to act as salesmen.

Space for exhibits will be allotted by the Honorary Secretary on application to him and on payment of the prescribed fee.

Intending exhibitors are requested to apply early to avoid disappointment.

RULES.

1. The Committee will appoint Special Judges for adjudging between exhibits in each class and will award Gold and Silver Medals to the first and second best exhibitors in each group.

2. Cards should be attached to each of the exhibits containing the name and address of the exhibitors and the price of the article.

3. Exhibitors must send their own Agents to be in charge of their articles and to act as salesmen.

4. Articles sold, except fruit, should not be delivered to purchasers until after the exhibition is declared closed.

5. The Committee will provide temporary structures for the display of exhibits. These structures, though temporary, will be such as to protect exhibits from damage.

6. The exhibition will last from the 26th December 1908 to the 2nd January 1909, both days inclusive, and will open daily at 7 A.M. and close at 11 P.M.

7. Watchmen will be provided by the Committee to assist exhibitors or their Agents in safeguarding their stalls, but beyond this, the Committee will accept no responsibility.

8. Separate structures will, as far as possible, be provided for exhibits under each group. Each exhibitor should pay for and obtain separate allotments of space in the structures set apart for exhibits under each group so that all his exhibits under the group be arranged as a separate show room or stall. It is also in contemplation to award a prize for the best decorated stall.

9. Exhibitors will be allowed admission tickets to the grounds and to the exhibition enclosure. A limited number of admission tickets for the subordinates or servants of exhibitors will, according to requirements and at the discretion of the undersigned, be also provided.

10. The charges payable for space to be allotted to exhibitors will be on a scale ranging from two annas to three annas per square foot. For special terms and further information, application should be made to the undersigned.

11 Applications for space should be submitted in the enclosed form to the Honorary Secretary, Carnival Committee, before the 10th December after which date allotments of space will be made to those remitting the necessary fees.

12. All exhibits should reach by 22nd December 1908, or earlier if possible, but exhibits of perishable articles such as fruit, etc., may reach by 25th December.

FRED: RODGERS,

Hony Secy., Carnival Committee.

November 1908.

To—The Honorary Secretary, Carnival Committee, S. I. A. Association, Limited, People's Park, Madras.

Dear Sir,

Please allot me.....square feet of space for the following exhibits under group

I forward herewith cheque for Rupees..... ..... in payment of space for ground

Yours faithfully,

N.B.—Only 10 lineal feet of space will be allowed for depth or breadth and as much as may be required in length.

OFFICIAL MEMORANDUM.

No. R. 3573—*Agri.* 84-08-2, *dated* 4th *December* 1908.

The following papers relating to the Agricultural and Industrial Exhibition and Cattle Show to be held by the Zamindar of Ettaiyapuram Samsthanam at Kovilpatti in the Tinnevelly District, during March 1909, are herewith published for the information of the public.

By Order,

K. S. CHANDRASEKHARA AIYAR,

Sec. to Govt., Gen. and Rev. Depts.

THE ETTAIYAPURAM SAMSTHANAM EXHIBITION AND CATTLE SHOW, 1909.

Notice.

1. The Zamindar of Ettaiyapuram proposes to hold, on 15th March 1909, an Agricultural and Industrial Exhibition and Cattle Show at Kovilpatti, Tinnevelly District. With a view to make it thoroughly successful and useful, it is further proposed to have lectures and demonstrations and to keep the exhibition open for a week and the show for four days.

2. All articles of indigenous growth or manufacture and natural or agricultural products from all parts of India, will ordinarily be admitted to the Exhibition. Tools, implements and machinery of foreign manufacture used or likely to be used for starting or developing indigenous industries will be accepted, as also foreign products that may, in the opinion of the Exhibition authorities, serve as useful models for imitation.

3. The exhibition and show are proposed to be held at Kovilpatti instead of at Ettaiyapuram, as Kovilpatti is a Railway Station with good water-supply and other conveniences and is also the site of a Government Agricultural Farm.

4. Housing and boarding will be available at Kovilpatti for exhibitors and visitors, but each person must make his own arrangements. Efforts will be made to afford facilities to exhibitors in the matter of conveying, arranging, advertising and removing their exhibits, and exhibitors will be permitted to use the exhibition buildings for a week after the close of the exhibition for sale of their exhibits.

5. Accommodation, fodder and water will be supplied gratis to cattle admitted to the show. Arangements will be made for holding a general cattle fair, directly after the cattle show closes, to facilitate sales of exhibited cattle.

6 Intending exhibitors should notice the date at which the show is held and so cultivate their crop that the exhibits would be at their best at the time of the show.

7. Pure and not mixed samples of seeds or grains, etc., should be exhibited. Thus, in the case of cotton, the exhibits should be pure samples of the kind, *e.g.*, Uppam, Karunganni, etc. To ensure this, exhibitors should take care to sow only pure seed in their fields. Pure seed can be got on application to the Superintendent, Government Farm, Kovilpatti and similar Government Farms.

8. Prizes will be awarded as may be determined by competent Judges appointed for the purpose, and every encouragement will be given to new efforts and experiments.

9. If any tenant of the Ettaiyapuram Estate wins a prize, the value of the prize will be increased.

10. Rules for the guidance of exhibitors and others and a list of the classes of products, articles and cattle, to be exhibited are appended. Attention is invited to the special prizes offered to the Tinnevelly District.

SPECIAL PRIZES.

11. Early intimation of the exhibition is given so that raiyats may know that special notice will be taken of new agricultural methods and products, and suitable rewards given.

12. Special prizes confined to the district, will be given for the best exhibit of—

(1) Fodder cholum.
(2) Cotton.
(3) Ground-nut.
(4) Maize.
(5) Fodder grasses, *e.g.*, guinea grass.

13. Exhibitors of the abovementioned special products should advise the Dewan of Ettaiyapuram before January 15th, 1909, so that the crops may be inspected. The produce of the crops must also be exhibited.

14. Raiyats of villages within three miles of Kovilpatti, who grow such crops will get special prizes. The crops need not be cut but will be judged *in the field*. Notice of intention to compete must be given to the Dewan not later than January 15, 1909.

ETTAIYAPURAM SAMSTHANAM EXHIBITION AND CATTLE SHOW, 1909.

Rules for the Guidance of Exhibitors and others.

The exhibition will be opened on the 15th March 1909, and it will continue for a week being open every day, except Sundays, from 7 A.M. to 6 P.M. The Cattle Show will be restricted to four days.

2. The exhibition authorities reserve to themselves the right of allotting or refusing space for and admitting or rejecting any particular exhibit and of revoking any pass given hereunder.

3. Each intending exhibitor is requested to apply to the Dewan of Ettaiyapuram not later than the 10th February 1909, for the allotment of the space required.

4. Exhibitors or their agents may, if they choose, bring their exhibits personally.

5. Exhibits may be sent to the Dewan of Ettaiyapuram, camp Kovilpatti, and when so sent, should be carefully packed. Each package should be accompanied by a list of the exhibits sent and should show the name and residence of the sender. In the case of valuable exhibits, exhibitors must bring them personally or send them by their agents.

6. Exhibits will be received every day from the 15th of February till five days before the commencement of the exhibition. But perishable articles such as fruits, vegetables, greens and dairy produce will be received up to 6 P.M. on the day preceding the opening of the exhibition.

7. On receipt of exhibits each exhibitor will be given a pass, showing his register number and the space allotted to him.

8. If the space allotted to an exhibitor be not occupied by him in proper time, the exhibition authorities may, at their discretion, otherwise dispose of that space.

9. The exhibition authorities will guard the premises of the Exhibition, and will afford facilities, as far as possible, to the exhibitors in connection with the transport, display and preservation of their exhibits. They do not, however, hold themselves responsible for any damage or loss, howsoever occurring.

10. The exhibition authorities will provide ordinary stalls for the display of the exhibits but any arrangement requiring special construction, stands, cases, stalls, shelves, etc., and the mounting of machinery and apparatus and any special decoration of stalls should be carried out by the exhibitors at their own cost, but in accordance with plans approved of by the exhibition authorities. The exhibition authorities will, as far as possible, make arrangements for the above, provided that application for it is made in time and the estimated costs are paid in advance.

11. If any exhibitor requires motive power or any other special accommodation for the display of his exhibits, special mention should be made of the same in his first application for allotment of space.

12. The exhibition authorities will, on application, give passes to any assistants or servants who, in their opinion, are necessary for attendance at the stalls of any exhibitor.

13. Gold, silver, nickel or bronze medals, improved agricultural implements, money prizes or certificates of merit will be awarded to exhibits according to the decision of the Judges.

14. Exhibits are not to be removed by the exhibitors from the exhibition grounds during the exhibition, but must be removed within seven days after the close of the exhibition, after which period they will be removed and kept at the risk and expense of the exhibitor. Any exhibit not claimed and removed by the exhibitor within a fortnight after the close of the exhibition will be sold, and the proceeds disposed of at the discretion of the exhibition authorities.

15. Exhibits may be sold during the exhibition, but they shall not be removed till after the close of the exhibition.

16. Exhibitors who are unable to attend in person or send their agents may arrange for the return of their goods on payment in advance of the estimated costs and charges.

17. The Dewan of Ettaiyapuram may, in his discretion, cause or permit the removal of any exhibit from the exhibition grounds.

18. The Dewan of Ettaiyapuram may alter or revoke or add to the present rules. Due notice of every such change will be given.

19. All who become exhibitors shall be held by so doing to signify their compliance with these rules and any other rules that may be issued from time to time.

20. Admission into the exhibition grounds shall be only by tickets.

21. The exhibits will be arranged in suitable places by the exhibition authorities and the exhibitors are bound by such arrangements.

N. B.—All communications should be addressed to the Dewan of Ettaiyapuram.

THE ETTAIYAPURAM SAMSTHANAM EXHIBITION AND CATTLE SHOW, 1909.

GROUPS AND CLASSES OF EXHIBITS.

GROUP I.

CLASS I. FIELD PRODUCE.

(a) Cereals of grains—

1. Paddy.
2. Cholum.
3. Kambu.
4. Ragi.
5. Samai.
6. Tinai.
7. Varagu.
8. Maize.
9. Kadaikkanni.
10. Kudiraivali.

(each two measures.)

(b) Pulses—

1. Dhall (Red gram.)
2. Horse gram.
3. Bengal gram.
4. Black gram.
5. Green gram.
6. Cow gram.
7. Beans.
8. Other edible pulses, such as, Kallupayaru (aconitifolius) Vaiyalupayaru (Field gram) etc. (Each one measure.)

(c) Oil and oil-seeds—

1. Gingelly.
2. Gingelly oil.
3. Castor.
4. Castor oil.
5. Iluppai seeds.
6. [illegible] oil.
7. [illegible]nd-nut.
8. [illegible]nd-nut oil.
9. [illegible]ower.
10. Saffl[illegible]ower oil.
11. Cocoan[illegible]
12. Do oil.
13. Collection of other oil seeds & oils. (Seed one measure and oil one bottle.)

CLASS II. GARDEN PRODUCTS.

1. Sugarcane. (20 canes.)
2. Collection of varieties of sugarcane, six canes of each kind.
3. Tobacco—raw and cured—5 lbs. of each kind.
4. Arecanuts—5 lbs.
5. Betel leaves—500 leaves.
6. Cocoanuts—a bunch.
7. Ginger—Green—one lb.
8. Arrow root—lb.
9. Tamarind.—lb.
10. Best collection of spices and condiments—one lb. each.
11. Best collection of cardamom—one lb.

CLASS III. VEGETABLES AND FRUITS.

1. General collection of indigenous vegetables.
2. Do Exotic.
3. Do indigenous fruits.
4. Do Exotic.

CLASS IV. DYES.

1. Collection of vegetable dyes.
2. Best variety of cotton yarn dyed with vegetable dyestuffs.

CLASS V. FOREST PRODUCTS.

1. Soap nuts—one lb.
2. Siyakai. one lb.
3. Collection of gums and resins—one lb. each.
4. Collection of tanning materials—Do.
5. Medicinal plants, roots, leaves and flowers (1 lb. in each case.)
6. Collection of timbers and ornamental woods. (one best specimen of each.)

CLASS VI. SUGAR, HONEY, BEES WAX, etc.

1. Sugarcane jaggory.
2. Palmyra Jaggory.
3. Jaggory made from other plants.

} one lb.

4. Native refined sugar.
5. Sugarcandy. (Palmyra.)

} one lb.

6. Honey in combs—one or two combs.
7. Honey run.—one bottle.
8. Bees wax.—one lb.

CLASS VII. DAIRY PRODUCTS.

CLASS VIII. FIBRES.

1. Cotton (Herbaceous.)—5 lbs.
2. Do.—tree.
3. Collection of cottons—each 2 lbs.
4. Sunnhemp.—5 lbs.
5. Aloe.—5 lbs.
6. Roselle—5 lbs.
7. Collection of other fibres.—each 2 lbs.
8. Silk. (Cocoons and reeled silk.)

CLASS IX. FODDER PLANTS.

1. Collection of grasses.
2. Do of other fodder plants.
3. Hay.
4. Straw.

CLASS X. MANURES.

1. Collection of oilcakes and other fertilizers of vegetable origin.
2. Collection of fertilizers of animal origin.
3. Best collection of fertilizers.

GROUP II.

Agricultural implements and machines.

1. Ploughs, harrows, seed drills, chaff cutter, etc.
2. Water-lifts.
3. Sugarmill.
4. Other machinery suitable for prearping agricultural produce for the market.

GROUP III.

Industrial Section.

I. Machines, implements and tools—

1. Any machine or implement (other than textile machines) likely to materially improve existing local industries.
2. Any machine or implement likely to develope a desirable new industry.
3. The best exhibit of any set of tradesman's tools.

Textile Section.

II. (*a*) Machines—

1. Sizing and Warping machines.
2. Hand looms.
3. Improved silk reeling machines.
4. Fibre extracting machines for ordinary hand power.

(*b*) Yarns and fabrics—

1. Cotton yarns.
2. Flax and hemp, plantain, etc., yarns.
3. Cotton goods. { (*a*) for wearing apparel. (*b*) carpets, towels, etc.
4. Woollen goods. { (*a*) for wearing apparel. (*b*) blankets, rugs, etc.
5. Silk and lace goods.
6. Cloths from other fibres.
7. Ropes.
8. Coir mats.
9. Grass mats.
10. Rattan and bamboo mats.

III. (*a*) Iron and steel—

1. Cutlery (knives, etc.)
2. Locks, bolts, etc.
3. Safes
4. Springs and carriage accessories—

(*b*) Brass copper, bell metal, silver ware, etc., works.

(*c*) Miscellaneous—

1. Leather, paper and horn works.
2. Pottery and porcelain works, *e.g.*, vessels, bricks, tiles, etc.
3. Articles manufactured from mica, etc.
4. Furniture.
5. Fine Arts, (Carving, painting, etc.)

GROUP IV.

Live-stock.

I. Bulls—

2. Bulls for breeding purposes with 6 to 8 teeth.
3. „ „ with 2 & 4 teeth.
4. „ „ milk teeth.

II. Bullocks—

1. Plough bullocks. } A pair in each case to be shown. The bullocks to be over 4 years old.
2. Draught bullocks.
3. Trotting bullocks

III. Cows and Heifers—

1. Milking cows. 6 to 8 teeth.
2. „ Do 4 teeth.
3. Do 2 teeth.
4. Heifer.

IV. Buffaloes—

1. Breeding buffaloes.
2. Plough buffaloes (a pair.)
3. Milking buffaloes.

V. Sheep and Goats—

1. Rams.
2. Wool bearing sheep
3. Other sheep.
4. Milking goats.
5. Other goats.

VI. Ponies—

1. Taruvai Ponies.
2. Kangayan and other county ponies.

VII. Special prizes for :—

1. Kangayan trotting bulls
2. Kangayan cow.
3. Nellore breeding bull.
4. Nellore milking cow.
5. Amaratimahal trotting bull (pair).
6. Kandakur (Nellore District) buffaloes (pair.)

ETTAIYAPURAM,
October 1908.

S. T. SHUNMUGAM PILLAI,
Dewan.

To

The Dewan of
Ettaiyapuram Samsthanam,
Kovilpatti.

Sir,

I wish to exhibit the articles as per particulars given in the annexed form, at the Agricultural and Industrial Exhibition and Cattle Show of the Ettaiyapuram Samsthanam, to be held on the 15th March and the following days up to 21st March 1909 and show for four days at Kovilpatti.

I consent to abide by the Rules and Regulations of the Exhibition of the Samsthanam, and on being informed that my name has been enrolled as an exhibitor, I shall be glad to furnish any further information required.

Yours faithfully,

Signature of the intending Exhibitor.
Father's name.

Address in full: Town. / Village. / Post office. / Nearest Railway Station. / District. / Province.

Dated

Agricultural and Industrial Exhibition and Cattle Show of Ettaiyapuram Samsthanam to be held at Kovilpatti on 15th March 1909.

Statement of Exhibits.

Description of the article	Number of group	Name of the manufacturer	Place of manufacture*	Price of the article	For sale or not	Area of covered space required	Whether any special structure, stands, cup boards will be required, if so what?	Area of open space required	Whether demonstration of machinery is intended to be given and, if so, state special requirements	Any other special facilities desired	Other particulars †

I guarantee that the particulars given above are to the best of my knowledge and belief, correct and accurate.

Date .....

Station.....

Signature of Exhibitor.....

* Mention Town / Village District and Province

† If the articles be not a *bona fide* manufacture of India, state here what indigenous industries it is likely to promote.

N. B.—If more forms are required, application should be made to the Dewan of Ettaiyapuram.

DISTRICT REPORTS.

8. Markets how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.

11. Public health.

12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	7½	5¼ to 5½	seers per rupee.
	Ragi ...	19	9½ to 10	

Agricultural operations.—Paddy under harvest.

State of standing crops.—Withering.

Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Markets are well supplied for the present.

9. *Standing crops.*—Paddy is withering for want of rain in all taluks except Devanhalli and Anekal. Sugar-cane is in good condition in Devanhalli, but is withering in the Nelamangala Taluk. Kulthi in the Nelamangala, Devanhalli and Dodballapur Taluks is in good condition. Avare and save in Kankanhalli and avare, togare and castor in the Closepet Sub-Taluk, are in moderate condition.

Crops harvested.—It is reported that first sown ragi in all the taluks, and paddy in the Devanhalli and Anekal Taluks have been harvested. Sugar-cane is being milled in the Kankanhalli Taluk.

Estimated outturn of crops.—From 4 to 12 annas in Nelamangala; from 4 to 10 annas in Channapatna; from 2 to 8 annas in the Anekal and Devanhalli Taluks and from 6 to 12 annas in the Closepet Sub-Taluk.

10. Prospects of the season are not very encouraging. No rains anywhere in the district. Food stuffs available but their prices are reported to continue to be very high.

11. Public health generally good. But plague has broken out in parts of the Kankanhalli and Magadi Taluks. Fever and cold is subsiding in the Magadi Taluk.

12. Cattle are reported to be generally healthy. But "Dod Roga" is reported to be prevailing in some parts of the Kankanhalli Taluk and in the Bidadi Hobli of the Closepet Sub-Taluk, owing to want of fodder in some villages of the Channapatna Taluk, cattle are being taken from there to the Mudaktore forest. Fodder is insufficiently available in all other taluks. Water is generally available, except in some tracts where it is obtainable with difficulty from draw-wells.

KOLAR.

8. Market fairly well supplied.

9. *Standing crops* have been withering away throughout the district.

Crops sown.—Bengal gram in beds of tanks in Chintamani, Sidlaghatta, Goribidnur and Gudibanda.

Crops harvested.—Sugar-cane in Goribidnur, Bagepalli and Gudibanda; same in Mulbagal, Bowringpet, Sidlaghatta, Bagepalli and Srinivasapur; and ragi in all the taluks of the district.

Outturn of harvest.—

Sugar-cane in	Bagepalli, Goribidnur and Gudibanda,	yield from	8 to 12 annas.
Same	in Mulbagal,	yield	4 annas.
Do	in Bowringpet,	yield from	4 to 8 annas in parts.
Do	in Bagepalli, do		2 to 6 annas.
Do	in Sidlaghatta, do		1 to 2 ,,
Do	in Srinivaspur, do		1 to 2 ,,

Ragi, yield from 2 to 6 annas throughout the district.

10. Prospects of the season not satisfactory. Food stuffs available, but their prices continue to be very high.

11. Except for plague in parts of the Sidlaghatta, Chikballapur and Malur Taluks and small-pox in parts of Mulbagal, public health generally good.

12. It is reported that Rinderpest is still prevailing in parts of Mulbagal, Sidlaghatta, Goribidnur and Gudibanda. Water and fodder sufficient for the present.

TUMKUR.

8. Supply in market moderate.

9. *Standing crops.*—Dry crops, such as avare, togari and horse gram are reported to be withering for want of rain. Wet crops under wells in the Maddagiri, Sira and Pavagada Taluks are in fair condition.

Crops sown.—Cholam and Bengal gram in the Maddagiri, Sira and Pavagada Taluks and the Koratagere Sub-Taluk; paddy in the Maddagiri and Pavagada Taluks and the Koratagere Sub-Taluk; Bengal gram in the Turuvekere Sub-Taluk; and wheat in the Pavagada Taluk.

Crops harvested.—Ragi in all the taluks, except the Pavagada and Kunigal Taluks; cholam in the Maddagiri Taluk; horse gram in the Chiknayakanhalli, Gubbi and Pavagada Taluks and the Koratagere and Turuvekere Sub-Taluks; and paddy in the Gubbi Taluk.

10. Prospects of the season not satisfactory. Food stuffs are available for the present, but their prices continue to be high.

11. Except for small-pox in certain villages of the Maddagiri and Chiknayakanhalli Taluks, public health generally good.

12. "Dod Roga" among cattle in the Tumkur Taluk and "Kari Roga" among sheep in the Maddagiri Taluk, are still prevailing. Owing to ragi and other crops having been harvested fodder is procurable in limited quantities in all the taluks, except in portions of the taluks of Tumkur, Tiptur and Kunigal and the Sub-Taluk of Turuvekere. Water scarcity is being felt in several villages of the Taluks of Tumkur, Gubbi, Tiptur, Pavagada and Kunigal and the Sub-Taluk of Turuvekere. It is reported that some cattle from the Tiptur Taluk and the Turuvekere Sub-Taluk have been taken to distant places for grazing purposes.

MYSORE.

8. Market fairly well supplied.

9. *Agricultural operations.*—Lands in parts of the Gundlupet Taluk are being ploughed and made ready for sowing kar seeds.

Standing crops.—In the Mysore Taluk paddy, Bengal gram, sugar-cane, avare, togari, castor, horse gram, green gram, hutchellu, ragi, tadagani and black gram; In Chamrajnagar, ragi, sugar-cane, togari, avare, hutchellu, Bengal gram, paddy, cotton, mulberry, castor, black gram and green gram; in Krishnarajpete, horse gram, avare and togari; these as well as the dry crops in parts of the Nagamangala and Mandya Taluks are reported to be withering for want of rain. For want of water in the Sulekere and Kirgaval tanks in the Malvalli Taluk, crops under these tanks are also reported to be withering. Horse-gram in parts of the Hunsur Taluk is reported to have been damaged.

Crops harvested.—Paddy in parts of the Mysore, Hunsur, Yedatore, T.-Narsipur and Krishnarajpete Taluks; ragi in parts of the Chamrajnagar, Gundlupet, T.-Narsipur, Malvalli and Krishnarajpete Taluks. Horse-gram in parts of the Gundlupet, Nanjangud and T.-Narsipur Taluks; navane, haraka and samè in parts of the Malvalli Taluk; castor and hutchellu in parts of the Mysore Taluk; togari in parts of the Mysore, Hunsur and Nanjangud Taluks; green-gram in parts of the Mysore, Chamrajnagar and Nanjangud Taluks; and black-gram in parts of the Mysore and Chamrajnagar Taluks.

Estimated outturn of crops:—

Seringapatam Taluk—Paddy, yield from 12 to 14 annas; ragi yield 4 annas.

Hunsur—Paddy, yield 12 annas.

Krishnarajpete—Paddy, yield 12 annas.

Malvalli—Ragi, navane, haraka and samè, yield 8 annas each.

10. Prospects of the season indifferent in certain parts and not good in others. The standing crops are in urgent need of rain throughout the district. Food grains are now available with raiyats and merchants, but their prices are still high.

11. Except for plague in a few places in the district, public health generally good.

12. Cattle are suffering from "Dod Roga" in parts of the Mysore, Chamrajnagar, Yedatore, Heggaddevankote and Gundlupet Taluks, and from "Sappe Roga" in parts of the Yedatore and Malvalli Taluks. Fodder scarce in parts of the Krishnarajpete, Nagamangala and Mandya Taluks. It is diminishing in parts of the Nanjangud Taluk. In other parts, it is available for the present. It is reported that cattle from Nagamangala Mandya, Channarayapatna, Kankanhalli and Sravanabelagola are being brought to the Hunsur kavals for grazing. Water is available for the present in other parts. A large number of drinking water wells is being sanctioned wherever necessary.

HASSAN.

8. Market fairly well supplied.

9. *Standing crops.*—Avare, castor, hurali, togari, haraka, etc., in the Channarayapatna and Arsikere Taluks are reported to be withering for want of rain. Black gram, castor, avare, etc., in the Hassan, Arkalgud, Hole-Narsipur and Belur Taluks urgently require rain.

Crops sown.—Bengal gram and ibbani jola in the Channarayapatna Taluk and Bengal gram in beds of tanks in which there is no water.

Crops harvested.—Paddy in the Hassan, Manjarabad, Belur, Channarayapatna, Arkalgud and Hole-Narsipur Taluks and the Alur Sub-Taluk; sugar-cane in the Channarayapatna Taluk; togari in the Hassan Taluk; and Dod ragi in parts of the Arsikere and Channarayapatna Taluks; these are being harvested.

10. Prospects of the season generally fair except in parts of the Arsikere and Channarayapatna Taluks, parts of the Dodda-Kadnur Hobli of the Hole-Narsipur Taluk and parts of the Madihalli and Halebidu hoblis of the Belur Taluk, where they are not encouraging.

11. Except for plague in parts of the Hassan and Channarayapatna Taluks, public health generally good.

12. Cattle are generally in fair condition. But "Dod Roga" is still prevalent in parts of the Manjarabad, Arsikere and Arkalgud Taluks. Pasture and fodder are generally available. In parts of the Arsikere and Channarayapatna Taluks, where grass is not sufficiently grown, dug-up grass and jola stalks are being used. It is reported that many cart-loads of ragi and paddy straw are being taken to Arsikere from the Hassan Taluk for being sold there. It is also reported that some people from the Kunigal and other maidan taluks have gone with 264 head of cattle for grazing purposes to the Manjarabad Taluk and that 265 head of cattle, in addition to the 1,156 head of cattle of the previous weeks, from the Arsikere, Channarayapatna, Tiptur, Kunigal and Tumkur Taluks have been brought during the week to the Belur Taluk, for grazing in the kavals there. Difficulty for water having been felt in parts of the Arsikere and Channarayapatna Taluks, estimates for sinking wells in these taluks have been sanctioned.

SHIMOGA.

8. Markets are moderately supplied.

9. *Standing crops.*—*Viz.*, paddy, sugar-cane, Bengal-gram, togari, horse gram, avare, cotton and jola though in fair condition are yet in need of much rain.

Crops harvested.—Paddy in portions of the Shimoga, Honnali, Sagar, Nagar and Tirthahalli Taluks and the Kumsi Sub-Taluk; ragi in the Shimoga and Channagiri Taluks; jola in the Channagiri and Honnali Taluks; koresane mustard, chillies, and navane in the Channagiri Taluk; save and horse-gram in the Honnali Taluk; and arecanut in the Nagar and Tirthahalli Taluks; and the Kumsi Sub-Taluk; and sugar-cane is being milled in portions of the Shimoga, Channagiri and Sagar Taluks.

Probable outturn of crops—

Shimoga—Paddy, yield from 4 to 8 annas.
Channagiri—Paddy, yield 8 annas.
Ragi, yield from 4 to 8 annas.
Shikarpur—Paddy 8 annas.
Sugar-cane 8 annas.
Dry crops, 2 annas.
Sorab—Paddy 10 annas.
Ragi 2 annas.
Horse-gram 4 annas.
Jola 4 annas.
Sugar-cane 10 annas.
Arecanut 12 annas.
Sagar—Paddy, yield 8 annas.
Ragi do
Tirthahalli—Paddy, yield 8 annas.
Kumsi Sub-Taluk—Paddy, yield 14 annas
Horse-gram 8 annas.
Ragi 10 annas.

10. Prospects of the season are not as fair as in former years, owing to want of timely rains. Food stuffs are available in limited quantities and their prices are still rising.

11. Public health generally good. But plague continues still in the Kumsi Sub-Taluk.

12. Murrain prevails among cattle in portions of the Honnali, Sorab, Sagar and Nagar Taluks and the Kumsi Sub-Taluk. Water and fodder are available for the present. Their want is being felt in portions of the Shimoga Taluk. Several herds of cattle from portions of the Tumkur, Hassan and Chitaldrug Districts are being driven into the Shimoga and Channagiri Taluks for grazing purposes.

KADUR.

8. Market well supplied.

9. *Standing crops.*—

In Chikmagalur—Paddy, ragi, castor, avare, gingelly, kulthi, coriander, Bengal gram, sugar-cane, wheat, jola and coffee.

In Kadur—Paddy, ragi, jola, sugar-cane, avare, Bengal gram, chillies, wheat, kulthi, navane and savè.

In Tarikere—Paddy, ragi, kulthi, avare, jola, togari, navane, coriander, gingelly, sugar-cane, green gram and black gram.

In Koppa—Paddy, sugar-cane, areca, coffee and pepper.

In Mudgere—Paddy, ragi, cardamom, sugar-cane and coffee.

In Yedahalli—Paddy, sugar-cane, areca and coffee.

In Sringeri—Paddy and areca.

Standing wet and dry crops have been withering for want of rain. Avare and kulthi in Hirenallur hobli, castor in Kadur and Sakrepatna hoblis of the Kadur Taluk and ragi in parts of the Mudgere Taluk are reported to have been infested with "Kondli Hula."

Crops harvested and their yield.—

In Chikmagalur—Coffee, yield from 4 to 8 annas.
Do Paddy do 4 to 12 „
Do Ragi do 2 to 4 „

In Kadur—Ragi, savè, paddy, sugar-cane and chillies, yield not given.

In Tarikere—Paddy, yield 8 annas.
Do Ragi, jola and chillies, yield from 4 to 6 annas.

In Koppa—Paddy, areca and coffee, yield 8 annas.

In Mudgere—Paddy and coffee, yield 8 annas.
Do Cardamom, yield 6 annas.

In Yedahalli—Paddy, yield from 4 to 6 annas.
Do —Areca, yield from 8 to 10 annas.

In Sringeri—Paddy and areca, yield 12 annas.

10. Prospects of the season not satisfactory. Rain is very badly wanted throughout the district. Supply of food stuffs sufficient for the present, but their prices are very high.

11. Except for plague in certain villages of the Kadur and Tarikere Taluks, public health generally good.

12. Cattle are generally healthy. Water and fodder are available in the malnad; but difficulty is felt in procuring them in the maidan parts of the district. In some parts of the Kadur Taluk, cattle are being fed on dried up standing crops and on date leaves.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops*, such as ragi, jola, Bengal gram, cotton, sugar-cane, castor, paddy, togari, horse gram, avare and tobacco are reported to be withering for want of rain, except those under *kapile* wells and channels which are in fairly good condition. Bili jola in the black cotton fields is withering for want of rain.

Crops sown.—Jola, wheat and Bengal gram under *kapile* wells and in tank-beds in the Chitaldrug and Challakere Taluks; and navane under wells in the Challakere Taluk.

Crops harvested and their yield.—Ragi and navane in the Chitaldrug, Challakere and Molakalmuru Taluks, yield from 2 to 8 annas; jola in the taluks of Chitaldrug and Holalkere and in the Harihar Sub-Taluk, yield from 2 to 8 annas; sajje in the Challakere and Molakalmuru Taluks, yield from 2 to 8 annas; horse gram in the Challakere and Holalkere Taluks, yield from 2 to 8 annas; samè in the Challakere Taluk and togari and navane in the Holalkere Taluk, yield from 2 to 8 annas; sugar-cane and paddy in the Chitaldrug and Holalkere Taluks, yield from 2 to 8 annas; and sugar-cane in the Chitaldrug Taluk, yield from 2 to 8 annas.

10. Prospects of the season fair, except in parts of the Hosdurga, Hiriyur and Challakere Taluks. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug and Holalkere Taluks, where rinderpest prevails. Water and fodder available, except in parts of the Hiriyur, Challakere and Hosdurga Taluks.

BANGALORE,
16th *December* 1908.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.

ABSENT.

Official.

H. J. BHABHA, ESQ., M.A.

M. KANTHARAJ URS, ESQ., B.A.

The Secretary reported to the Council that the Village Offices Bill had received the assent of His Highness the Maharaja on the 16th day of October 1908.

Bill to recognize the representative character of the Administrator General of Madras.

MR. K. S. CHANDRASEKHARA AIYAR moved for leave to introduce the above bill, and in doing so said :—

Sir,—I beg with your permission to move for leave to introduce a Bill to provide for the better recognition of the representative character of the Administrator-General of Madras in respect of the assets of deceased British subjects in Mysore.

I may state at the outset that the subject is one that has been under discussion between the Government of Mysore and the British Government since the year 1902, and that the object of the present Bill is to give effect to the understanding that has been reached as the result of such discussion. The legislation proposed is therefore more or less of a formal character.

Next, as to the object of the Bill. The Administrator-General's Act, II of 1874, extends not only to the whole of British India, but also, as far as regards British Subjects of His Majesty the King Emperor, to the dominions of Princes and States in India in alliance with His Majesty. For purposes of administrative convenience, Mysore has been included in the definition of the "Presidency of Madras;" and Section 23 A of the Act declares that probates or letters of administration granted by the High Court at Madras to the Administrator-General of the Presidency of Madras shall have effect over all the assets of a deceased British Subject throughout such Presidency including, of course, the Mysore State.

Since, however, the Act in question was not included in the schedule to the Instrument of Transfer as one of the enactments in force here at the time of the Rendition, and has not since been extended to Mysore by His Highness the Maharaja, it is not part of the territorial law of the State, though of course it is binding as a personal law on British Subjects resident herein. As a consequence, unless the Courts of Mysore are empowered by means of local legislation to recognize the status of the Administrator-General, the provisions of Section 23 A, already quoted, cannot render an authorization by the Madras High Court sufficient in all cases.

The members of this Council may not be unaware that the Mysore Government have already to a limited extent recognized the legal status of the Administrator-General of Madras. For, in clause (ii) of Section 4 of the Succession Certificate Regulation, VII of 1901, it is provided that a Court in Mysore may accept, among other things, a certificate granted under Section 36 or 37 of the Administrator-General's Act, 1874, in proof of the representative title of any person applying for the passing of a decree or for the execution of a decree or order for payment, against the debtor of a deceased person.

What is now proposed is to go a little further and to recognize the representative title of the Administrator-General (under probates and letters of administration granted by the Madras High Court) against all debtors of, and all persons holding property belonging to, deceased British Subjects in the State. For this purpose, a general extension of the British Act is unnecessary, and it is found sufficient to enact a short Regulation on the lines of the Rules framed in this behalf for the Civil and Military Station of Bangalore in a notification of the Government of India of the 15th September 1905.

The Council may rest assured that no loss of stamp revenue will accrue to the State by the arrangement outlined above. It has been settled that the fees payable under Article 11 of Schedule I of the Court Fees Act, 1870, in respect of grants of probate or letters of administration to the Administrator-General, shall, in the case of property belonging to deceased British Subjects situated in the Mysore State, be made over to His Highness' Government by refund from the British Treasury. This, however, is a matter for executive action between the Governments concerned, and will not find a place in the Bill.

With these remarks, I beg to move that leave be granted to introduce the Bill in question into the Council.

RAJAMANTRAPRAVINA Mr. C. SRINIVASA IYENGAR, seconded the motion.

The motion was put to the Council and carried.

A Bill further to amend the City of Mysore Improvement Regulation, III of 1903.

Mr. T. ANANDA RAO moved that the bill be read in Council, and in doing so said :—

Sir,—At our last meeting the Council were good enough to accord to me leave to introduce a bill further to amend the City of Mysore Improvement Regulation, III of 1903.

The Bill has been printed and published under Notification No. 121, dated 31st October last, and I have already explained its main purpose and import. I now beg to move that it be introduced and read at the present meeting of the Legislative Council.

Owing to the non-contentious nature of the proposed enactment and the importance of giving effect to the provisions of the Bill at an early date, it seems to me that the Bill need not be referred to a Select Committee under Rule 45.

MR. K. S. CHANDRASEKHARA AIYAR seconded the motion.

The Bill was then read by the Secretary.

MR. M. C. RANGIENGAR supported the motion and said,

In this connection, I beg to submit, as a member of the Mysore City Improvement Trust Board, that it is more than three years since a recommendation was made by the Board to the Government that the Trust Regulation should be amended on the lines of this Bill. At that time it was thought that the Municipality had ample powers to get the necessary works executed, and it was not considered necessary to confer these powers on the Trust Board. On account of the want of these powers in the Board, however, a good deal of the work of improvement which could have been done during the past three years has been left undone. Under these circumstances, the present bill comes not a moment too soon. I have therefore much pleasure in supporting the motion.

The motion was thereupon put to the Council and carried.

MR. T. ANANDA RAO then proposed the suspension of the rules of business to permit of the bill being finally considered and passed at this meeting of the Council. This was seconded by MR. NAGAPPA and the motion was put to the Council and carried. The bill was then finally considered by the Council and passed.

A Bill to provide a law relating to Treasure Trove in Mysore.

RAJAKARYAPRAVINA MR. A. RANGASWAMI IYENGAR :—Sir, I beg to introduce the Bill to provide a law relating to Treasure Trove and to move that it be read in Council. Before proceeding to refer to the provisions contained in it, I propose to give a short account of the law on this subject at present in force in Mysore. It is contained in the Rules published under the late Chief Commissioner's Notification No. 6 of 1867, and had been adopted from the Madras Regulation XI of 1832. But, having been issued without the sanction of the Government of India, the Rules were not included in the schedule to the Instrument of Transfer and so early as in 1886 the questions as to their legal validity and the expediency of the introduction of a Treasure Trove Act were raised. A Draft Regulation was prepared on the basis of the Government of India Act, VI of 1878, and subjected to careful scrutiny and revision from time to time, and a final draft was prepared in 1894. But in connection with an appeal from an order of the Deputy Commissioner of Shimoga regarding some coins found in a temple under the Chief Commissioner's Rules, a proposal was made to retain the said rules with some minor alterations as regards wording and procedure. But no final action was taken even on this proposal and ultimately it was decided with a view to remove all doubts as to the validity of the existing Rules to introduce a Regulation based on the British Indian Act, VI of 1878.

The principles of jurisprudence applicable to the rights to Treasure Trove or property found hidden underground have differed at different times and in different countries with reference to the ideas prevailing therein as to the rights of property of Government and of individuals.

It is scarcely necessary to enter into any explanation of those principles. They have been referred to in detail in the speeches of the Hon'ble Member who piloted the Bill in the Legislative Council of the Government of India, and it is sufficient to remark that the Draft Bill does not contemplate any material changes in the fundamental principles underlying the provisions of the Chief Commissioner's Rules which have been in force in the State for so many years. Nor is any argument needed to recommend to your acceptance the enactment of a measure on the lines of the British Indian Act, VI of 1878, which has been passed in the legislature of the Government of India after mature deliberation and after careful consideration of the laws on the subject in force in almost all the civilised countries of the world. We are on safe ground in adopting the provisions of such a measure, the more especially as our aim has always been to bring our laws in line with those obtaining in British India. Though drafted on the model of the Indian Act, there are, however, a few material alterations which I shall presently refer to. The chief aim of this Regulation is to prevent the concealment of the discovery of any treasure and its appropriation by the finder to the detriment of the right of persons interested and, what is of greater importance, to enable Government to acquire such articles as may be of historic or artistic importance and worthy of preservation in the interests of the public.

The Bill accordingly requires that intimation shall be given by the finder of the discovery of any treasure and provides penalties for omission to give such intimation. It recognises the right of all persons who can prove an antecedent property in it. This antecedent right is however permitted to be asserted and proved only in cases where there is presumptive evidence that the treasure was hidden within the previous one hundred years. Provision is also made to determine the respective rights of the finder and the owner of the land where the treasure was found, when such right of property is not established. All claims to the treasure and disputes as to the ownership of the land are to be referred to Civil Courts for adjudication. The remaining clauses relate to the procedure to be followed in carrying out the above provisions.

The Bill differs from the British Indian Act, VI of 1878, in the following particulars :—

(*a*) The right of Government to the excess beyond one lakh when no person other than the finder has established his right to a share (clause 17). This is taken from the Chief Commissioner's Rules, though there is no similar provision in the Indian Act.

(*b*) As between the owner and the finder, the Indian Act allots three-fourths to the finder and one-fourth to the owner. An equal division between the two is considered more equitable and the Bill provides for this accordingly (clause 12).

(*c*) When the Deputy Commissioner proceeds to sell the treasure under clause 12, he is required to take the orders of Government as to the particulars of sale.

(*d*) Power is reserved to Government to make rules on matters incidental to treasure-trove not provided for in the Bill.

I need not discuss at present the reasons which led to the proposal of these alterations, as the provisions of the Bill may have to be considered by a Select Committee and brought up for discussion in this Council before it is passed. With these brief remarks, I beg to move that the Bill be read in Council.

MR. S. NARAYANA RAO seconded the above motion, which was put to the Council and carried.

RAJAKARYAPRAVINA MR. A. RANGASWAMI IYENGAR, then moved that the Bill be referred to a Select Committee composed of MR. ANANDA RAO, RAJAMANTRAPRAVINA MR. C. SRINIVASA IYENGAR, MR. NAGAPPA, MR. NARAYANA RAO and the mover.

The Mysore Gazette.

DISTRICT REPORTS.

8. Markets how supplied.
9. Progress of agricultural operations, state of standing crops, prospects and probable outturn of harvests, serious damage done to crops by insects or other natural calamities.
10. Prospects of season, tracts in which the rainfall has been insufficient, areas affected by scarcity, number of people under relief, and state of food stocks.
11. Public health.
12. Remarks as to the condition of agricultural stock, failure of pasturage, of fodder, etc.

BANGALORE CIVIL AND MILITARY STATION.

		Average for the past five years of the corresponding week.	*Current.*	
Prices of food grains—	Rice ...	7½	5¼ to 5½	seers per rupee.
	Ragi ...	19	9½ to 10	

Agricultural operations.—Paddy thrashing.
Cattle are in good condition. Water and fodder sufficient.

BANGALORE CITY AND TALUKS.

8. Markets well supplied for the present.
9. *Standing crops*:—
Bangalore—Wet crops have dried up and other crops are in tolerable condition.
Magadi—Wet crops have withered away and the dry crops are withering for want of rain.
Hoskote—Wet crops are not promising and avaré is fading for want of rain, except in some parts of the Kasba, Sulebele, Nandagudi and Jadigenahalli Hoblis.
Devanhalli—Sugar-cane is in good condition
Nelamangala—Avaré and hutchellu are in good condition, and sugar-cane and paddy are withering.
Kankanhalli—Avaré and hutchellu are in good condition.
Closepet and Dodballapur—Dry crops and sugar-cane are withering and kulthi is in moderate condition.
Crops harvested.—Paddy and kulthi in the Magadi and Anekal Taluks; kulthi, ragi, paddy, sugar-cane and ground nuts in Bangalore; ragi and savé in Hoskote; paddy, ragi and kulthi in Devanhalli; castor, ragi and kulthi in Channapatna; paddy and kulthi in Nelamangala; ragi and wet crops in Closepet; and ragi in the Maralwadi Hobli of the Kankanhalli Taluk.
Outturn of crops:—
In parts of Devanhalli—Dry crops yield from 2 to 8 annas.
In Anekal—Paddy and kulthi do do
Paddy crop is far below the normal.
Damage to crops:—
In some parts of Devanhalli, avaré crops are being damaged by insects.
10. Prospects of the season good in Magadi, Hoskote and Kankanhalli; moderate in Bangalore and Devanhalli; and not encouraging in Nelamangala and Closepet. Food stuffs available, but their prices continue to be still high. People from Kunigal and other taluks have come to the Madabal Hobli of the Magadi Taluk in search of livelihood.
11. Public health generally good. Plague is subsiding in Magadi and Kankanhalli and fever and cold are still prevailing in some parts of Magadi.
12. Cattle are reported to be generally healthy. But "Neardi Roga" in some parts of the Anekal Taluk and "Dod Roga" in Maralwadi and Athikoppa villages of the Kankanhalli Taluk are still prevailing. Fodder is available for the present. Supply of water is generally available, except in some parts, where it is obtained with difficulty from draw-wells. In the Channapatna Taluk and especially in the hobli of Virupakshipur, fodder being insufficient, cattle are being driven into State Forests for grazing.

KOLAR.

8. Market fairly well supplied.
9. *Standing crops*, have been withering away for want of rain throughout the district.
Crops sown.—Cholum in tank beds in parts of Sidlaghatta and Goribidnur.
Crops harvested.—Sugar-cane in Goribidnur, Bagepalli and Gudibanda; samè in Bowringpet and Srinivaspur; and ragi in all the taluks of the district.
Outturn of the harvest.—
Sugar-cane in Bagepalli, Goribidnur and Gudibanda, yield from 8 to 12 annas.
Samè in parts of Bowringpet, yield from 4 to 8 annas.
Do in parts of Srinivaspur do 1 to 2 do
Ragi throughout the district, yield from 2 to 6 annas.
10. Prospects of the season not satisfactory. Food stuffs available, but their prices continue to be very high.
11. Except for plague in parts of the Sidlaghatta, Chikballapur and Malur Taluks and small-pox in parts of Mulbagal, public health generally good.
12. It is reported that rinderpest is still prevailing in parts of Mulbagal, Sidlaghatta, Goribidnur and Gudibanda. Water and fodder sufficient for the present.

TUMKUR.

8. Supply in market is moderate.

9. *Standing crops.*—Dry crops, such as avare, togari and horse gram are reported to be withering for want of rain. Wet crops under wells in the Maddagiri, Sira and Pavagada Taluks and sugar-cane in the Turuvekere Sub-Taluk are in fair condition.

Crops sown.—Cholum and Bengal gram in the Maddagiri, Gubbi and Pavagada Taluks; paddy in the Maddagiri and Pavagada Taluks and the Koratagere Sub-Taluk; and wheat in the Pavagada Taluk.

Crops harvested.—Ragi in the Tumkur, Maddagiri, Sira, Gubbi and Tiptur Taluks and the Turuvekere Sub-Taluk; togari, avare and horse gram in certain portions of the Maddagiri, Chiknayakanhalli and Gubbi Taluks and the Koratagere and Turuvekere Sub-Taluks; and sugar-cane in the Maddagiri and Kunigal Taluks and the Koratagere and Turuvekere Sub-Taluks.

10. Prospects of the season not satisfactory. Food stuffs are available for the present, but their prices continue to be high.

11. Except for small-pox in certain villages of the Maddagiri and Chiknayakanhalli Taluks, public health generally good.

12. "Dod Roga" among cattle in the Tumkur, Gubbi and Tiptur Taluks and "Kari Roga" among sheep in the Maddagiri Taluk, are still prevailing. Owing to ragi and other crops having been harvested fodder is procurable in limited quantities in all the taluks, except portions of the Tumkur and Kunigal Taluks. Water scarcity is being felt in several villages of the Tumkur, Sira, Gubbi, Tiptur, Pavagada and Kunigal Taluks and the Turuvekere Sub-Taluk. It is reported that some cattle from the Tiptur Taluk and the Turuvekere Sub-Taluk have been taken to distant places for grazing purposes.

MYSORE.

8. Market fairly well supplied.

9. *Agricultural operations.*—Lands in parts of the Gundlupet Taluk are being ploughed and made ready for sowing kar seeds. Tank beds in parts of the Mandya Taluk are being ploughed and made ready for cultivation.

Standing crops.—Paddy, avare, castor, togari, horse gram, Bengal gram, black gram, green gram, tadagani and hutchellu in the Mysore Taluk; avare and togari in the Mandya Taluk; and dry crops in the Krishnarajpete and Nagamangala Taluks are reported to be withering for want of rain. Bengal gram and avare in parts of the Chamrajnagar Taluk are reported to have been infested with a kind of insect called "Karagamaru." For want of water in the Sulekere and Kirgaval tanks in the Malvalli Taluk, crops under them are reported to be withering.

Crops harvested.—Paddy in parts of the Mysore, Hunsur, Nanjangud, T.-Narsipur, Malvalli and Krishnarajpete Taluks; ragi in parts of the Chamrajnagar, T.-Narsipur, Malvalli and Krishnarajpete Taluks; horse gram in parts of the Mysore, Chamrajnagar, Gundlupet, Nanjangud and T.-Narsipur Taluks; togari in parts of the Mysore, Hunsur and Nanjangud Taluks; samè and navanè in parts of the Gundlupet and Malvalli Taluks; castor, black gram and hutchellu in parts of the Mysore Taluk; and haraka in parts of the Malvalli Taluk.

Estimated outturn of crops :—

Seringapatam Taluk—Paddy, yield from 8 to 14 annas; ragi, yield 4 annas.
Hunsur Taluk—Togari, yield 8 annas.
Gundlupet Taluk—Savé, navané, horse gram and green gram, yield from 2 annas each.
Malvalli Taluk—Ragi, navané, haraka and savè, yield 8 annas each.
Krishnarajpete Taluk—Ragi under channels, yield 12 annas; ragi, yield 4 annas.
Mandya—Avare and togari, yield less than 4 annas.

10. Prospects of the season indifferent in certain parts and not good in others. The standing crops are in urgent need of rain throughout the district. Food grains are now available with raiyats and merchants, but their prices are still high.

11. Except for plague in a few places in the district, public health generally good.

12. Cattle are suffering from "Dod Roga" in parts of the Mysore, Chamrajnagar, Hunsur and Yedatore Taluks, and "Sappe Roga" in parts of the Yedatore Taluk. Fodder scarce in parts of the Krishnarajpete, Nagamangala and Mandya Taluks. It is diminishing in parts of the Nanjangud Taluk. In other parts, it is available for the present. It is reported that cattle from the Channarayapatna, Nagamangala, Krishnarajpete, Kunigal, Tiptur and Gubbi Taluks and from Turuvekere are being brought to the Hunsur kalvals for grazing. Water scarcity is being felt in parts of the Mandya Taluk, where wells are being sunk in tank beds. In other parts, water is available for the present. A large number of drinking water wells is being sanctioned, wherever necessary.

HASSAN.

8. Market fairly well supplied.

9. *Agricultural operations.*—Wet lands are being ploughed in parts of the Manjarabad Taluk.

Crops sown.—Bengal gram and ibbani jola in parts of the Channarayapatna Taluk.

Standing crops.—Sugar-cane, avarè, castor, chillies, etc., are withering in almost all parts of the district. Paddy and sugar-cane under channels in the Hole-Narsipur Taluk are in good condition. Castor plants are infested by "Kondli" insects in the Arsikere Taluk.

Crops harvested.—Paddy, cardamom and coffee in the Manjarabad Taluk and paddy, togari and horse gram in the Alur Sub-Taluk.

Estimated yield of crops :—

Manjarabad Taluk—Paddy, yield from 8 to 12 annas.
Coffee, yield 8 annas.
Channarayapatna Taluk—Dry crops from 2 to 4 annas.
Paddy and sugar-cane, yield from 4 to 8 annas.

10. Prospects of the season generally fair, except in parts of the Arsikere, Channarayapatna, Hole-Narsipur and Belur Taluks.

11. Except for plague in parts of the Hassan and Channarayapatna Taluks, public health generally good.

12. Cattle are generally in fair condition. But "Dod Roga" is still prevalent in parts of the Manjarabad, Arkalgud and Arsikere Taluks. Water and fodder are available, except in parts of the Arsikere and Channarayapatna Taluks. Cattle are being taken from these taluks to Manjarabad, Hunsur and other taluks for grazing.

SHIMOGA.

8. Markets are moderately supplied.

9. *Standing crops.*—*Viz.*, Bengal gram, cotton and white jola are in fair condition in the Channagiri Taluk.

Crops harvested.—Paddy in all the taluks, except in portions of the Kumsi Sub-Taluk; ragi in Shimoga, Honnali and Channagiri and portions of the Kumsi Sub-Taluk; horse gram in the Channagiri and Honnali Taluks; kurasani, mustard, and chillies in Shimoga, Channagiri, Honnali and the Kumsi Sub-Taluk; arecanut in the Sagar, Nagar and Tirthahalli Taluks; and sugar-cane is being milled in the Shimoga, Channagiri and Sagar Taluks.

Probable outturn of crops.—

Shimoga—Paddy, yield from 4 to 8 annas.
Channagiri—Paddy, yield 8 annas.
Ragi, yield from 4 to 8 annas.
Shikarpur—Paddy, yield 8 annas.
Sugar-cane, 8 annas.
Dry crops, 2 annas.
Sorab—Paddy, 10 annas.
Ragi, 2 annas.
Horse gram, 4 annas.
Sugar-cane, 10 annas.
Arecanut, 12 annas.
Sagar—Paddy, yield 8 annas.
Ragi do
Tirthahalli—Paddy, yield 8 annas.
Kumsi Sub-Taluk—Paddy, yield 14 annas.
Horse gram, 8 annas
Ragi, 10 annas.

10. Prospects of the season are not as fair as in former years, owing to want of timely rains. Food stuffs are available in limited quantities and their prices still continue to be high.

11. Public health generally good. But plague continues still in the Kumsi Sub-Taluk.

12. Murrain prevails among cattle in portions of the Honnali, Sorab, Sagar and Nagar Taluks and the Kumsi Sub-Taluk. Water and fodder are available for the present. Their want is being felt in portions of the Shimoga Taluk. Several herds of cattle from portions of the Tumkur, Hassan and Chitaldrug Districts are being driven into the Shimoga and Channagiri Taluks for pasture.

KADUR.

8. Market well supplied.

9. *Standing crops.*—

In Chikmagalur—Paddy, ragi, castor, avare, gingelly, kulthi, coriander, Bengal gram, sugar-cane, wheat, jola and coffee.

In Kadur—Paddy, ragi, jola, sugar-cane, avare, Bengal gram, chillies, wheat and kulthi.

In Tarikere—Paddy, ragi, kulthi, avare, jola, togari, navane, coriander, gingelly and sugar-cane.

In Koppa—Paddy, areca, sugar-cane, pepper and coffee.

In Mudigere—Paddy, ragi, coffee, cardamom, and areca.

In Yedahalli—Paddy, sugar-cane, areca and coffee.

In Sringeri—Paddy and areca.

Standing crops both wet and dry have been withering for want of rain.

Crops harvested and their yield.—

In Chikmagalur—Ragi, paddy, sugar-cane and coffee, yield from 4 to 8 annas.

In Kadur—Paddy, chillies and sugar-cane, yield not given.

In Tarikere—Paddy, ragi, kulthi, kuresani and jola, yield 12 annas.

In Koppa—Paddy, and coffee, yield not given.

In Mudgere—Paddy, yield 10 annas.
Coffee do 6 „
Areca do 8 „

In Yedahalli—Paddy, do from 4 to 6 annas.
Areca, yield from 8 to 10 annas.

In Sringeri—Paddy and areca, yield 12 annas.

10. Prospects of the season not satisfactory. No rains any where in the district. Food stuffs are available, but their prices are very high.

11. Public health generally good. But plague prevails still in certain villages of the Kadur and Tarikere Taluks.

12. Cattle are generally healthy. Water and fodder are available in the malnad; but difficulty is felt in procuring them in the maidan parts of the district. In some parts of the taluk, cattle are being fed on dried up standing up crops and on date leaves.

CHITALDRUG.

8. Market well supplied.

9. *Standing crops*, such as jola, Bengal gram, cotton, sugar-cane, paddy, castor, avare togari, chillies and tobacco are reported to be withering for want of rain, while those under *kapile* wells and channels are in fairly good condition.

Crops sown.—Bengal gram in tank beds in the Davangere Taluk; and paddy and wheat under wells in the Molakalmuru Taluk.

Crops harvested and their yield.—Ragi and navane in the Chitaldrug and Challakere Taluks, yield from 1 to 8 annas; same and sajje in the Challakere Taluk, yield from 1 to 8 annas; horse gram in the Chitaldrug, Challakere and Holalkere Taluks, yield from 2 to 8 annas; cotton in the Chitaldrug and Holalkere Taluks, yield from 2 to 8 annas; paddy, sugar-cane and castor in the Chitaldrug Taluk, yield from 2 to 8 annas; and chillies, togari, same and navane in the Holalkere Taluk, yield from 2 to 8 annas.

10. Prospects of the season fair, except in parts of the Hiriyur, Challakere, Hosdurga, Jagalur, Davangere and Chitaldrug Districts. Food stuffs available.

11. Public health generally good.

12. Cattle healthy, except in parts of the Chitaldrug and Holalkere Taluks, where rinderpest is prevailing. Water and fodder available, except in parts of the Hiriyur, Challakere, Hosdurga, Jagalur, Davangere and Chitaldrug Taluks.

BANGALORE,
23rd December 1908.

A. RANGASWAMI IYENGAR,
Revenue Commissioner.
